EXHIBIT A, VOLUME 2

Patents identified as follows, giving the number of the patent, the grantee's name, in some cases in abbreviated form, the title of the invention, the date of issue, and a code number representing the nationality of the grantee, such code numbers[1] having the following meanings:

6 Austria
28 Germany
34 Hungary
38 Italy
39 Japan
57 Rumania
11 Bulgaria

1,750,111; All. Felten and Gutlleaume Carlswork A G. High tension cable. Issued 3-11-30. (28)
1,750,119; Muller Paul. Protective holder. Issued 3-11-30. (28)
1,750,167; Erban Richard. Frictional gearing. Issued 3-11-30. (6)
1,750,168; Erban Richard. Friction gear. Issued 3-11-30. (6)
1,750,202; Steeves Aubrey C. Land breaker and plow. Issued 3-11-30. (28)
1,750,206; Winarsky Edmund. Reducing valve. Issued 3-11-30. (28)
1,750,357; Raimdor Leopold. Strip feeding mechanism. Issued 3-11-30. (28)
1,750,363; Schmid Max. Paper carriage for typewriting machines. Issued 3-11-30. (28)
1,750,365; All. Vereinigte Stahlwerke A G. Rail. Issued 3-11-30. (28)
1,750,384; Bottcher Paul Jr. Method of and apparatus for cutting toothed gears. Issued 3-11-30. (28)
1,750,397, Faulstich Georg. Russian boot. Issued 3-11-30. (28)
1,750,407; Kopp Fritz. Wheel. Issued 3-11-30. (28)
1,750,410; Kovacs Theodor. Reservoir pen. Issued 3-11-30. (28)
1,750,421; All. Nollesche Werke Kommandit Ges. Pulling over machine. Issued 3-11-30. (28)
1,750,472; Huckinghaus Wilhelm. Handsaw. Issued 3-11-30. (28)
1,750,476; Killing Fritz. Means for facilitating the tying and sealing of packages. Issued 3-11-30. (28)
1,750,482; All. Kollmann Adolf Gustav. Mercury vapor lamp for alternating currents. Issued 3-11-30. (28)

EXHIBIT A—VOLUME 3

Patents identified as follows, giving the number of the patent, the grantee's name, in some cases in abbreviated form, the title of the invention, the date of issue, and a code number[1] representing the nationality of the grantee, such code numbers having the following meanings:

6 Austria
28 Germany
34 Hungary
38 Italy
39 Japan
57 Rumania
11 Bulgaria

1,900,599; Elod Egon. Process for the production of cellulose formates. Issued 3-7-33. (28)
1,900,600; All. Soc Italiana Pirelli. High tension electric cable. Issued 3-7-33. (38)
1,900,606; Kipper Ewald. Medicine package. Issued 3-7-33. (28)
1,900,607; Dremmling Aribert. Machine for feeding plastic material such as dough through dies or like apertures. Issued 3-7-33. (28)
1,900,616; Pouchain Adolfo. Electric accumulator. Issued 3-7-33. (38)
1,900,620; Stauber Georg. Rotary mechanical apparatus. Issued 3-7-33. (28)
1,900,624; Voortmann Walter. Safety device for blasting charges employed in mining and similar work. Issued 3-7-33. (28)
1,900,630; Wesnigk Erwin; Zagorski Johann et al. Rolling mill. Issued 3-7-33. (28)
1,900,635; All. Soc Ital Transfers Albini S I T A. Process for printing transfers. Issued 3-7-33. (38)
1,900,663; All. Radiochemisches Forschungs. Manufacture of caoutchouc lacquers or varnisher. Issued 3-7-33. (28)
1,900,690; Benzing Hugo. Power driven typewriter. Issued 3-7-33. (28)
1,900,728; All. Chemische Fabrik Kalk GmbH. Vulcanized rubber composition and process of vulcanizing rubber. Issued 3-7-33. (28)

EXHIBIT A—VOLUME 4

Patents identified as follows, giving the number of the patent, the grantee's name, in some cases in abbreviated form, the title of the invention, the date of issue, and a code number [1] representing the nationality of the grantee, such code numbers having the following meanings:

6 Austria
28 Germany
34 Hungary
38 Italy
39 Japan
57 Rumania
11 Bulgaria

2,100,593; Hessel Georg et al; Maier Hans. Process of preparing a substance increasing the blood pressure. Issued 11-30-37. (28)
2,100,660; Greiner Max. Electromagnetic tool of the percussion type. Issued 11-30-37. (28)

[1] The code numbers throughout this Exhibit A, Volume IV appear in parenthesis.

2,100,666; Müller Alfred Ski binding. Issued 11-30-37. (28)
2,100,672; Odon Riszdorfer. Photographic camera. Issued 11-30-37. (34)
2,100,680; All. Emil Wirth Wirkmanschinenfabrik. Thread delivery device for warp knitting machines. Issued 11-30-37. (28)
2,100,775; All. Maschinenfabrik Augsburg Nurnberg. Welded box frame for vertical internal combustion engines. Issued 11-30-37. (28)
2,100,797; Dallenbach Walter. Electric discharge apparatus. Issued 11-30-37. (28)
2,100,798. All. I G Farbenindustrie A G. Condensation products of carbenium compounds and process of preparing the same. Issued 11-30-37. (28)
2,100,815; All. Durkoppwerke A G. Cutting device for buttonhole or other sewing machines. Issued 11-30-37. (28)
2,100,827; All. Chemische Fabrik Buckau. Process for the poduction of potassium formate. Issued. 11-30-37. (28)
2,101,030; Kunze Willy. Expansion plug for barrels and other tank fire tube and water tube boilers. Issued 12-7-37. (28)
2,101,213; Dichter Jakob. Machine for producing glass vessels from tubing. Issued 12-7-37. (28)
2,101,225; Rambold Adolf. Production of wrappers. Issued 12-7-37. (28)
2,101,232; All. Verpackungsbedarf GmbH. Filling machine. Issued 12-7-37. (28)
2,101,234; All. Maschinenfabrik Augsburg Nurnberg. Sluice gate. Issued 12-7-37. (28)
2,101,253; All. Patentverwertung Dr Martin. Process for producing artificial threads fibers and the like. Issued 12-7-37. (28)
2,101,267; Nestler Edmund. Humidifier. Issued 12-7-37. (28)
2,101,286; Theunissen Heinrich. Method of producing double warp pile fabrics with figured backs. Issued 12-7-37. (28)
2,101,386; All. Norddeutsche Seekabelwerke A G. Submarine signaling cable. Issued 12-7-37. (28)
2,101,390; All. Vorwerk & Co. Blower for vacuum cleaners. Issued 12-7-37. (28)
2,101,395; Kato Etsuro. Operating apparatus for flyer frames. Issued 12-7-37. (39)
2,101,404; Mahle Ernst. Chill mold. Issued 12-7-37. (28)
2,101,409; Nier Bruno. Storm lantern. Issued 12-7-37. (28)
2,101,419; All. Klangfilm GmbH Recording of electrical impulses. Issued 12-7-37. (28)
2,101,423; Beck Stefan. Furnace. Issued 12-7-37. (34)
2,101,446; Neiman Abram. Safety locking device. Issued 12-7-37. (28)
2,101,460; Schmidt Ulrich. Sound-muffling device. Issued 12-7-37. (28)
2,101,511; Rohm Otto. Sole leather and process of preparing the same. Issued 12-7-37. (28)
———:[1] All. Atlas Werke A G. Means for mounting submarine signaling apparatus. (28)
2,101,939; All. Hydro Groeck GmbH. Cooking or extracting process. Issued 12-14-37. (28)
2,101,943; All Kulmbacher Spinnerei. Method of manufacturing yarns. Issued 12-14-37. (28)
2,101,958; Sachsenroder Gustav. Artificial sausage casing and process for making same. Issued 12-14-37. (28)
2,101,967; Walterspiel Alfred. Roasting toasting grilling and cooking apparatus. Issued 12-14-37. (28)
2,101,973; All. Maschinenfabrik Augsburg Nurnberg. Double walled sluice gate. Issued 12-14-37. (28)

[Order 142 Under MPR 120]

KRAY COAL COMPANY, INC.

ORDER GRANTING ADJUSTMENT

Order No. 142 under Maximum Price Regulation No. 120—Bituminous Coal Delivered From Mine or Preparation Plant—Docket No. 1120-88-P. Granting adjustment and denying protest insofar as relief is not granted.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with § 1340.207 (b) of Maximum Price Regulation No. 120; *It is hereby ordered:*

(a) *Granting adjustment.* (1) Coals in Size Groups 6, 7, 8 and 9, produced by the Kray Coal Company, Inc., Crellin, Maryland, at its Pete Greaser and Ream No. 9 Mines (Mine Index Nos. 637 and 1300, respectively), in District No. 3 may be sold and purchased, for shipment by rail, at prices not in excess of the following respective prices per net ton, f. o. b. the mine:

Size group	6	7	8	9
Maximum price	$2.35	$2.25	$2.25	$2.10

(2) Within thirty (30) days from the effective date of this Order, the said Kray Coal Company shall notify all persons purchasing its coals of the adjustments granted by paragraph (a) of this Order, and shall include a statement that if the purchaser is subject to Maximum Price Regulation No. 122 in the resale of coals the adjustments granted in this Order do not authorize any increase in the purchaser's resale price except in accordance with and subject to the conditions stated in Maximum Price Regulation No. 122.

(b) *Denial of protest except insofar as relief is granted by this Order No. 142.* The protest filed by Kray Coal Company, Inc., against the provisions of Maximum Price Regulation No. 120 and assigned Docket No. 1120-88-P is hereby denied except insofar as relief is granted in paragraph (a) of this Order No. 142.

(c) This Order No. 142 may be revoked or amended by the Price Administrator at any time;

(d) Unless the context otherwise requires, the definitions set forth in § 1340.-208 of Maximum Price Regulation No. 120 shall apply to the terms used herein;

(e) This Order No. 142 shall become effective January 16, 1943.

Issued this 15th day of January 1943.

Farm Loan Act, as amended (12 U.S.C. 771 (4)), the terms "equipment" and "improvement" are defined as follows:

(a) *Equipment.* The term equipment shall include implements appropriate for the operation of a farm, and may consist of teams as well as machinery, tools, and like articles.

(b) *Improvement.* The term improvement shall include any beneficial structure or any useful, permanent physical change tending to increase the productive value of the farm, such as clearing, tiling, drainage, fencing, building, and preparations for irrigation. (Sec. 6, 47 Stat. 14, Sec. 12 "Fourth" (c), 39 Stat. 370, as amended; 12 U.S.C. 665, 771 "Fourth" (c).

§ 10.10 *Farm unit; required area and yield of farm.* To constitute a proper unit for a bank loan, a farm must be of sufficient area to yield at the hands of an ordinarily capable farmer, putting it to the use to which it is generally adapted, using average methods, and receiving normal prices, an income sufficient to maintain the family of the applicant, pay operating expenses and taxes, maintain the property, and discharge the interest and amortization payments on his loan. Since the earning power of land varies because of difference in the quality of soils, climatic conditions, crop adaptation, market facilities, and standards of living, no arbitrary acreage limit should be established as necessary for a farm unit. Any decision that a particular property does not constitute a proper farm unit should be reached only after careful consideration of the factors of production and the earning power of the individual farm. (Sec. 6, 47 Stat. 14, Sec. 12 "Fifth", 39 Stat. 370, as amended; 12 U.S.C. 665, 771 "Fifth")

§ 10.25 *Normal agricultural value basis.* The normal value of farms for agricultural purposes shall be the basis of appraisal for loans. For the purpose of such appraisal, commodity prices received by farmers during the period from 1909 to 1914, with such adjustment as may be necessary because of the change in the economic position of particular products, shall be the basis for determining the earning power of farm land. The normal agricultural value of a farm may be defined as the amount a typical purchaser would, under usual conditions, be willing to pay and be justified in paying for the property for customary agricultural uses, including farm home advantages, with the expectation of obtaining average production and of receiving normal prices for farm commodities. (Sec. 6, 47 Stat. 14, Secs. 12 "Fifth", 13 "Second", 39 Stat. 370, 372, as amended; 12 U.S.C. 665, 771 "Fifth", 781 "Second").

§ 10.28 *Special interest rates.* For bank loans secured by first mortgages on the following farm property in the continental United States:

(a) Land that is employed primarily in the production of naval stores as defined by section 2 of the Naval Stores Act (Sec. 2, 42 Stat. 1435; 7 U.S.C. 92);

(b) Land used for the raising of livestock, in estimating the earning power and in establishing the value of which leases or permits for the use of other lands were taken into consideration and were a factor in determining the amount of the loan; and

(c) A farm property, a substantial part of the earnings from which is from orchard crops;

approval has been given to the following interest rates:

(1) For loans through associations, 1 and one-half per centum per annum in excess of the interest rate in the last series of consolidated Federal farm loan bonds, such interest rate not to exceed 6 per centum per annum;

(2) For direct loans, one-half of 1 per centum per annum in excess of the interest rate approved for loans through associations under (1) preceding; and

(3) For loans under section 25 (b) of the Farm Credit Act of 1937 (50 Stat. 711; 12 U.S.C., Sup., 724) through associations, the capital stock of which is impaired, one-fourth of 1 per centum per annum less than the interest rate approved for direct loans under (2) preceding. (Sec. 6, 47 Stat. 14, Secs. 7 (b), 12 "Second", 17 (b), 39 Stat. 365, 370, 375, Sec. 25 (b), 50 Stat. 711; 12 U.S.C. 665, 723 (b), 771 "Second", 831 (b), 724)

§ 10.29 *Special payments.* A bank may accept special payments on a bank loan or payment in full thereof either before or after 5 years from the date the loan was made. Where payment arises from the refinancing of the loan from a non-Government lending source and the loan has not been in force for at least 5 years, the bank may collect from the borrower such a sum as will reimburse it for the expense of making the loan. In all other cases of special principal payments or full payment of bank loans, the bank should not charge either a prepayment fee or interest beyond the date the funds are received. (Sec. 6, 47 Stat. 14, Sec. 12 "Second", 39 Stat. 370, as amended; 12 U.S.C. 665, 771 "Second")

§ 10.31 *Conditional payments.* Conditional payments shall be held for subsequent credit upon indebtedness to the bank or the Corporation, except in cases of unusual circumstances where the release of the funds is justified. Interest shall be allowed on such payments held for more than 1 month at the effective interest rate applicable to the indebtedness in connection with which such conditional payment is held. (Sec. 4, 39 Stat. 363, Sec. 17, 50 Stat. 708; 12 U.S.C. 676, 781 "Eighteenth")

§ 10.33 *Division of loans.* In dividing a bank loan between separate owners of the mortgaged property in the continental United States, whether by means of new loans or otherwise, each bank may in its discretion retain for the resulting or new loans the contract interest rate of the original loan, or the rate currently applicable to new loans of the same class, or some intermediate rate. Within these limits, the policy to be followed by each bank shall be determined by its board of directors. An important factor to be considered in connection with any policy involving a reduction in interest in connection with divisions of loans is the extent to which it may induce other borrowers to seek a reduction in their interest rates and the effect it may have on the repayment of loans. The policy for each bank should be set out in a general resolution adopted by the board of directors, a copy of which should be submitted to the Commissioner for consideration; but such resolutions need not be submitted for prior approval. (Sec. 6, 47 Stat. 14, Secs. 12 "Second", 17 (b), 39 Stat. 370, 375, Sec. 26, 48 Stat. 44, Sec. 25 (b), 50 Stat. 711; 12 U.S.C. 665, 771 "Second", 831 (b), 723 (b) and Sup., 724 (a), (b) "Second")

§ 10.101 *Executors and administrators (including temporary administrators).* Bank loans may be made to executors and administrators (including temporary administrators) when (a) either some individual beneficiary of the decedent's estate, or the executor, administrator, or any coexecutor or coadministrator of the estate, independently of his representative capacity, is (1) eligible as a borrower, and (2) owns, or is about to become the owner of, an interest in the property on which the loan is sought, and (3) can and will incur personal liability for the loan and assume the obligations of national farm loan association membership; and (b) a valid lien can and will be given on the property on which the loan is sought. As used in this paragraph, the term "eligible as a borrower" means a person who is engaged in farming operations, or who is shortly to become engaged in farming operations, or who derives the principal part of his income from farming operations. (Sec. 6, 47 Stat. 14, Secs. 7, 9, 12 "Sixth", 39 Stat. 365, 368, 370, as amended; 12 U.S.C. 665, 716, 745, 771 "Sixth")

§ 10.103 *Heirs (including a sole heir taking without administration), devisees, and grantees of a deceased owner of farm land.* Loans may be made to heirs including a sole heir taking without administration), devisees and grantees of a deceased owner of farm land under the same conditions as will permit a loan's being made to any other owner of farm land. (Sec. 6, 47 Stat. 14, Sec. 12 "Sixth", 39 Stat. 370, as amended; 12 U.S.C. 665, 771 "Sixth", as amended)

AUTHORITY: §§ 10.104 to 10.108 inclusive, issued under the authority contained in Sec. 6, 47 Stat. 14, Secs. 7, 9, 12 "Sixth", 39 Stat.

365, 368, 370, as amended; 12 U.S.C. 665, 745. 771 "Sixth", as amended.

§ 10.104 *Trustees (whether appointed by will or deed), and other fiduciaries.* Bank loans may be made to trustees (whether appointed by will or deed) when (a) the trustee in his fiduciary capacity is engaged, or shortly to become engaged, in farming operations, or the beneficiaries of the trust are engaged in farming operations or derive the principal part of their income from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the trustee, or any cotrustee, or some individual beneficiary of the trust can and will incur personal liability for the loan, and assume the obligations of national farm loan association membership.

§ 10.105 *Guardians.* Bank loans may be made to guardians when (a) the guardian in his fiduciary capacity is engaged, or shortly to become engaged, in farming operations, or the wards are engaged in farming operations or derive the principal part of their income from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the guardian, or any coguardian, independently of his fiduciary capacity owns an interest in the property, and can and will incur personal liability for the loan and assume the obligations of national farm loan association membership.

§ 10.107 *Persons not legally competent (including infants, insane persons, and incompetents) when not represented by a guardian.* Loans may not be made to persons not legally competent (including infants, insane persons, and incompetents) when not represented by a guardian; and property in which such a person, not represented by a guardian, owns an interest is ineligible as security for a loan.

§ 10.108 *Landlords.* Loans may be made to landlords when (a) the landlord has the right to and does exercise substantial control over the management of the farm on which the loan is sought; or (b) he is engaged, or shortly to become engaged, in farming operations, independently of his capacity as landlord of the farm on which the loan is sought; or (c) the principal part of his income is derived from farming operations.

AUTHORITY: §§ 10.109 to 10.115 inclusive, issued under the authority contained in Secs. 2, 12 "First", 12 "Sixth", 39 Stat. 360, 370, as amended; 12 U.S.C. 642, 771 "First", 771 "Sixth", as amended

§ 10.109 *Owners of future interests.* Loans may be made to owners of future interests when (a) all interests necessary to the creation of a fee simple estate in the land on which the loan is sought are included in the mortgage; and (b) the owner of the future interest is engaged, or shortly to become engaged, in farming operations independently of his capacity as owner of a future interest in the farm on which the loan is sought, or derives the principal part of his income from farming operations.

§ 10.110 *Tenants for years.* Bank loans may not be made to tenants for years.

§ 10.112 *Life tenants.* Loans may be made to life tenants when (a) all interests necessary to the creation of a fee simple estate in the land on which the loan is sought are included in the mortgage; and (b) the life tenant, by reason of farming operations conducted by him on the land covered by his life interest, or otherwise, is eligible as a borrower. As used in this paragraph, the term "eligible as a borrower" means a person who is engaged in farming operations, or who is shortly to become engaged in farming operations, or who derives the principal part of his income from farming operations.

§ 10.114 *Husband and wife.* Loans may be made on their respective lands to a husband and wife owning land in severalty.

§ 10.115 *Aliens.* To the extent that State laws do not restrict the right of aliens to hold and convey real estate, loans may be made to aliens upon the same basis as to citizens: *Provided, however,* That such loans are not prohibited by and are made in conformity with the provisions of the Trading with the Enemy Act, as amended, the Foreign Funds Control regulations, and any other applicable laws and regulations relating to transactions with or property of enemy or other aliens.

AUTHORITY: §§ 10.116 to 10.118, inclusive, issued under the authority contained in Sec. 6, 47 Stat. 14, Sec. 12 "Sixth," 39 Stat. 370, as amended; 12 U.S.C. 665, 771 "Sixth," as amended

§ 10.116 *Individuals taking title from a corporation (bona fide ownership required).* Loans which are otherwise qualified may be made to individuals who have taken title from a corporation in which they were interested as stockholders, provided the transfer is in good faith and not a mere temporary expedient for the purpose of evading the provisions of the Federal Farm Loan Act, which preclude loans to corporations other than corporations engaged in the raising of livestock.

§ 10.117 *Corporations.* Loans may be made to corporations (in addition to those engaged in raising livestock, when acting solely in a representative or fiduciary capacity for individual beneficiaries, provided the conditions of §§ 10.101, 10.102, 10.104, 10.105, and 10.106 are satisfied.

§ 10.118 *Livestock corporations.* Loans may be made to livestock corporations, provided the corporation is primarily engaged in the raising of livestock. It may also be engaged in such general farming operations as are incidental to its livestock raising. If it engages in any secondary operations not strictly incidental to livestock raising, such secondary operations may constitute only a minor part of the corporation's activities.

§ 10.148 *Computing amount loanable to one borrower.* In determining the aggregate amount of existing and prospective bank loans to any one borrower for the purpose of applying the limitation provided for in section 12 (Seventh) of the Federal Farm Loan Act (12 U.S.C. 771 (7)), there shall be included (a) the amount of the unpaid principal of loans made by a bank which are secured by mortgages on property owned by the applicant, except loans secured by purchase money mortgages not made on a basis which qualifies them for deposit with the registrar as collateral security for farm loan bonds; (b) the amount of the unpaid principal of bank loans made to the applicant, or assumed by him with the permission of the bank, which are secured by mortgages on property he no longer owns, except loans secured by mortgages which have been assumed with the permission of the bank by a subsequent owner of the property in accordance with section 12 (Sixth) of the Federal Farm Loan Act (12 U.S.C. 771 (6)); and (c) the amount of the unpaid principal of mortgages which are liens on property owned by the applicant and which have been acquired by a bank under the provisions of section 13 (Second) of the Federal Farm Loan Act (12 U.S.C. 781 (2)). (Sec. 12 "Seventh", 39 Stat. 370, as amended; 12 U.S.C. 771 "Seventh")

§ 10.174 *Applicability of loan regulations.* Except as otherwise specifically provided in these direct bank loan regulations and in section 7 of the Federal Farm Loan Act, as amended (12 U.S.C. 711–723), all provisions of said act and of the rules and regulations adopted thereunder which are applicable with respect to loans made through national farm loan associations shall, insofar as practicable, apply with respect to direct loans. (Sec. 7, 39 Stat. 365, as amended; 12 U.S.C. 723 (a))

§ 10.175 *Receipt evidencing stock subscription.* Each borrower who obtains a direct loan shall be furnished by the bank with a receipt evidencing his subscription and payment for, and the issuance to him of, shares of the capital stock of said bank, the number and amount of such shares to be stated in said receipt. Each such receipt shall contain the following statement:

The shares of stock hereinbefore mentioned are held by the Federal land bank as collateral security for the direct loan obtained by said borrower; said stock is nonvoting, and may be transferred only on the books of said bank and with its permission, as provided in section 12 (Sixth) of the Federal Farm Loan Act (12 U.S.C. section 771 (Sixth)), or to the Federal Farm Mortgage Corporation as authorized in section 7 of the act (12 U.S.C. 723 (c)). Said stock will be canceled by the bank if and when said borrower becomes a member of a duly organized national farm loan association, and in such event there will be issued in the name of said national farm loan association an equal number of shares of the capital stock of the bank, such shares to be held by the bank as collateral security for the loan of said borrower. The shares of stock of the Federal land bank issued to said borrower shall, if still outstanding, upon payment in full of said loan or foreclosure of the mortgage securing the same, be canceled at par, or, in the event that such stock shall have become impaired, at the estimated value thereof as approved by the Land Bank Commissioner, and the proceeds thereof shall be paid to the borrower: *Provided, however,* That all sums accruing and payable as dividends on such stock, and/or proceeds of such stock upon payment in full of said loan or foreclosure of said mortgage, shall be subject to the right of the bank to retain and apply the same upon any obligation(s) due and unpaid under the terms of said mortgage.

(Sec. 7, 39 Stat. 365, as amended; 12 U.S.C. 723 (a), (c), (d))

INSURANCE REQUIREMENTS FOR BANK LOANS

AUTHORITY: §§ 10.183 to 10.197, inclusive, issued under the authority contained in Sec. 12 "Ninth", 39 Stat. 370; 12 U.S.C. 771 "Ninth".

§ 10.183 *Buildings on which insurance must be maintained by mortgagor; amount and type of insurance.* All buildings, the value of which was a factor in determining the amount of a bank loan, shall be kept insured against fire and any other risks specified by the bank, in amounts fixed by it aggregating not less than 60 percent of the value thereof to the farm for agricultural purposes, as shown by the report of the land bank appraiser upon which such loan was based. If a building be substituted for a building the value of which was a factor in determining the amount of a loan, the substituted building shall be kept insured in like manner and the aggregate amount of insurance required by this paragraph shall not be reduced by reason thereof.

§ 10.184 *Additional insurance requirable.* Nothing contained in these insurance regulations (§§ 10.183 to 10.197) shall prevent a bank from requiring that any other building on a farm mortgaged to the bank shall be kept insured in such amounts and/or against such risks as shall be deemed advisable for the protection of the bank's interests.

§ 10.185 *Reduced insurance to be maintained when full amount cannot be provided.* If, when insurance must be renewed or obtained in order to comply with these insurance regulations (§§10.183 to 10.197), the aggregate insurable value of the buildings insured and or to be insured be less than the amount required by § 10.183, the said buildings shall be kept insured for the full insurable value thereof.

§ 10.186 *Reduction of insurance under certain circumstances.* A bank may reduce the amount of insurance theretofore required or discontinue such requirement in whole or in part, provided the bank deems the reduction or discontinuance of insurance advisable in the light of all pertinent factors: (a) whenever the unpaid balance of the mortgage debt does not exceed $200; or (b) whenever it is found that the land, without the buildings mentioned in § 10.183, would afford ample security under the provisions of the Federal Farm Loan Act for a new loan in the amount of the unpaid balance of the mortgage debt. On each request for reduction in the amount of insurance or for discontinuance of the insurance requirement, in whole or in part, such information in writing should be obtained as will enable the bank to act advisedly. The chief appraiser or his assistant should recommend whether or not an appraiser's report or other information is necessary and, subject to the approval of the bank, take steps to obtain such information. The bank may request any further information or investigation. Insurance is not required in excess of the unpaid balance of the mortgage debt; however, there may be conditions under which the bank would be warranted in requiring additional insurance.

§ 10.187 *Acceptable insurers.* Insurance required under § 10.183 shall be evidenced by a lawful policy or policies, issued by any reputable insurance company including any State supervised mutual insurance company which is satisfactory to the bank: *Provided,* That such company be authorized to do such insurance business, and be subject to service of process in suits brought, in the State in which the insured property is located, except that, when insurance is procured and paid for by the bank upon default under the mortgage, such insurance company may be one which is subject to service of process in suits brought in the State where the bank is located. The acceptance by a bank of insurance from an organization other than one provided for by this paragraph shall be subject to the approval of the Commissioner.

§ 10.188 *Losses to be made payable to bank; exception.* Insurance shall be made payable to the bank, as mortgagee, as its interest may appear at time of loss, but the bank may, in its discretion, permit individual losses of $50 or under to be paid directly to the mortgagor for use in the prompt reconstruction of the buildings destroyed. The provisions of §§ 10.189 to 10.197, inclusive, of these regulations shall not be applicable to losses of $50 or under which are paid directly to the mortgagor, with the permission of the bank, for use in reconstruction.

§ 10.189 *Mortgagor's option to use loss proceeds for reconstruction.* At the option of the mortgagor and subject to the provisions of these regulations any sum received by a bank in settlement of a loss covered by insurance required by these regulations may be used to pay for the reconstruction of the buildings involved; provided that the bank may charge and collect from the mortgagor the reasonable cost of appraisal and of any investigation to determine the priority of the bank's mortgage over any lien by reason of such construction, and may withhold from such sum the amount of any such charge not otherwise paid.

§ 10.190 *Subsequent owner deemed "mortgagor" under certain circumstances.* When a subsequent owner of premises mortgaged to a bank has assumed the mortgage and stock interests of the original mortgagor in accordance with the provisions of section 12 (Sixth) of the Federal Farm Loan Act (12 U.S.C. 771 (6)), and is primarily liable therefor, and not otherwise, the term "mortgagor" shall be deemed for the purposes of these regulations to refer to such subsequent owner.

§ 10.191 *Manner in which mortgagor's option to use loss proceeds shall be exercised.* The bank as promptly as possible after the receipt of the sum referred to in § 10.189 shall send to the mortgagor a notice in writing thereof. Within 30 days after such notice is sent, if the mortgagor desires to exercise his option, he shall so notify the bank in writing. With such notice to the bank or within 30 days thereafter, unless such time for good cause be extended by the bank, the mortgagor shall furnish the bank information in such form as shall be satisfactory to it covering the plans of the mortgagor for the reconstruction of the building involved in sound and serviceable form and condition, at least equal to that which existed immediately prior to the loss. Within said 30 days the mortgagor shall also furnish assurance satisfactory to the bank that such reconstruction will be completed within a reasonable time, and that there will be no unsatisfied liens for labor, material, and/or other expenses that will have priority over the bank's mortgage when such reconstruction shall have been completed or when the said sum received by the bank shall have been paid by the bank to or for the account of the mortgagor.

§ 10.192 *Reconstruction of improvements in different form.* If the mortgagor desires to use the insurance money, in whole or in part, in order to replace the building involved with an insurable building of less expensive type, or to substitute any other insurable building, the said fund may be used for such purpose, provided the land bank is satisfied that the proposed building will be suitable and adequate to the agricultural needs of the farm.

§ 10.193 *Evidence that mortgagor can supply additional funds; meaning of term "reconstruction."* If the sum received by the bank (after making the deductions, if any, authorized by these regulations) be inadequate to enable the mortgagor to reconstruct as herein provided, and he desires nevertheless to do so, he shall furnish the bank assurance satisfactory to it that he will have the necessary additional funds. Where, under these regulations, a building may be repaired, replaced, or substituted, the operations involved shall be deemed to be covered by the words "reconstruct" or "reconstruction," as the case may require.

§ 10.194 *Loss proceeds not to be disbursed in absence of evidence that prior liens will not attach.* No sum so received by the bank shall be paid to or for the account of the mortgagor for the purpose of enabling him to reconstruct a building until it is satisfied that no lien by reason of reconstruction of the buildings covered by such insurance will have priority over its mortgage thereon. If, however, in any case the sum received by the bank be less than $100, the bank may pay over such sum to or for the account of the mortgagor upon assurance satisfactory to the bank that such sum will be used for the reconstruction of the building involved and that there will be no lien against

such building which would have priority over the bank's mortgage.

§ 10.195 *Application of loss proceeds to mortgage debt.* If the mortgagor fails or refuses to exercise his option in accordance with these regulations, or to comply with all of the conditions of these regulations with respect thereto, or if the mortgage be in process of foreclosure, or if the mortgagor be in default in such manner that the mortgage is subject to foreclosure, the sum received by the bank may be retained by it for application upon the indebtedness secured by such mortgage or as collateral security therefor. Any portion of the sum received by the bank which is not used for reconstruction or withheld for cost of appraisal and investigation in accordance with § 10.189 of these regulations may also be retained by the bank for application upon the indebtedness or as collateral security therefor.

§ 10.196 *Circumstances under which mortgagor's option to use loss proceeds does not obtain.* The option of the mortgagor referred to in these regulations shall not apply in the case of any sum received by the bank (a) under a policy of insurance which was not provided or paid for by the mortgagor, or (b) in settlement of a loss on buildings not required by these regulations to be insured. Such option shall not apply to any sum with respect to which liability to the mortgagor is denied by the insurer, unless and until such denial be rescinded or until final judgment of a court of competent jurisdiction that the insurer is liable to the mortgagor. In either event the mortgagor shall initiate the steps otherwise necessary under these regulations for the exercise of his option within 30 days after the establishment of the liability of the insurer to him for such loss.

§ 10.197 *Conditional release of loss proceeds.* No insurance proceeds may be released unconditionally to a borrower or a junior lienor except for the purpose and under the conditions hereinbefore set forth, unless the remaining security for the loan meets the provisions of the Federal Farm Loan Act relating to new loans, that is, unless the unpaid balance of the loan does not exceed 50 percent of the value of the land and 20 percent of the value of the permanent, insured improvements remaining thereon. Exceptions to this requirement may be made only where it is clearly to the best interest of the bank to do so. Where insurance proceeds are released unconditionally to a borrower or junior lienor the procedure governing the release of funds received from the sale of part of the security shall be followed so far as applicable.

§ 10.222 *Refinancing mortgages purchased from joint stock land banks.* In connection with the purchase of a mortgage from a joint stock land bank, the right given a mortgagor to refinance under the provisions of section 13 (Second) of the Federal Farm Loan Act, as amended (12 U.S.C. 781 (2)), is a personal privilege granted only to the owner of the property at the time the mortgage is purchased by the Federal land bank. It is the responsibility of the Federal land bank to notify such an owner of his right to have his indebtedness refinanced. A reasonable time of not to exceed 6 months should be specified in the notice as the period in which he may file an application for a refinancing loan. (Sec. 13 "Second", 39 Stat. 372, as amended; 12 U.S.C. 781 "Second")

AUTHORITY: §§ 10.236 to 10.246 inclusive issued under the authority contained in Sec. 4, 39 Stat. 363, Sec. 17, 50 Stat. 708; 12 U.S.C. 676, 781 "Eighteenth".

§ 10.236 *Conditional payments; joint indebtedness to a bank and the Corporation.* In cases where the respective indebtednesses of the borrower to the bank and Corporation are secured by the same or common real property, amounts to be accepted as conditional payments (by the bank for subsequent credit on its indebtedness and by the Corporation for subsequent credit on its indebtedness should be allocated to each indebtedness in such manner as to assure the borrower of relatively the same security against future delinquency on the respective indebtednesses.

§ 10.237 *Reports; conditional payments; joint indebtedness to a bank and the Corporation.* Each bank should review at least annually its entire operation in connection with the acceptance and application of conditional payments on joint indebtedness of borrowers to the bank and the Corporation and submit a detailed report of its findings, with comments or suggestions thereon, to the Commissioner as soon as practicable after December 31 of each year.

§10.238 *Conditional payments; unrelated loans.* In those cases in which a borrower has indebtedness to the bank and/or Corporation, which are not secured by the same or common real property, determination should be made by the bank, on the basis of the facts in each case, as to the indebtedness or indebtednesses on which conditional payments are to be accepted and held for subsequent credit. A subsequent report of the action taken should be made by the bank to the Commissioner with a brief statement of the reasons therefor. When conditional payments are accepted in these cases, they shall be subject to all the provisions of these regulations governing conditional payments insofar as practicable.

§ 10.239 *Interest allowance.* Interest shall be allowed on conditional payments in accordance with the following terms and conditions:

(a) The rate(s) at which interest is allowed the borrower on a conditional payment shall be the rate(s) effective on those installment dates of the indebtedness to which the conditional payments are applied and which installment dates occurred during the period such conditional payments were held. As used herein, "effective interest rate" means the rate actually charged the borrower on the indebtedness on which a conditional payment is applied.

(b) Interest shall be allowed on conditional payments from the date of acceptance of such payments to the date of application on the borrower's indebtedness and such interest shall be compounded as of the installment dates of such indebtedness which occurred during the period the conditional payments were held by the bank; *Provided*, That interest shall not be allowed upon any amount which has not been held for the credit of the borrower as an unapplied conditional payment for the period of at least 1 month.

(c) Interest allowed on a conditional payment shall be credited to the borrower as of the date of application of a conditional payment on his indebtedness or returned to him in accordance with § 10.242.

§ 10.240 *Interest liability.* The books and statements of condition of the bank and Corporation shall reflect the liability for interest accrued in connection with conditional payments held for subsequent application. Such liability shall be accrued on installment dates and for the periods provided in § 10.239 for determining interest allowances, at the rate actually charged the borrower on the unmatured portion of the indebtedness in connection with which such conditional payment is held. Such accruals shall be subject to any adjustment required upon application of the conditional payment in order that the interest allowed on the conditional payment shall conform to the provisions of § 10.239.

§ 10.241 *Application of conditional payments on indebtedness.* Conditional payments shall be applied on the borrower's indebtedness in connection with which they are held, or on the borrower's indebtedness to the Corporation when such indebtedness is secured by the same or common real property, in accordance with the following terms and conditions:

(a) As the borrower may direct in writing, the bank shall pay out of conditional payments to the borrower's credit any portion of the indebtedness to the bank on regular installment dates.

(b) At its option the bank may pay out of conditional payments to the borrower's credit on his bank indebtedness any portion of the indebtedness to the bank as and when the same becomes due and payable, if it is not otherwise paid by the borrower at or before maturity.

(c) At the borrower's written direction the bank shall pay out of conditional payments to the borrower's credit on his bank indebtedness, any portion of the borrower's indebtedness to the Corporation, which is secured in whole or in part by the same real property securing the indebtedness to the bank, as and when the same becomes due and payable, if it is not otherwise paid by the borrower at or before maturity. With the consent of the Corporation the bank may pay out of conditional payments to the borrower's credit on his bank indebtedness any portion of the borrower's indebtedness to the Corporation which is secured in whole or in part by the same real property securing the indebtedness to the bank, if it is not otherwise paid by the borrower on or prior to 60 days after maturity. Such payments transferred by the bank shall not include any interest allowance to the borrower; however, the Corporation shall allow interest to the borrower on such payments in accordance with § 10.239 (a) from the date(s) such payments were accepted by the bank to the date of maturity of the indebtedness upon which such payments are applied. The first amount accepted as conditional payments by the bank shall be considered as the first amount paid out of conditional payments either on the indebtedness to the bank or on the indebtedness to the Corporation.

(d) If at any time the balance of unapplied conditional payments to a borrower's credit together with the interest allowance thereon equals or exceeds the total amount of the indebtedness, the whole indebtedness shall become due and payable at once and shall be paid out of such balance.

(e) In the event of the borrower's death or bankruptcy, or in the event of transfer of the indebtedness by the bank or conveyance of title to the property securing the indebtedness by the borrower, the bank at its option may apply all or any portion of the conditional payments to the borrower's credit on the indebtedness.

§ 10.242 *Disposition of unapplied conditional payments after payment of indebtedness in full.* Any balance of unapplied conditional payments together with interest allowance thereon held in connection with the borrower's indebtedness shall be refunded to the borrower by the bank when the indebtedness is paid in full: *Provided, however*, That amounts of conditional payments held by the bank in connection with an indebtedness secured by the same or common real property upon which the borrower is indebted to the Corporation, may, at the written direction of the borrower, be transferred to the Corporation, when the borrower's indebtedness to the bank is paid in full. Such payments transferred shall be subject to an interest allowance by the Corporation, in accordance with §§ 10.239 (a) and 10.241 (c).

§ 10.243 *Evidence of acceptance of conditional payments.* Upon acceptance of a conditional payment, the bank shall furnish the borrower with a receipt, which shall identify the indebtedness in connection with which the conditional payment is accepted, and set forth generally the conditions under which such payments are held. The form of receipt used by a bank shall have the approval of the Administration.

§ 10.244 *Indebtedness current before conditional payments accepted.* Conditional payments shall not be accepted by a bank while there are outstanding unpaid matured obligations of the borrower to the bank on such indebtedness or to the Corporation on an indebtedness secured by the same or common real property; provided that at the direction of the borrower funds tendered as conditional payments may be used to pay such matured and unpaid obligations and any balance remaining may be accepted as conditional payments.

§ 10.245 *Compensation for conditional payments held.* The bank shall compensate the Corporation for the use of conditional payment funds transferred in accordance with §§ 10.241 (c) and 10.242 at a rate prescribed by the Commissioner for the period from the date the conditional payments were received by the bank to the date of maturity of the indebtedness upon which such payments are applied.

§ 10.246 *Rate of compensation for conditional payments held.* The present rate of compensation for conditional payments held by the bank and transferred to the Corporation shall be 2 percent per annum.

§ 10.275 *Subrogation of insurer following payment of loss.* An insurance company which has made payment to a bank under the uniform loss payable clause, but which denies liability to the mortgagor, is not entitled to subrogation against the endorsing association because of such payment. Nor can such an insurer, in the case of an association-endorsed or direct loan, obtain an interest in the bank stock pledged with the bank as security for the loan. No assignment of mortgage or other form executed by a bank in favor of such an insurer shall by express provision or by implication undertake (a) to transfer any right of the bank against the endorsing association or any interest in the bank stock pledged by the association in connection with the loan, or (b) in the case of a direct loan, to transfer any right or interest to the insurance company in the direct loan stock. (Sec. 17, 39 Stat. 375, Sec. 6, 47 Stat. 14; 12 U.S.C. 831 (i), 665)

§ 10.383 *Conversion of direct loan into Association loan.* The provisions of section 7 of the Federal Farm Loan Act, as amended (12 U.S.C. 723 (d)), with respect to the reduction of interest rates and issuance of association stock in lieu of stock in the bank shall be applicable also to a borrower who has obtained a direct loan and who subsequently is elected to membership in an existing association whose endorsement at the time is acceptable to the bank. (Sec. 6, 47 Stat. 14, Sec. 7, 39 Stat. 365, as amended; 12 U.S.C. 665, 723 (a), (b), (c))

AUTHORITY: §§ 10.522 to 10.525, inclusive, issued under the authority contained in Sec. 6, 47 Stat. 14, 12 U.S.C. 665.

§ 10.522 *Exchange of consolidated bonds.* Consolidated bonds issued by the 12 Federal land banks may be exchanged for bonds of the same issue, and assignments of registered consolidated bonds of all issues may be effected, under and in accordance with the regulations of the United States Treasury Department governing exchange and transfers of United States bonds.

LOST, STOLEN, DESTROYED, MUTILATED, OR DEFACED BONDS AND COUPONS

§ 10.523 *Bonds issued by individual banks.* Whenever it appears to the Land Bank Commissioner, by clear and satisfactory evidence, that any interest-bearing bond or any coupon thereof issued by any Federal land bank or joint stock land bank has, without bad faith on the part of the owner, been lost, stolen, or destroyed, and is not lawfully held by any person as his own property, or has been so mutilated or defaced as to impair its value to the owner, and is identified by number and description, the Land Bank Commissioner may authorize payment to be made (upon approval of the proofs of loss, etc., bonds of indemnity and related papers filed with the banks of issue in such cases, detailed information as to which has been furnished the banks) without requiring the issuance of any new bonds for record purposes.

§ 10.524 *Owner of lost bond to file bond of indemnity.* The owner of any such lost, stolen, or destroyed coupon bond or coupon thereof shall file with the bank of issue a bond of indemnity in a penal amount double the sum of the face amount of such coupon bond and the interest due and unpaid to the date when the bond was called or matured; and the owner of any such lost, stolen, or destroyed registered bond shall file with the bank of issue a bond of indemnity in a penal amount equal to the sum of the face amount of such bond and the interest thereon due and unpaid to the date when the bond was called or matured; with good and sufficient corporate surety to be approved by the bank of issue and the Land Bank Commissioner, and with conditions to indemnify and save harmless the bank of issue from all claims, demands, or loss, on account of the bond for which payment is requested.

§ 10.525 *Consolidated bonds.* The statutes of the United States, now or hereafter in force, and the regulations of the Treasury Department, now or hereafter in force, governing relief on account of loss, theft, destruction, mutilation, or defacement of United States securities, and the regulations of the Treasury Department, now or hereafter in force, governing the payment of mutilated or defaced coupons of United States securities, so far as such statutes and regulations may be applicable, and as modified to relate to consolidated Federal farm loan bonds, and coupons of such bonds, shall govern the granting of relief on account of lost, stolen, destroyed, mutilated, or defaced consolidated Federal farm loan bonds, and mutilated or defaced coupons of such bonds.

§ 11.172 *Stock subscription required.* Where an additional bank loan as defined in § 19.329 is applied for, the capital stock of the association through which the outstanding loan was made is not impaired or the only stock outstanding in connection with the outstanding loan is bank stock, and the applicant is entitled to the proceeds of the stock in the association or the bank which was issued in connection with such loan, the Administration approves the retirement, under section 7 of the Federal Farm Loan Act (12 U.S.C. 721), of stock of the bank held as security in connection with such loan in an amount sufficient to permit the applicant to use the proceeds of the association or bank stock to purchase the stock required in connection with the additional loan: *Provided*, That such retirement is authorized by the board of directors of the bank: *And provided further*, That the outstanding stock shall not be reduced to an amount less than 5 percent of the unmatured principal balance of the outstanding loan. If the total of the unmatured principal balance of the outstanding loan plus the amount of the additional loan exceeds the original face amount of the outstanding loan, it will be necessary under this procedure for the borrower to purchase additional stock only in an amount equal to 5 percent of the excess. (Sec. 6, 47 Stat. 14, Sec. 7, 39 Stat. 365; 12 U.S.C. 665, 721)

AUTHORITY: §§ 11.373 to 11.375, inclusive, issued under the authority contained in Sec. 6, 47 Stat. 14, Sec. 25 (b), 50 Stat. 711; 12 U.S.C. 665, 724 (d).

§ 11.373 *Merger of shareholder groups in associations operating under section 25 (b).* The following regulations are issued pursuant to the fourth paragraph of section 25 (b) of the Farm Credit Act of 1937 (title 12, U.S.C. 724(d)):

§ 11.374 *Definitions.* For the purpose of these regulations the following words and phrases shall have the meanings herein ascribed to them:

(a) "To merge" shall mean to combine pursuant to an agreement authorized by the fourth paragraph of said section 25 (b) and entered into in accordance with these regulations and "merger" shall describe the consummation of the union provided for in such an agreement.

(b) "Group 1" shall mean those shareholders of an association with loans which were made prior to the date on which the first member was admitted to such association pursuant to said section.

(c) "Group 2" shall mean those shareholders of an association with loans which were made on or after the date on which the first member was admitted to the association pursuant to said section and with respect to whom the special provisions of paragraphs "First" to "Sixth" of that section have become applicable.

(d) "When all impairment is removed," as used in the fourth paragraph of said section, shall mean when the Administration shall determine that the aggregate corporate liabilities of a group in an association authorized to operate under said section, including capital stock, do not exceed in amount the fair value of the total assets of such group, or, if there is an excess of such liabilities over such assets, that excess reasonably may be regarded, under all the circumstances, as negligible in amount or percentage, as apparent rather than real, or as temporary only.

§ 11.375 *Procedure.* Whenever, in an association authorized to operate under section 25 (b) of the Farm Credit Act of 1937, all impairment is removed in the stock owned by shareholders in group 1, and there is no impairment in the stock owned by shareholders in group 2, such groups may merge in the manner hereinafter set forth:

(a) The board of directors of the association shall call separate special meetings of the shareholders of group 1 and the shareholders of group 2 for the purpose of considering a proposed resolution of merger in a form prescribed by the Administration. Such meetings shall be called and held in accordance with the provisions of the association's bylaws applicable to meetings of association shareholders. The notice of the meetings shall contain a statement that a merger of the two groups of association shareholders will be voted upon and should contain a brief statement of the nature and effect of the proposal. At these meetings the effect of the proposed merger should be fully explained to the shareholders.

(b) The approval of two-thirds of the shareholders present and entitled to vote at each meeting at which the resolution of merger is considered shall be requisite for the adoption of such resolution.

(c) At least three copies of such resolution shall be prepared, and, when the resolution has been duly adopted by both groups, three copies shall be forwarded to the bank.

(d) The bank may request an examination of the association either on or before the adoption of the merger resolution. An examination may be required by the Land Bank Commissioner at any stage in the proceedings if it appears necessary in the interests of the shareholders.

(e) The bank shall forward to the Administration the three copies of the resolution, a current financial statement of groups 1 and 2, and its recommedation as to whether the merger should be approved.

(f) No merger shall be effective unless or until it has been approved by the Commissioner. If the merger resolution is approved by the Commissioner, the effective date will be specified in his written approval and the bank and association will be notified of the approval and effective date by letter; and each will be sent one copy of the merger resolution for its files. Upon receipt of the approval notice the bank shall take such steps as it deems necessary to assist the secretary-treasurer of the association in consolidating the accounts and records of the two groups pursuant to the merger resolution. Such consolidation of accounts and records shall be made as of the close of business on the effective date of the merger. As soon as the merger has been completed, the secretary-treasurer shall notify each of the members of the association that the merger has been effected. A copy of that notice shall be sent to the Administration.

RETIREMENT OF STOCK UPON REPAYMENT OF LOANS

AUTHORITY: §§ 11.392 to 11.395, inclusive, issued under the authority contained in Sec. 6, 47 Stat. 14, Secs. 7, 8, 39 Stat. 365, 367, 12 U.S.C. 665, 721, 733.

§ 11.392 *Classification of associations.* Each bank shall establish a practical procedure for carrying out the provisions of the Federal Farm Loan Act, as amended, with respect to the retirement of the capital stock of the banks and national farm loan associations in the case of repayment of loans. In making a specific application of the general legal principles of stock retirement to the problems presented by the individual associations in its district, each bank should classify such associations with respect to their financial condition on the following general basis:

(a) Associations able to meet their obligations currently and free from distressed loans are to be placed in class 1;

(b) Associations apparently unable to meet their obligations currently without a present impairment of their capital, but, in the opinion of the bank, able to work out of their difficulties within a reasonable time, are to be placed in class 2;

(c) Associations unable to meet their obligations currently without a material impairment of their capital, although to an extent not exceeding the aggregate amount thereof, and, in the opinion of the bank, unable to work out of their difficulties within a reasonable time, are to be placed in class 3;

(d) Associations whose unsatisfied obligations equal or exceed the amount of their capital are to be placed in class 4.

§ 11.393 *Disposition of stock proceeds where association is in class 1.* When a borrower pays his mortgage debt in full and the association through which the loan was made is in class 1, the bank shall retire the stock standing on its books in the name of the association which was subscribed for by it at the time the loan was made, and shall pay the par value of such stock to the association. In that event, if the association does not have other outstanding obligations to such an extent that the association's capital has thereby become impaired, the association shall pay to the retiring borrower the par value of said stock less any personal indebtedness of said borrower to the association: *Provided, however*, That the bank may, upon the order and with the consent of the association, credit the par value of said stock upon the retiring borrower's mortgage, after the bank has satisfied itself that the association does not have outstanding obligations to persons other than the bank to such an extent that the association's capital has thereby become impaired.

§ 11.394 *Disposition of stock proceeds where association is in Class 2.* Where the association is in class 2, the bank after retiring its stock may, in its discretion, pay to the association all or a portion of the proceeds of such retired stock. If the bank pays to the association in cash a portion of the proceeds of its retired stock, the association may pay the retiring stockholder a similar amount, less any personal indebtedness of the borrower to the association, in full settlement of the value of his stock. If, however, the bank elects to retain all the proceeds of its retired stock, the association, unless it has other funds available, may not make a payment to the retiring borrower until it has paid, or has made adequate provision for paying, its indebtedness to its creditors and has sufficient funds available for distribution among its former shareholders on a pro rata basis. In such cases the association may issue to each retiring borrower a certificate which would recite, in effect that "the holder of this certificate is entitled to share pro rata on the basis of _____ shares of capital stock of the aggregate par value of $_____, of the _____ National Farm Loan Association of _____, in the distribution of the net proceeds of all its capital stock after all of its indebtedness has been satisfied."

§ 11.395 *Disposition of stock proceeds where association is in Class 3 or Class 4.* Where the association is in class 3 or 4, the bank shall retain the full amount of the proceeds of such retired stock and apply the same as a credit on the debts due by such association to the bank: *Provided, however*, That where the association is in class 3 the bank may pay to the association from the proceeds of such retired stock an amount sufficient to permit the association to make settlements under section 29 of the Federal Farm Loan Act as amended by section 25 (d) of the Farm Credit Act of 1937, in which case any balance of such proceeds shall be retained by the bank and applied as a credit on the indebtedness of the association to it.

AUTHORITY: §§ 11.1011 to 11.1016, inclusive, issued under the authority contained in Sec. 6, 47 Stat. 14, Secs. 7, 8, 9, 12 "Sixth", 39 Stat. 365, 367, 369, 370, as amended, 12 U.S.C. 665, 716, 733, 745, 771 "Sixth".

§ 11.1011 *Eligibility determined by location of land.* A farm owner shall be eligible to membership in the national farm loan association within whose chartered territory any part of the land to be mortgaged is located, regardless of the applicant's place of residence. If the farm to be mortgaged lies within the territory of two or more associations, the applicant shall be eligible to join any one of the associations, but if the lands to be mortgaged are not adjoining, they will be treated as a single farm for loan purposes only if the separate units are under common management and are in such proximity to each other as to constitute practically one operative agricultural unit.

§ 11.1012 *Husband or wife as sole owner.* When husband and wife both sign a mortgage but one or the other is sole owner, the one in whose name the title stands is the one who is eligible to membership in the association.

§ 11.1013 *Joint owners.* In cases of joint ownership, each owner who assumes personal liability for a loan must be elected to membership in the association through which the loan is made and the association stock must be issued jointly to all such owners.

§ 11.1014 *Livestock corporations.* Corporations engaged in the raising of livestock are eligible to become members of national farm loan associations. If a livestock corporation which is eligible for a loan, purchases property mortgaged to a land bank it may, with the approval of the bank, assume the mortgage and stock interests of the vendor. If an association approves the application of a livestock corporation, the corporation itself should be elected to membership and the association stock issued in its name. The corporation must authorize, by power of attorney, one of its shareholders to act for it in all association matters. The person so authorized to act for the corporation may be elected a director of the association, provided he is a bona fide resident of the territory within which the association is authorized to do business. The power of attorney referred to should be so drawn that it will continue in full force and effect until the association has received another power of attorney to supersede the old one or until the old power has been revoked.

§ 11.1015 *Other corporations.* In the event a corporation becomes the purchaser of the mortgaged property, while it may assume the payment of the existing mortgage, it cannot become a member of or an actual stockholder in an association unless it qualifies as engaged in the raising of livestock. However, any corporation may purchase the equity of redemption of the original borrower in such stock and thereby become entitled to any dividends on said stock and ultimately to the proceeds thereof. Stock that has been so purchased cannot be transferred on the stock certificate book of the association, but the fact that an assignment has been made may be noted on the back of the certificate so that the proceeds, including the dividends, may be paid the person equitably entitled thereto. In this connection, it should be borne in mind that the stock in the association is collateral security for the payment of the loan, and, in addition, may carry the statutory double liability. The original owner, so far as the association is concerned, remains the stockholder whether the purchaser of the equity does or does not agree to assume the liability.

§ 11.1016 *Voting by proxy.* Voting by proxy shall not be permitted at stockholders' meetings of associations unless the proxy holder is (a) the person authorized to act for a livestock corporation owning the stock, (b) a joint owner of the stock, or (c) the husband or wife of the owner of the stock. In the latter case, said husband or wife shall not be eligible to any office in the association.

§ 11.1017 *Participation certificates.* If any shareholder or former shareholder does not desire to settle on the basis of the fair book value of the stock of the association as determined in conservatorship proceedings pursuant to section 29 of the Federal Farm Loan Act, as amended by section 25 (d) of the Farm Credit Act of 1937, he may, in lieu thereof, be given a participation certificate which will entitle him to share pro rata on the basis of the number of shares of stock which he owned in the association in the distribution of any assets of the association which is made after all its indebtedness to creditors has been satisfied, but not to exceed the par value of such shares. The holder of a participation certificate may, at any time, by surrendering the certificate to the secretary-treasurer of the association, receive the amount which is being paid to retired shareholders at the date of such surrender as the fair book value of the stock of the association less the amount of the credit for, or proceeds of, such stock which already shall have been allowed or distributed: *Provided, however*, That if the person surrendering such certificate shall have acquired his interest in the claim evidenced thereby through a voluntary assignment or pledge made after the commencement of any conservatorship proceedings in the association, such certificate shall not be redeemed at a value in excess of the fair book value of the association stock as of the date when the initial holder thereof became entitled to receive such certificate. Settlements with holders of participation certificates in accordance with the preceding sentence should be made only on condition that they accept the settlement as payment in full. Unless the holder surrenders his participation certificate as herein provided, he shall receive no cash payments in connection with such certificate, except as follows:

(a) If the association is liquidated by receivership or otherwise, he shall be entitled to share pro rata with other persons having similar rights in the distribution of any assets of the association which is made after all of its indebtedness to creditors has been satisfied.

(b) If, prior to liquidation as provided in (1) above, the fair book value of the stock of the association reaches par, he shall be entitled to receive par for such certificate.

(c) If, prior to liquidation as provided in (1) above, all indebtedness of the association is paid but the fair book value of the stock is not par, he may share pro rata with other persons having similar rights in the distribution of any assets of the association which may

be made from time to time. [S-41] (Sec. 6, 47 Stat. 14, Sec. 25 (d), 50 Stat. 713; 12 U.S.C. 665, 967)

PART 12—FEDERAL FARM MORTGAGE CORPORATION

REVISION OF REGULATIONS

Part 12 of Chapter I, Title 6, Code of Federal Regulations is hereby amended to read as follows:

Sec.
12.1 Applicability of Federal Land Bank rules and regulations to Federal Farm Mortgage Corporation.
12.102 Executors and administrators (including temporary administrators).
12.106 Trustees (whether appointed by will or deed), guardians and other fiduciaries.
12.111 Tenants for years.
12.150 Computing amount loanable to one borrower.

INSURANCE REQUIREMENTS FOR COMMISSIONER LOANS

12.199 Insurance in connection with first mortgage loans.
12.200 Insurance in connection with second mortgage loans.
12.201 Insurance in connection with chattel mortgages.

§ 12.1 *Applicability of Federal land bank rules and regulations to Federal Farm Mortgage Corporation.* Insofar as they are not in conflict with the provisions of Part 12, the rules and regulations pertaining to the Federal land banks heretofore set out in Part 10 apply also to the Federal Farm Mortgage Corporation except to such extent as those rules and regulations, by their terms or necessary inference, are inapplicable to the Federal Farm Mortgage Corporation. (Secs. 33, 34, 1, 2, 48 Stat. 49, 344, 345, as amended; 12 U.S.C. 1017, 1018, 1020, 1020 (a))

AUTHORITY: §§ 12.102 to 12.150, inclusive, issued under the authority contained in Secs. 32, 33, 48 Stat. 48, 49, as amended; 12 U.S.C. 1016, 1017.

§ 12.102 *Executors and administrators (including temporary administrators).* Commissioner loans may be made to executors and administrators (including temporary administrators) when (a) the decedent was engaged in farming operations or derived the principal part of his income from farming operations, or the executor or administrator in his representative capacity is engaged, or shortly to become engaged, in farming operations, or the principal part of the income of the estate is derived from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the executor or administrator or some individual beneficiary of the decedent's estate can and will incur personal liability for the loan, or the executor or administrator can and will charge the general assets of the estate with liability for the loan.

§ 12.106 *Trustees (whether appointed by will or deed), guardians, and other fiduciaries.* Commissioner loans may be made to trustees (whether appointed by will or deed), guardians, and other fiduciaries when (a) the trustee or guardian in his fiduciary capacity is engaged, or shortly to become engaged, in farming operations, or the beneficiaries of the trust or wardship are engaged, or shortly to become engaged, in farming operations or derive the principal part of their income from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the trustee or guardian or some individual beneficiary of the trust or wardship can and will incur personal liability for the loan, or, in the event the beneficiaries are not sui juris and the trustee or guardian will incur liability in his fiduciary capacity only, some other person intimately connected by blood or interest with a beneficiary can and will incur personal liability for the loan as a coobligor with the trustee or guardian.

§ 12.111 *Tenants for years.* Commissioner loans may be made to tenants for years to the extent of the value as security of the leasehold interest on which the loan is sought if the tenant, by reason of farming operations conducted by him on the land covered by his leasehold, or otherwise, is eligible as a borrower. As used in this paragraph, the term "eligible as a borrower" means a person who is engaged in farming operations, or who is shortly to become engaged in farming operations, or who derives the principal part of his income from farming operations.

§ 12.150 *Computing amount loanable to one borrower.* If a Commissioner loan has been obtained on farm property owned by one or more persons, Commissioner loans on other property which such person or persons may own individually or jointly with others may only be made in an amount which, when added to the amount of the unpaid balance of the previous loan or loans, does not exceed a maximum of $7,500.

INSURANCE REQUIREMENTS FOR COMMISSIONER LOANS

AUTHORITY: §§ 12.199 to 12.201, inclusive, issued under the authority contained in Secs. 32, 33, 34, 48 Stat. 48, 49, Secs. 1, 2, 3, 48 Stat. 344, 345, as amended; 12 U.S.C. 1016, 1017, 1018, 1020, 1020 (a), 1020 (b).

§ 12.199 *Insurance in connection with first mortgage loans.* Every borrower from the Commissioner whose loan is secured by a first mortgage on real estate shall provide insurance under a policy (or policies) to which there is attached a mortgage clause running in favor of the Commissioner and the Corporation as their respective interests may appear. Such mortgage clause shall contain the provisions of the New York standard mortgage clause or shall contain provisions which will afford the Commissioner and the Corporation the same protection and privileges as would be theirs under the New York standard mortgage clause. Insurance on farm properties mortgaged as security for Commissioner first mortgage loans shall be for the full insurable value, or the value to the farm, whichever is lower, of the farm buildings and other improvements which are necessary for the proper operation of the mortgaged premises, unless such value be greater than the amount of the mortgage debt, in which event the insurance shall be for at least the amount of the debt. Such insurance shall provide coverage against loss by fire and/or such other risk or risks as the bank deems advisable to include in the coverage, upon consideration of the hazards ordinarily insured against by reasonably prudent lending agencies in the locality where the mortgaged farm is situated.

§ 12.200 *Insurance in connection with second mortgage loans.* Every borrower from the Commissioner whose loan is secured by a second mortgage on real estate shall, if practicable, provide insurance in accordance with the requirements for first mortgage Commissioner loans. Where the borrower is unable to comply with the requirements for first mortgage Commissioner loans, by reason of a policy taken out, or to be taken out, in favor of the first mortgagee, he shall procure and cause to be affixed to such policy a mortgage clause providing that any loss which is not payable under the policy to the first mortgagee shall be payable to the Commissioner and the Corporation as their respective interests may appear. Such mortgage clause shall contain provisions of the New York standard mortgage clause or shall contain provisions which will afford the Commissioner and the Corporation the same protection and privileges as would be theirs under the New York standard mortgage clause. Except where the policy is held by the bank as first mortgagee, the borrower shall furnish a certificate from the company issuing the policy that the interests of the Commissioner and the Corporation are insured thereunder, and the bank may, in addition, require a statement from the first mortgagee (or other holder of the policy) that a mortgage clause in favor of the Commissioner and the Corporation has been attached to the policy. Insurance on farm properties mortgaged as security for Commissioner second mortgage loans shall be for the full insurable value, or the value to the farm, whichever is lower, of the farm buildings and other improvements which are necessary for the proper operation of the mortgaged premises, except that the insurance need not be for a greater amount than the sums of the first and second mortgage debts. The borrower shall provide insurance in accordance with the provisions of this paragraph against loss by fire and/or such other risk or risks as the bank deems advisable.

§ 12.201 *Insurance in connection with chattel mortgages.* Where a Commissioner loan is secured by a mortgage covering crops and/or personal property, the borrower shall provide insurance against such risks, in such form and to such amounts as the bank deems advisable.

PART 14—JOINT STOCK LAND BANKS

APPLICABILITY OF FEDERAL LAND BANK RULES AND REGULATIONS TO JOINT STOCK LAND BANKS

Section 14.1 of Title 6, Code of Federal Regulations is hereby amended to read as follows:

§ 14.1 *Applicability of Federal land bank rules and regulations.* The following rules and regulations pertaining to the Federal land bank system set out heretofore in Part 10 apply also to joint stock land banks except to such extent as the rules and regulations, by their terms or necessary inference, are restricted to Federal land banks or are otherwise inapplicable to joint stock land banks:

Sec.
10.25 Normal agricultural value basis.
10.29 Special payments.
10.183 to 10.197 Insurance requirements for bank loans.
10.523 to 10.525 Lost, stolen, destroyed, mutilated, or defaced bonds and coupons.

(Sec. 6, 47 Stat. 14, Sec. 16, 39 Stat 374; 12 U.S.C. 665, 813)

PART 19—FEES AND CHARGES ON LAND BANK AND COMMISSIONER LOANS

REVISION OF REGULATIONS

Part 19 of Chapter I, Title 6, Code of Federal Regulations is hereby amended to read as follows:

Sec
19.282 Forbearance agreements.
19.320 Association application fees.
19.322 Bank application fees.
19.323 Local correspondent's fees.
19.324 Association closed loan fees.
19.325 Bank closed loan fees.
19.326 Appraisal and title determination fees.
19.329 Additional loans; association fees.
19.330 Additional loans; bank fees.
19.331 Fee on application for transfer of loan from one association to another.
19.332 Association transfer fees.
19.333 Bank transfer fees.
19.335 Conversion of direct loans; association fees.

§ 19.282 *Forbearance agreements.* No fees may be charged in connection with forbearance agreements but borrowers may be charged with direct outlays for determination of title including filing or notarial expense. (Secs. 11 "Third", 13 "Ninth", 17 (d), 39 Stat. 365, 372, 375, Secs. 26, 32, 48 Stat. 44, 48, as amended; 12 U.S.C. 761 "Third", 781 "Ninth", 831 (d), 723 (e), 1016 (e))

§ 19.320 *Association application fees.* Associations may collect an association application fee of not more than $5.00 in connection with each application for $5,000.00 or less, and an association application fee of not more than $10.00 in connection with each application for over $5,000.00: *Provided, however,* That the amount of any such fee shall not exceed 1 percent of the amount of the loan applied for. This fee may be collected at the time the application is filed. It may be retained by the association regardless of whether the loan is rejected or closed as a bank loan, a Commissioner loan, or a joint bank and Commissioner loan; *Provided, however,* That if no association appraisal is made after this fee has been collected, the amount of such fee, less $1.00 shall be refunded. (Secs. 11 "Third", 17 (d), 39 Stat. 369, 375, as amended; 12 U.S.C. 761 "Third", 831 (d))

§ 19.322 *Bank application fees.* The banks may collect an application fee of not to exceed $10.00 on applications for loans of $5,000.00 or less: *Provided, however,* That with the approval of the Commissioner a fee of $15.00 may be collected on applications for $5,000.00 or less which fall within special classes of cases in connection with which appraisal costs are unusually high. On applications for more than $5,000.00, bank application fees shall be governed by the schedules approved for the respective banks. The application fees herein authorized shall be refunded if the application is rejected without appraisal and shall be credited on the appraisal and title determination fees if a loan is granted. (Secs. 12 "Ninth", 17 (d), 39 Stat. 372, 375, Secs. 26, 32, 48 Stat. 44, 48, as amended; 12 U.S.C. 781 "Ninth", 831 (d), 723 (e), 1016 (e))

§ 19.323 *Local correspondent's fees.* Regardless of the amount applied for, an authorized local correspondent of the bank in direct loan territory may collect $1.00, and no more, in connection with each application for assisting the applicant in filling out his application. No other or additional fee shall be collected by the local correspondent, directly or indirectly, for his services in connection with taking the application or closing the loan, except amounts paid to him by the bank. (Sec. 6, 47 Stat. 14, Secs. 7, 13 "Ninth", 17 (d), 39 Stat. 365, 372, 375, Secs. 33, 34, 48 Stat. 49 as amended; 12 U.S.C. 665, 723 (a), 781 "Ninth", 831 (d), 1017, 1018)

§ 19.324 *Association closed loan fees.* When a bank loan is closed, associations may collect a closed loan fee in an amount which, when added to the association application fees already collected, will equal but not exceed 1 percent of the amount of the bank loan closed. The application fees provided in § 19.320 may be retained by associations, even though the loan is rejected or the amount of such fees is more than 1 percent of the land bank loan closed, but in such event no closed loan fee may be collected. (Sec. 11 "Third", 17 (d), 39 Stat. 369, 375, as amended; 12 U.S.C. 761 "Third", 831 (d))

§ 19.325 *Bank closed loan fees.* The banks may collect a closed loan fee not to exceed 1 percent of the amount of the loan closed, including the $1.00 local correspondent's fee, in connection with each direct loan closed. (Secs. 13 "Ninth", 17 (d), 39 Stat. 372, 375, Secs. 26, 32, 48 Stat. 44, 48, as amended; 12 U.S.C. 781 "Ninth", 831 (d), 723 (e), 1016 (e))

§ 19.326 *Appraisal and title determination fees.* Appraisal and title determination fees to be charged in connection with bank and Commissioner loans shall be in accordance with schedules approved by the Commissioner for the respective banks. (Secs. 13 "Ninth", 17 (d), 39 Stat. 372, 375, Secs. 32, 33, 34, 48 Stat. 48, 49, as amended; 12 U.S.C. 781 "Ninth", 831 (d), 1016 (e), 1017, 1018)

§ 19.329 *Additional loans: association fees.* When an applicant for a loan offers as security therefor property which is mortgaged, in whole or in part, to a bank, the Corporation, or both, the provisions of § 19.320 and the last sentence of § 19.324 shall apply in determining the amount of the application fee which may be collected and retained by the association through which such application is submitted, except that the maximum association application fee which may be collected in accordance with § 19.320 shall be based upon the difference between the amount of the loan applied for and the total unmatured principal, as of the date of the application, of the outstanding loan held by the bank or the Corporation or both. Where, upon the basis of such application, a bank loan is closed through an association which endorsed the outstanding bank loan, the association may, whether the transaction is completed by way of a supplemental loan or a rewriting of the outstanding loan, collect a closed loan fee which, when added to the association application fee already collected, will not exceed 1 percent of the amount of the new note or notes which represents other than principal of the outstanding bank loan unmatured as of the date of the application. Where, upon the basis of such application, a bank loan is closed through a different association than that which endorsed the outstanding bank loan, or through any association if only a loan held by the Corporation was outstanding, the association may collect a closed loan fee which, when added to the association application fee already collected, will not exceed 1 percent of the amount for which it endorses the bank loan. (Secs. 11 "Third", 17 (d), 39 Stat. 369, 375, as amended; 12 U.S.C. 761 "Third", 831 (d))

§ 19.330 *Additional loans; bank fees.* When an applicant for a loan offers as security therefor property which is mortgaged, in whole or in part, to a bank, the Corporation, or both, the application fee collected by the bank shall not exceed an amount computed in accordance with approved schedules upon the basis of the difference between the amount of the loan applied for and the total unmatured principal as of the date of the application, of the outstanding loan held by the bank or the Corporation or both. The balance of the appraisal and title determination fees collected by a bank in such cases shall not exceed an amount computed in accordance with approved schedules upon the amount of the new note or notes which represents other than principal of the outstanding loan held by the bank or the Corporation or both, unmatured as of the date of the application. The bank's direct loan closed loan fee in such cases shall not exceed 1 percent of the amount included in the new note or notes which represents other than principal of the outstanding bank loan unmatured as of the date of the application. (Secs. 13 "Ninth", 17 (d), 39 Stat. 372, 375, Secs. 26, 32, 48 Stat. 44, 48, as amended; 12 U.S.C. 781 "Ninth", 831 (d), 723 (e), 1016 (e))

§19.331 *Fee on application for transfer of loan from one association to another.* In connection with each application for a transfer of a loan from another association to it, an association may:

(a) Absorb expenses incurred in connection with such application including the cost of its inspection; or

(b) Require the payment of a fee of not to exceed $5.00 to cover the cost of its inspection before it considers the application: *Provided, however,* That the total amount so collected shall not, in any case, exceed 1 percent of the unpaid balance of the indebtedness: *And provided further,* That an association operating under a plan intended to compensate it for total operating expenses shall not require such payment. If the transfer is being made at the request of and for the convenience of the bank, the bank may pay the fee required by the association. If, however, the transfer is being made at the request of and for the convenience of the borrower, he may be required to pay the association fee. No fee may be collected by the transferor association. (Sec. 6, 47 Stat. 14, Secs. 11 "Third", 17 (d), 39 Stat. 369, 375, as amended; 12 U.S.C. 665, 761 "Third", 831 (d))

§ 19.332 *Association transfer fees.* In order to reimburse associations for expenses incurred in transferring the mortgage and stock interest of their members, or in transferring a mortgage endorsed by the association, each association is authorized to collect a fee which shall not exceed $5.00 for each such transfer: *Provided, however,* That the total amount so collected shall not, in any case, exceed 1 percent of the unpaid amount of the indebtedness secured by the mortgage so transferred: *And provided further,* That an association operating under a plan intended to compensate it for total operating expenses shall not collect such a fee. Where an application for the transfer of a mortgage endorsed by the association or of the mortgage and stock interests of a borrower through the association is withdrawn by the applicant or rejected by the bank after the association has given its approval to such application, an association may provide that any fee collected under the authority of the preceding sentence shall not be refunded. (Sec. 6, 47 Stat. 14, Secs. 11 "Third", 17 (d), 39 Stat. 369, 375, as amended; 12 U.S.C. 665, 761 "Third", 831 (d))

§ 19.333 *Bank transfer fees.* In connection with the transfer of the mortgage and stock interests of a direct loan borrower, banks are authorized to collect a fee of $5.00 for each such transfer: *Provided, however,* That the total amount so collected shall not, in any case, exceed 1 percent of the unpaid amount of the indebtedness secured by the mortgage so transferred. (Secs. 7, 13 "Ninth", 39 Stat. 365, 372, as amended; 12 U.S.C. 723 (a) and (e), 781 "Ninth")

§ 19.335 *Conversion of direct loans; association fees.* An association may collect from each direct borrower applying for membership in the association a fee of not to exceed $5.00 or ¼ of 1 percent of the unpaid amount of the indebtedness secured by the mortgage, whichever fee is the greater: *Provided, however,* That the amount of the fee collected shall not exceed 1 percent of the unpaid amount of the indebtedness secured by the direct loan mortgage; *And provided further,* That an association operating under a plan intended to compensate it for total operating expenses shall not collect such a fee. No other or additional association fee may be collected in connection with the conversion of a direct loan. If an application is rejected without association appraisal after a fee provided for in this paragraph has been collected, the amount of such fee, less $1.00, shall be refunded. (Secs. 7, 11 "Third", 17 (d), 39 Stat. 365, 369, 375, as amended; 12 U.S.C. 723 (a), 761 "Third", 831 (d))

PART 19—FEES AND CHARGES ON LAND BANK AND COMMISSIONER LOANS

FEES

Part 19 of Chapter I, Title 6, Code of Federal Regulations, is hereby amended by adding § 19.344, as follows:

§ 19.344 *Associations operating under section 25 (b) of Farm Credit Act of 1937.* The association and bank fee regulations herein contained and the resolutions adopted by the association in pursuance thereof will govern fees to be collected by an association operating under section 25 (b) of the Farm Credit Act of 1937 in connection with applications for 25 (b) loans.

(Sec. 6, 47 Stat. 14, sec. 25 (b), 50 Stat. 711, secs. 7, 11 "Third", 17 (d), 39 Stat. 365, 369, 375, as amended; 12 U.S.C. 665, 724, 723 (a), 761 "Third", 831 (d))

Chapter II—Commodity Credit Corporation

[Amendment 2 to Oilseed Order 6]

PART 250—CONTROL OF VEGETABLE OIL SEEDS AND PRODUCTS THEREFROM

INVENTORY LIMITATION OF OILSEED PRODUCTS

Pursuant to the authority vested in the Commodity Credit Corporation by Directive No. 7 of the War Production Board, issued August 15, 1942, *It is hereby ordered,* That Oilseed Order No. 6,[1] issued December 24, 1942, be amended as follows:

[1] 7 F.R. 10901.

Section 250.30 *Definitions*[1] is amended by revising paragraph (2) thereof to read as follows:

(2) "Fifteen days' supply" means the total tonnage of any oilseed product which, based on his current method and rate of operation, is needed by a person to fill his manufacturing, sales, or consumption requirements during the period of fifteen days next succeeding the estimated date of receipt thereof, such date to be determined by adding to the date of shipment specified in the purchase order therefor the usual number of days required for transit from shipping point to destination.

Section 250.31 *Inventory limitation*[1] is amended by revising the proviso therein to read as follows:

* * * *Provided,* That the foregoing inventory limitation (i) shall not restrict purchases of oilseed products by any person in minimum carload lots as determined by Office of Defense Transportation regulations if such purchases are made in quantities and at intervals which are in accordance with purchases regularly made by such person, (ii) shall not restrict purchases by any person of oilseed products in quantities of 1,000 pounds or less if such purchases are made in quantities and at intervals which are in accordance with purchases regularly made by such person, and (iii) shall not restrict purchases by any ranchman of oilseed products if such purchases are made in quantities and at intervals which are in accordance with purchases regularly made by such ranchman, and such purchases are necessary for economical use of transportation facilities under Office of Defense Transportation regulations and to provide a readily available supply of oilseed products for ranch feeding purposes.

Issued this 14th day of January 1943.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q. 503, 4th Rev.; Supp. 1, 1st Rev.]

PART 301—DOMESTIC QUARANTINE NOTICES

WHITE-FRINGED BEETLE INSTRUCTIONS MODIFIED; AUTHORIZED TREATMENT

Introductory note: Recent investigational work has shown that it is possible to kill all stages of the different white-fringed beetles by methyl bromide fumigation under partial vacuum under a series of dosage schedules modified to compensate for variations in the soil-ball temperatures. It has also been found that *Pantomorus peregrinus* is slightly more resistant to fumigation than the other species, therefore a separate series of schedules has been developed for that

species. These schedules permit fumigation of plants at the existing soil temperature in most instances, without the necessity of heating soil balls to a prescribed temperature of 70° F. as required heretofore. The administrative instructions as to fumigation of plants in pots or in soil balls, as specified in circular B. E. P. Q. 503, Fourth Revision, and supplement No. 1, which became effective May 6, 1942, are hereby further revised accordingly. All authorized treatments are now set forth in the above circular and in the current supplement.

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by paragraph (a) of § 301.72–5, Chapter III, Title 7, Code of Federal Regulations [Regulation 5 of Notice of Quarantine No. 72 on account of the white-fringed beetle as revised] subparagraph (2) of paragraph (a) of § 301.72–5c [page 2 of the mimeographed edition of circular B. E. P. Q. 503, Fourth Revision] is hereby modified further effective January 18, 1943, to read as follows:

§ 301.72–5c[1] *Administrative instructions; treatments authorized.* * * *

(a) * * *

(2) *Methyl bromide fumigation under partial vacuum.* (i) Fumigation under partial vacuum equivalent to at least 24.5 inches of mercury may be done with dosage schedules as prescribed below. The vacuum shall be maintained during the entire period. The period of fumigation shall be 1½ hours in all instances.

Species	Soil temperatures at least	Dosage per 1,000 cubic feet
For *Pantomorus* spp. (except *P. peregrinus*)	°F.	*Pounds*
	50	5.5
	55	4.5
	60	4.0
	65	3.5
	70	3.0
	75	2.5
For *P. peregrinus* or mixed species including *P. peregrinus*	50	5.5
	55	5.0
	60	4.5
	65	4.0
	70	3.5
	75	3.0

(ii) The soil masses shall have a diameter of not more than 16 inches if spherical, or if not spherical the masses or pots shall be of such size that no point within them will be more than 8 inches from the nearest point on the surface.

(iii) The soil shall not be puddled or saturated and must be in a condition which in the judgment of the inspector is suitable for fumigation.

(iv) The fumigant-air mixture shall be circulated in the fumigation chamber by means of a fan the first 15 minutes of the exposure period to mix the vaporized fumigant thoroughly with the air in the chamber and to bring it in contact with the surface of the soil balls. The soil balls shall be washed with one or more changes of air at the end of the exposure period.

(v) A standard vacuum fumigation chamber that can be closed tight and will withstand an external pressure of at least one atmosphere is required. A vacuum pump of sufficient capacity to reduce the pressure within the vacuum chamber to the equivalent of 3 inches of mercury (a 27-inch vacuum at sea level) in not more than 20 minutes is necessary.

The following paragraphs concerning the effects of methyl bromide, as quoted from circular B. E. P. Q. 503, Fourth Revision, are brought forward as a precaution to persons concerned.

(d) *Disclaimer.* There has been opportunity to test these treatment on only relatively few varieties of plants and in authorizing the movement of potted plants, nursery stock, or soil treated according to the requirements stated above, it is understood that no liability shall attach either to the United States Department of Agriculture or to any of its employees in the event of injury to either plants or operators.

(e) *Caution*—(1) *Methyl bromide.* (i) Methyl bromide is a gas at ordinary temperatures. It is colorless and practically odorless in concentrations used for fumigation of plants or potting soil. It is a poison and the operators should use gas masks approved by the United States Bureau of Mines for use with methyl bromide, when exposed to the gas in concentrations used in fumigation, or while preparing the solution. The plants in the fumigation chamber should be well aerated by blowing air through them, and the room adequately ventilated before it is entered. After fumigating the potting soil by methyl bromide the cover should be removed and the soil allowed to become aerated.

Chapter XI—Food Distribution Administration

[Food Directive 1]

PART 1400—DELEGATIONS OF AUTHORITY

DELEGATION OF AUTHORITY WITH RESPECT TO RATIONING CONTROL OF PROCESSED FOODS

§ 1400.1 *Food Directive 1; processed foods.* (a) In order to permit the effective rationing of processed foods the authority heretofore delegated to the Office of Price Administration by the War Production Board in Directive No. 1 and all supplements thereto relating to food is hereby extended to include the exercise of control over the sale, transfer, delivery or other disposition of processed foods by any person or to any person and to the acquisition, use or distribution of processed foods by any person. The authority delegated by War Production Board Directive No. 1 and supplements thereto is hereby ratified and confirmed in all respects insofar as it affects food.

(b) The authority delegated herein shall not include the power to limit or restrict the quantity of processed foods which may be obtained by or for any agency of the United States for export to, and consumption or use in, any foreign country or by or for the Army, Navy, Marine Corps, Coast Guard, War Shipping Administration, Food Distribution Administration, or Office of Lend Lease Administration.

(c) The authority herein conferred shall also include the power to regulate or prohibit the sale, transfer, delivery or other disposition of processed foods to, or the acquisition or use of processed foods by, any person who has acted in violation of any rationing, allocation or restriction order or regulation concerning food issued by the Office of Price Administration.

(d) As used in this Directive, the term "processed foods" means and includes:

(1) All fruits, fruit juices, vegetables, vegetable juices, soups, baby foods of all kinds, fish, shellfish, and milk packed in hermetically sealed containers of any type and sterilized by the use of heat.

(2) All jams, jellies, preserves, fruit butters, pickles and relishes.

(3) All frozen fruits and vegetables.

(4) All dried and dehydrated fruits and vegetables.

(5) All combinations of any of the foregoing with meat.

(6) All combinations of any of the foregoing.

(e) This Food Directive No. 1 shall become effective January 16th, 1943.

Issued this 16th day of January 1943.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

PART 15—REGULATIONS FOR CORRESPONDENTS ACCOMPANYING U. S. ARMY FORCES IN THE FIELD

ACCREDITED AND VISITING CORRESPONDENTS

Sections 15.2, 15.7, and 15.9 (b) are hereby amended as follows:

§ 15.2 *Definition.* The term "correspondent" as used in this manual includes journalists, feature writers, radio commentators, motion picture photographers, and still picture photographers accredited by the War Department to a theater of operations or a base command within or without the territorial limits of the United States in time of war. Correspondents are classed as "accredited" and "visiting." This manual pertains principally to the former. (See § 15.18 for instructions concerning visiting correspondents.) Correspondents have the status of noncombatants. (R.S. 161; Sec. 1 41 Stat. 787; 5 U.S.C. 22, 10 U.S.C. 1473) [Par. 2, F.M. 30-26, January 21, 1942, as amended by C 2, July 25, 1942]

§ 15.7 *Agreement — (a) Accredited correspondents.* Before final acceptance an accredited correspondent will be required to sign an agreement, in triplicate, as follows:

(Date)

Agreement

In connection with authority granted by the War Department to me, the undersigned, to accompany _____
(Name of field force)
for the purpose of securing news or story material, still or motion pictures, or to engage in radio broadcasting, I subscribe to the following conditions:

1. That, as a civilian accredited to the Army of the United States within or without the territorial limits of the United States, I am subject to the Articles of War and all regulations for the Government of the Army issued pursuant to law.
2. That, I will govern my movements and actions in accordance with the instructions of the War Department and the commanding officer of the Army unit to which I am accredited, which includes the submitting for the purposes of censorship all statements, written material, and all photography intended for publication or release either while with the Army or after my return, if the interviews, written matter, or photography are based on my observations made during the period or pertain to the places visited under this authority. I further agree that I will submit for purposes of censorship all such material even though written after my return, if the interviews, written material, or statements are based on my observations made during the period or pertain to the places visited under this authority. This includes all lectures, public talks, "off the record" speeches, and all photography intended for publication or release, either while with the armed forces or after my return, if they are based upon my observations during this period or pertain to the places visited.
3. That, I waive all claims against the United States for losses, damages, or injuries which may be suffered as a result of this authority.
4. That, this authority is for the period _____ to _____ and subject to revocation at any time.
5. That at the termination of my assignment, I will surrender my credentials without delay to the Bureau of Public Relations, War Department.

Signed: _____
Representing: _____
(Company, syndicate, or agency)

Agreement (Visiting)

In connection with recognition as a war correspondent outside the continental limits of the United States, granted by the War Department to me, the undersigned, for purpose of securing news or story material, still or motion pictures, or to engage in radio broadcasting I subscribe to the following conditions with reference to United States military and naval activities:

1. That as a civilian recognized as a war correspondent outside the continental limits of the United States, I am subject to the Articles of War and all regulations for the government of the Army issued pursuant to law, when with such forces.
2. That, I will govern my movements and actions in accordance with the instructions of the War Department and the commanding officer of the Army unit to which I am accredited, which includes submitting, for purposes of censorship, all statements or written material, lectures, public talks, "off the record" speeches, and all photography intended for publication or release either while with the Army or after my return, if the interviews, written matter, lectures, public talks, or "off the record" speeches are based on my observations made during the period or pertain to the places visted under this authority.

It is further understood and agreed that undeveloped film which cannot be processed and passed by the unit intelligence officer will be forwarded by him to the War Department.

3. That I waive all claims against the United States for losses, damages, or injuries which may be suffered as a result of this authority.
4. That this authority is subject to revocation at any time.
5. That at the termination of my assignment I will surrender my credentials without delay to the Bureau of Public Relations, War Department.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45 (b) [Cease and desist order, Purity Candy Company, Docket 4872, January 5, 1943]

In the Matter of Peter Anastasoff and James Anastasoff, Individuals, Trading as Purity Candy Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of January, A. D. 1943.

This proceeding having been heard by the Federal Trade Commisison upon the complaint of the Commission and the answer of respondents, in which answer respondents admit all the material allegations of fact set forth in said complaint and state that they waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Peter Anastasoff and James Anastasoff, individually and trading as Purity Candy Company, or trading under any other name, and their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of candy or any other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Supplying to or placing in the hands of other push or pull cards, punch boards or other lottery devices, either with assortments of candy or other merchandise or separately, which said push or pull cards, punch boards or other lottery devices are to be used or may be used in selling or distributing such candy or other merchandise to the public.

2. Selling or distributing candy or any merchandise so packed and assembled that sales of said candy or other merchandise to the public are to be made or, due to the manner in which such merchandise is packed and assembled at the time it is sold by respondents, may be made by means of a game of chance, gift enterprise or lottery scheme.

3. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[Docket Nos. 12 and 29]

PART 19—CREAM CHEESE, NEUFCHATEL, CHEESE, COTTAGE CHEESE, AND CREAMED COTTAGE CHEESE: DEFINITIONS AND STANDARDS OF IDENTITY

ORDER CHANGING EFFECTIVE DATE

An order having been issued on December 22, 1942, (7 F.R. 10755, 10835) promulgating regulations fixing and establishing definitions and standards of identity for cream cheese, neufchatel cheese, cottage cheese, and creamed cottage cheese, which standards exclude as optional ingredients, sodium, and calcium propionates; and a notice having been issued this day, of a hearing to be held upon a proposal to amend said definitions and standards to include as optional ingredients sodium propionate and calcium propionate;

Now, therefore, it is ordered, That notwithstanding the provisions of the last paragraph of said order dated December 22, 1942, and in lieu of the effective date therein specified, such regulations shall, to the extent that such standards exclude sodium and calcium propionate, become effective on the ninetieth day after the date of publication in the FEDERAL REGISTER of the final order issued with respect to said proposal to amend such standards.

TITLE 24—HOUSING CREDIT

Chapter IV—Home Owners' Loan Corporation

[Bulletin 156]

PART 403—PROPERTY MANAGEMENT DIVISION

MISCELLANEOUS AMENDMENTS

The fifth paragraph of § 403.00 shall be amended to read as follows:

§ 403.00 *Jurisdiction.* * * *

Public improvements. The Regional Manager, with the advice of the Regional Counsel, may in his discretion bind the Corporation to expend such sums for sidewalks, street improvements or other local improvements affecting property under the jurisdiction of the Property Management Division, or for the general improvement of the neighborhood in which any such property is located, as he may deem to be for the interest of the Corporation, and may on behalf of the Corporation join in and sign petitions or requests therefor, subject to limitations prescribed in § 403.14. Consents to proposed improvements out of which assessments or levies will arise shall be executed pursuant to the provisions of Part 2 of this chapter.

The first and second paragraphs of § 403.06–10 shall be amended to read as follows:

§ 403.06–10 *Listing procedure.* It shall be the responsibility of the Analysis Section to furnish to the Listing Subsection pertinent data in order to enable that Subsection to prepare a specific listing of the property either for sale or rent, or jointly for sale and rent and to forward such listing to the Contract Broker who has been designated for that purpose. The preparation of listings with brokers and the maintenance of appropriate records will be performed by the Listing Subsection of the Regional Office. The Assistant Regional Manager in charge of Property Management shall designate the Contract Broker with whom the property is to be listed.

When the property is listed with a Contract Sales Broker, the Corporation shall distribute, on authorized forms, listings of any such property to Approved Sales Brokers within a reasonably effective area of the property. In cases where the use of standard listing forms is not expedient, properties may be listed with brokers by letter or other means deemed appropriate by the Assistant Regional Manager in Charge of Property Management.

The fourth paragraph of § 403.07–1 shall be amended to read as follows:

§ 403.07–1 *Sales broker's commissions.* * * *

Conditional authorization of sale. Notwithstanding any other provision of this section, the Home Office Property Committee, Regional Property Committee or Regional Manager, when authorizing the acceptance of a specific offer to purchase, may issue such authorization upon the condition that the broker effecting the sale shall agree to a commission below the rate established by the Corporation for the particular locality, or that the Contract Sales Broker shall agree to accept as his override commission an amount smaller than provided in this section.

The first and second paragraphs of § 403.10 shall be amended to read as follows:

§ 403.10 *Plans and terms of sale.* The General Manager, with the approval of the General Counsel, is authorized to determine the plans of sale of real properties under the jurisdiction of the Property Management Division and of any leasehold or other interests therein. The General Manager is authorized to determine the terms of payment for the sale of such properties or interest therein: *Provided, however*, That in no event shall the term of repayment under any mortgage or other security instrument or instalment or like contract exceed fifteen years from the date of delivery of the deed or of such contract. The General Manager is authorized to dispose of any personal property, or any right or interest therein, acquired by the Corporation and under the jurisdiction of the Property Management Division, in such manner and for such consideration as he may determine. The authority herein vested in the General Manager may be exercised also by the Regional Manager, under procedure and limitations elsewhere provided in the Regulations.

The Regional Manager shall have authority to effect sales of real properties under the jurisdiction of the Division and of any leasehold or other interests therein at or above the minimum sales price which shall be fixed in accordance with established procedure. Once a minimum sales price has been fixed in accordance with established procedure such price need not be revised by reason of subsequently authorized expenditures for reconditioning or other purposes unless such expenditures in the opinion of the Regional Manager enhance the value of the property. In cases where the value of the property is enhanced the new minimum sales price then shall be established by the Regional Manager. In those cases where the General Manager, Deputy General Manager in Charge, Home Office or Regional Property Committee has not established a minimum sales price for the property "as is" but has established such a price "as reconditioned" in accordance with a specific reconditioning program, the Regional Manager may determine to hold the property "as is" or to proceed only with limited repairs. In such cases he is authorized to reduce the minimum sales price previously set by such amount as, in his opinion, is appropriate but in no event by an amount in excess of the estimated cost of reconditioning items which he determines should not be performed. The authority granted to the Regional Manager in this paragraph shall not be exercised in any case where the General Manager, Deputy General Manager in Charge, Home Office or Regional Property Committee has directed otherwise.

The concluding paragraph of § 403.10 shall be amended to read as follows:

Tax and insurance accounts in term sales. Obligations taken for the unpaid balance of the purchase price in connection with the sale of real property, or of any interest therein, shall provide for interest at the rate of 4½% per annum. In sales on terms, the purchaser shall be required (a) to establish and maintain a Tax and Insurance Account pursuant to the provisions of Part 2 of this Chapter, (b) to pay into such account at time of sale closing a lump sum in such amount, if any, as the Corporation may estimate to be necessary to avoid deficiencies in such account during the 12 months next succeeding the sale closing, and (c) to furnish insurance pursuant to Part 2 of this Chapter. In sales on terms, the General Manager may generally or specially authorize or approve the waiver by the Corporation of payment by the purchaser at or prior to sale closing of all or any part of the cash down payment on account of the purchase price, if the amount so waived is included in the purchaser's note, bond or installment contract and if the purchaser in writing agrees to such arrangement. In sales on terms, the General Manager may also generally or specially authorize or approve the addition to the purchaser's note, bond or installment contract of all or any part of any moneys payable by the purchaser at or prior to the sale closing for credit to the Tax and Insurance Account and of all or any part of any net adjustment found to be due the Corporation at time of sale closing. In sales on terms, any net adjustment found to be due the purchaser at sale closing in excess of any amounts then payable by the purchaser for credit to the Tax and Insurance Account shall not be applied in reduction of the cash down payment or of the principal amount of the purchaser's note, bond or installment contract, but shall be applied to the purchaser's account subsequent to the sale closing either in direct reduction of principal or as a prepayment, as the purchaser shall elect. The authority in this paragraph vested in the General Manager may also be exercised by the Regional Manager.

Section 403.10–2 (c) shall be amended to read as follows:

§ 403.10–2 *Functions.* * * *

(c) Maintain an active up-to-date record of all inquiries received in the Regional Office from prospective purchasers and advise the Contract Sales Broker with whom the property is listed of such inquiries.

Section 403.10–12 shall be amended to read as follows:

§ 403.10–12 *Preparation of Form PM–412 and of agreement for sale of real estate.* The prospective purchaser shall be required to submit a credit statement on Form PM–412 on which the Contract Sales Broker shall endorse his recommendation. The Corporation's approved form of agreement for the sale of real estate will then be prepared. This agreement may be prepared in the Regional Office, or the Contract Sales Broker may cause such agreement to be prepared. Form PM–412, the agreement for the sale of real estate, and the prospective purchaser's deposit shall then be transmitted by the broker to the Regional Office. Upon receipt of these papers, a credit report shall be obtained by the Property Management Division from an established credit reporting agency unless such report has previously been ordered. The representations made by the prospective purchaser on Form PM–412 shall be checked by the Regional Manager who shall endorse thereon his decision as to the acceptability of the prospective purchaser as a credit risk. In all cases where the cash payment offered by the prospective purchaser is equal to or in excess of 25% of the purchase price, the credit report may be waived.

Section 403.10–13 *Submission of file to Regional Office* shall be revoked.

Section 403.10–14 shall be amended to read as follows:

§ 403.10–14 *Execution of agreement for sale.* Any agreement for the sale of real estate, signed by a purchaser whose credit standing is satisfactory to the Regional Manager, may be executed on behalf of the Corporation when the amount of the offer is not less than the minimum sales price and the terms thereof conform to the regulations. Such agreement may be referred to the Regional Counsel for advice as to its legal sufficiency and the time therein provided for closing. Upon the execution of such agreement on behalf of the Corporation one executed copy thereof shall be promptly transmitted to the purchaser, either directly or through the Contract Sales Broker, and the Contract Sales Broker shall be advised of the execution of the agreement by the Corporation. When the executed agreement for sale provides that the Corporation shall furnish title evidence in addition to that then held by it, the Property Management Division shall at the same time transmit or cause to be transmitted direct to the Regional Counsel all title evidence in the case which is available in the Regional Office and the original executed agreement of sale.

Section 403.10–16 shall be amended to read as follows:

§ 403.10–16 *Preparation for closing.* Promptly upon the execution on behalf of the Corporation of the agreement for the sale of real estate, the Property Management Division shall transmit or cause to be transmitted to the Regional Counsel the agreement for sale and all available title evidence, instruments and insurance, tax and other information in pursuance of the general advice of the Regional Counsel.

The Regional Counsel shall advise the Regional Manager generally of the title evidence, instruments and insurance tax, and other information which the Property Management Division shall assemble in order to enable the Legal Department to close sales in each jurisdiction within the Region.

Section 403.10–19 shall be amended to read as follows:

§ 403.10–19 *Preparation of agreements for sale.* Agreements for the sale of real estate may be prepared by Contract Sales Brokers and by salaried personnel of the Property Management Division on approved Corporation forms.

In special and unusual cases the Property Management Division may request the Regional Counsel to prepare such agreements.

Section 403.10–20 shall be amended to read as follows:

§ 403.10–20 *Instructions for such preparation.* The Regional Manager, with the advice and approval of the Regional Counsel, shall issue from time to time for each State within the Region general instructions relating to the preparation of agreements for the sale of real estate, adjustments, leases, and other pertinent matter to be provided for in such agreements. The Regional Manager may issue specific instructions or directions with respect to the preparation of any particular agreement for the sale of real estate. General and special instructions shall not be inconsistent with the regulations of the Corporation. Copies of such general instructions shall be furnished to the Regional Counsel and the Supervising Auditor, and three copies shall be forwarded to the Deputy General Manager in Charge of Property Management for distribution to the Associate General Counsel and the Auditor.

The first paragraph of § 403.10–31 shall be amended to read as follows:

§ 403.10–31 *Provisions in Form 653–B.* In Plan B sales the agreement for sale shall require the purchaser to furnish insurance and to establish and maintain a Tax and Insurance Account. In Plan B sales such agreement shall further require the purchaser to pay a lump sum for credit to such account in such amount, if any, as the Corporation may deem necessary to avoid deficiencies in such account during the 12 months next succeeding the sale closing and shall provide that any net adjustment due at the closing of the sale from the Corporation to the purchaser in excess of any amounts to be credited to the Tax and Insurance Account shall not be applied in reduction of the cash down payment or of the principal amount of his note, bond or installment contract, but shall be applied subsequent to the sale closing either in reduction of the principal balance of the vendee account or as a prepayment, as the purchaser may direct.

The fourth paragraph of § 403.10–31 shall be amended to read as follows:

Adjustments at sale closing. If in the closing of any Plan B sale the net adjustment is in favor of the Corporation, the Regional Manager is authorized to direct in the individual case that all or any part of such net adjustment not paid by the purchaser in cash may be added to the principal amount of the purchaser's note, bond or installment contract. Any such direction shall be furnished to the Legal Department in writing.

The ninth paragraph of § 403.10–31 shall be amended to read as follows:

Insurance. In any Plan B sale, the Regional Manager may waive the requirement that the purchaser furnish required insurance at time of sale closing in any case where in his opinion such action will be in the Corporation's interest in the circumstances of the particular case. When the Regional Manager has authorized the closing of a Plan B sale without any insurance being furnished by the purchaser, the required insurance shall be purchased by the Corporation and shall be ordered by it through carriers under contract at the time the closed sales file is received by the Insurance Section, and the amount credited to the Tax and Insurance Account for such insurance shall be thirty-six times the monthly accrual shown on Form 198. In Plan B sales where the Regional Manager has authorized the acceptance of insurance pursuant to the provisions of Part 2 of this Chapter, no additional insurance will be ordered by the Corporation by reason of such authorization and no adjustment shall be made at sales closing with respect to insurance.

The first paragraph of § 403.10–32 shall be amended to read as follows:

§ 403.10–32 *Reconditioning in connection with sales.* In connection with the sale of its property the Corporation may agree to perform at its expense any reconditioning of the property sold which is authorized by the regulations governing the reconditioning of properties under the jurisdiction of the Property Management Division. Such reconditioning by the Corporation shall be authorized by the Regional Manager, subject to the limitations contained in § 403.14, either by his execution of the agreement for sale or by issuance of Form PM–409 or Form PM–431, and the reconditioning may be undertaken and completed prior or subsequent to the sale closing. Such reconditioning shall be performed under the direction and supervision of the Reconditioning Section: *Provided, however,* That if such reconditioning consists wholly of maintenance items the case may, at the discretion of the Regional Manager, be supervised either by the Property Management Division through the facilities of the contract broker, or by the Reconditioning Section.

The third paragraph of § 403.10–32 shall be amended to read as follows:

Reconditioning by Corporation. The agreement for such reconditioning by the Corporation shall specify all reconditioning to be performed thereunder in such detail as will, in the opinion of the Regional Manager, avoid any future controversy as to the scope of the reconditioning. In the event the scope of reconditioning is insufficiently described, the Regional Manager may order an R–4–D report from the Reconditioning Section in order to insert in such agreement adequate specifications covering the reconditioning work to be performed by the Corporation. Such R–4–D reports shall be based upon an inspection of the property, if the information available to the Reconditioning Section is inadequate. In determining whether or not an R–4–D report shall be obtained in the particular case, consideration shall also be given to the scope of the reconditioning, the amount involved and the technical nature of the work. If the Regional Manager determines that the description of the reconditioning to be performed by the Corporation is not adequate, the instruments containing the offer to purchase shall be modified or redrawn, and the purchaser's signature thereon shall be secured before they are executed on behalf of the Corporation. If the closing of the sale is to be deferred until the reconditioning is completed, the agreement for sale shall so provide.

The third, fourth and fifth paragraphs of § 403.10–33 shall be amended respectively to read as follows:

§ 403.10–33 *Reconditioning by purchaser.* * * *

Whenever a sale of Corporation property is negotiated on condition that the purchaser perform reconditioning, the Regional Manager shall determine whether to require the purchaser to perform the reconditioning under the supervision of the Corporation or to permit him to perform the work independently of the Corporation, after considering the competency of the purchaser to perform or supervise the reconditioning; the nature, extent, and cost of the reconditioning; and any other factors which may affect the interest of the Corporation.

In the event the Regional Manager decides to require supervision by the Corporation it shall be stipulated accordingly in the agreement for sale, and in any supplemental agreement which may be required by the Regional Manager.

The agreement for such reconditioning by the purchaser shall specify all reconditioning to be performed thereunder in such detail as will in the opinion of Regional Manager avoid any future controversy as to the scope of the reconditioning. In the event the scope of reconditioning is insufficiently described, the Regional Manager may order an R–4–D report in order to insert in such agreement adequate specifications covering the reconditioning work to be performed by the purchaser. Such R–4–D report shall be based upon an inspection of the property, if the information available to the Reconditioning Section is inadequate. In determining whether or not an R–4–D report shall be obtained in the particular case, consideration shall be given to the scope of the reconditioning, the amount involved, and the technical nature of the work. If the Regional Manager determines that the description of the reconditioning to be performed by the purchaser is not adequate, the instruments containing the offer to purchase shall be modified or redrawn, and the purchaser's signature thereon shall be obtained before they are executed on behalf of the Corporation.

Section 403.11–11 shall be amended to read as follows:

§ 403.11–11 *Repairs during receivership.* Where there is a receiver for the property, the Regional Manager, shall, if he deems it practicable to do so, first request the receiver to make the necessary or emergency repairs and in the event of the refusal of the receiver to proceed without the assurance of the Corporation that it will advance funds for the same, the Regional Manager is authorized in his discretion to give such assurance and to take such other steps as he may deem necessary to the end that the repairs may be promptly and properly completed.

Section 403.11–12 shall be amended to read as follows:

§ 403.11–12 *Procedure where receiver requests advances for repairs.* In cases where the receiver requests the Corporation to make an advance for such repairs, he should make such request to the Property Management Division on Form R–100–A or on such other approved form or forms as may be satisfactory to the Regional Counsel. If the Regional Manager approves the advance he shall request the Legal Department to obtain appropriate court authority where necessary, or desirable, and shall thereafter assign the case to the Reconditioning Section for processing in accordance with the applicable provisions of the Reconditioning Chapter.

Disbursement. After the Reconditioning Section has certified that the work has been completed in accordance with the contract and to the satisfaction of the receiver, the Regional Manager, subject to limitations as to amount set forth in § 403.14, may authorize payment to or for the account of the receiver upon the obtaining of such evidence of debt owing by the receiver to the Corporation as may be required by the court order, if any, or such as the Regional Counsel may prescribe or approve and upon obtaining such evidence as to the release or satisfaction of all liens as required by Part 5 of this Chapter.

The first paragraph of § 403.11–17 shall be amended to read as follows:

§ 403.11–17 *Supervision of repairs by reconditioning section or by broker.* Maintenance repairs and the purchase of equipment incident to maintenance shall be accomplished under the direction of the broker with whom the property has been listed except in those cases where the Property Management Division requests the Reconditioning Section to supervise such maintenance repairs and purchases of equipment. If the property is listed with a Contract Broker and the cost of the repairs does not exceed the amount of the expenditure which the broker is authorized to incur without the prior approval of the Regional Manager, the work shall be performed under the supervision of the broker. If the cost of the maintenance repairs recommended by the broker is in excess of such amount, the work shall be accomplished by the broker with whom the property is listed or by the Reconditioning Section, at the discretion of the Regional Manager. In exercising this discretion, due regard shall be given to the amount involved, the technical nature of the work, and the experience and facilities of the broker. If the repairs recommended by the broker constitute reconditioning other than maintenance, the work shall be processed in accordance with the provisions of Part 5 of this Chapter.

Section 403.11–19 shall be amended to read as follows:

§ 403.11–19 *Competitive bids.* Before incurring any charges for repairs, the purchase of materials necessary to effect such repairs or the purchase of equipment, the broker shall obtain the prior approval of the Regional Manager unless the cost of such charges does not exceed the limitations on the broker's authority as provided in § 403.14–2. The broker shall be responsible for the completion of such repairs in a good and workmanlike manner, for the selection of appropriate equipment, and for the proper installation of such equipment. Competitive bids are not required if the cost of the repairs or purchases does not exceed $25.00. If the cost exceeds $25.00 the broker shall obtain competitive bids unless such bids are waived as hereinafter provided. In any case where the repairs cost in excess of $25.00 and the broker is required to obtain the approval of the Regional Manager before incurring any charges therefor, he shall forward to the Regional Manager for approval the bids, if any, secured by him, together with his recommendations.

With respect to the installation of items of new equipment or in replacement of old equipment costing in excess of $25.00, such as gas stoves, refrigerators, heating plants, incinerators, or other similar items, the Contract Broker shall obtain such bids in the number and manner as the Corporation may prescribe, and shall forward such bids, accompanied by his recommendations to the Regional Manager. The Corporation reserves the right to specify to the Contract Broker what products and materials shall be used in making repairs. In the purchase of supplies and any authorized equipment, the Contract Broker shall follow such precedure as the Corporation may prescribe.

The Regional Manager may waive competitive bids for repairs or purchases of equipment where it is not feasible to obtain bids because of the urgency of the situation, the limited number of contractors or vendors willing or able to submit bids, or if there is a reasonable possibility that the loss of time resulting from obtaining bids might cause the loss of a prospective sale or tenancy. Competitive bids in connection with repairs may also be waived by the Contract Broker for the same reasons in any case where under § 403.14–2 he is authorized to incur charges without the prior approval of the Regional Manager.

In all cases where the Contract Broker pursuant to the provisions of the next preceding paragraph has waived the obtaining of competitive bids in connection with repairs costing in excess of $25.00, he shall forward to the Corporation a written statement justifying the awarding of the contract without bids and said statement shall accompany vouchers to secure payment, or shall be transmitted with the copy of the Broker's Monthly Operating Report forwarded to the Property Management Division in the event payment has been made by the Broker out of funds collected by him from the properties listed with him for management. In any case where the Regional Manager has authorized repairs or the purchase of equipment without competitive bids, he shall state the reason for waiving bids on the voucher submitted to secure payment to the contractor or vendor.

The Regional Manager may further authorize the purchase of standard equipment costing in excess of $25.00 at standard prices without competitive bids where in his opinion the obtaining of such bids would serve no useful purpose. In communities where it is feasible, the Regional Manager may obtain, through the Reconditioning Section and as provided in Part 5 of this Chapter, price lists, catalogs or offers for periodic purchases from competitive concerns containing prices at which standard equipment may be purchased during a stipulated time. Purchases of equipment may be made on the basis of such price lists without other bids from such concerns.

The first paragraph of § 403.11–30 shall be amended to read as follows:

§ 403.11–30 *Authority to rent.* The Regional Manager, Assistant Regional Manager in Charge of Property Management, Property Management Field Supervisor, Supervisor of the Management Section and Contract Management Broker shall, subject to the control of the Deputy General Manager in Charge, have authority to effect any month-to-month rental agreement, and in connection with properties owned by the Corporation any lease for not longer than one year which by its terms permits its cancellation by the Corporation upon not more than one month's notice in event of sale of any of the property leased, and to execute on behalf of the Corporation leases and rental agreements therefor on authorized forms. All other leases recommended for approval by the Regional Manager shall be submitted to the Home Office Property Committee, except that the Deputy General Manager in Charge may authorize the Regional Manager to effect such leases for periods not exceeding two years. When the Regional Manager is so authorized, or when leases have been approved by the Home Office Property Committee, such leases shall be executed by such officers as are authorized by the regulations of the Corporation.

The first paragraph of § 403.11–32 shall be amended to read as follows:

§ 403.11–32 *Terms on which properties are rented.* The terms on which properties are to be rented shall be fixed by the Regional Manager or by the Home Office Property Committee. All rents should be due and payable on the first of each month in advance. In those cases where tenants take possession on dates other than the first of the month and pay a full month's rent in advance, the rent shall be adjusted at the beginning of the period of occupancy so that on the first succeeding regular billing, the tenant shall be billed for the balance of the calendar month remaining after the expiration of the first month's occupancy by the tenant and that monthly

certificates, title insurance policies; at-

management: *Provided,* That if the for the purpose of effecting consumma-

rent thereafter shall be due and payable in advance on the first of each month. Where possible, rent should be computed on the basis of thirty days to the calendar month. The Property Management Division shall specifically advise the Accounting Division, in all cases, of the amount of rent which is applicable to the month in which the tenancy begins, and the amount, if any, applicable to a future period.

The third paragraph of § 403.11–33 shall be amended to read as follows:

§ 403.11–33 *Approved forms to be used; waivers.* * * *

When rental agreement to be obtained. Unless waived by the Regional Manager pursuant to the next preceding paragraph, the Corporation requires that a written rental agreement be obtained from the occupant of property under the jurisdiction of the Property Management Division if the Corporation desires to enter into the relationship of landlord and tenant with such occupant and has the legal right to do so. Once a rental agreement has been entered into between the Corporation and such tenant, no new rental agreement shall be required, unless there is a subsequent change in the rental agreement, such as a change in the rental rate or in the expiration date of the rental agreement. Unless the Regional Counsel otherwise directs, no new rental agreement is required solely for the purpose of evidencing the amortization of rental delinquencies. Where a new agreement is required under the ruling of the Regional Counsel, the rental rate shall not be increased by reason of such amortization and any payments to be made on account of rental delinquencies shall be shown separately in such new rental agreement.

Section 403.11–38 shall be amended to read as follows:

§ 403.11–38 *Duplicate copies Form 416.* At the same time that the original Monthly Operating Report of Contract Management Broker is mailed to the Regional Treasurer, the broker shall send to the Property Management Division a duplicate copy of the report accompanied by receipted bills for all disbursements reported by the broker and by original and duplicate copies of new written leases or rental agreements.

The second paragraph of § 403.11–41 shall be amended to read as follows:

§ 403.11–41 *Certification in lieu of receipted bill.* * * *

In cases where it is impracticable for the broker to obtain a receipted bill, the Official in Charge of Management is authorized to waive the necessity of obtaining such receipted bill upon certification by the broker, preferably, on the bill or letterhead of the broker, that it was impracticable to obtain a receipted bill and stating the reasons therefor, and upon satisfactory evidence that payment, in fact, has been made.

Section 403.11–42 shall be amended to read as follows:

§ 403.11–42 *Delinquencies.* The Official in Charge of Management shall cause to be reviewed all delinquencies, as disclosed by the Monthly Operating Report by Contract Management Brokers. Appropriate action shall be taken promptly upon a default in the payment of rent so that the tenant will in no case remain in possession of the property when the deliquency is forty-five days old, except upon the approval of the Regional Manager. Where it has been decided by the Official in Charge of Management that a delinquent tenant should be required to move, a notice to vacate in form satisfactory to Regional Counsel should be forwarded to the Contract Management Broker for immediate service on such tenant. If extensions are granted to delinquent tenants the Contract Management Broker shall be notified immediately of the terms of said extensions.

Section 403.11–49 shall be amended to read as follows:

§ 403.11–49 *Identification card.* Property Management representatives and Property Management field supervisors shall be furnished with Identification Card, Form 61–A, which must be carried whenever they are on official business and be exhibited upon request.

Section 403.13–1 shall be amended to read as follows:

§ 403.13–1 *Reconditioning contracts.* The Regional Manager is authorized to sign or approve contracts for repairs, reconditioning, and for the purchase of equipment in all cases where the acceptable bid does not exceed the limitations as to amount placed upon his authority to incur charges as provided in § 403.14 of this Part and in all cases where the items and amounts included in the scope of the work have been authorized by higher authority.

Section 403.13–2 shall be amended to read as follows:

§ 403.13–2 *Contracts for public utilities.* The Regional Manager, Assistant Regional Manager in Charge of Property Management, Supervisor of the Management Section and Contract Management Broker are authorized to execute in behalf of the Corporation contracts for water, gas, electricity, and other services furnished by public utilities, where, in their opinion, such services are necessary or desirable in the management of properties under the jurisdiction of the Property Management Division, and where it is the established local custom that such services be furnished at the expense of the landlord.

The third paragraph of § 403.14 shall be revoked. (This is the paragraph relating to the authority of state and district managers.)

The fourth paragraph of § 403.14 shall be amended to read as follows:

§ 403.14 *Limitation on authority of Regional Managers.* * * *

In adddition to the limitations imposed by this section on the authority of Regional Managers to incur or approve charges or expenses, the prior approval of the Home Office Property Committee shall be first obtained in any case involving reconditioning, repairs or purchases of equipment and supplies in excess of $100.00, provided the expenditure is to be capitalized and is not due to an insurance loss or loss covered by the Reserve for Losses from Fire and Other Hazards, and further provided that it appears from the latest quarterly report of the Accounting Division received by the Regional Manager, or from the Property Ledger Card maintained by the Accounting Division, that the cumulative amount of disbursements capitalized for repairs, reconditioning and the purchase of equipment and supplies on the property subsequent to the effective date of the transfer of the account from loan or vendee status, when added to the amount to be authorized, exceeds either $1,500.00 or 50% of the difference between (a) the current minimum sales price of the property in its then condition, and (b) the cumulative amount of such disbursements. In the event no current minimum sales price has been established for the property in its condition at the time the additional amount is to be authorized, the current market price of the property in its then condition as established by the Property Management Division shall be used in lieu of such minimum sales price for the purpose of applying the provisions of this paragraph.

The sixth paragraph of § 403.14 shall be amended to read as follows:

The Regional Manager is authorized and directed, within the limitations herein provided, to determine the necessity for any expenditures incurred or approved by him in accordance with the provisions of this Part and the amounts thereof.

The seventh paragraph of § 403.14 shall be amended to read as follows:

Expenditures by brokers. Contract Management Brokers and Contract Sales Brokers may incur charges in behalf of the Corporation in connection with properties assigned to them by the Corporation, subject to procedures and limitations elsewhere prescribed in the regulations.

Section 403.14–1 shall be amended to read as follows:

§ 403.14–1 *General.* Charges and bills incurred or approved by the Regional Manager shall upon certification by the Auditor or an authorized deputy be paid by the Regional Treasurer from the Regional Working Fund or from such other fund as may be provided elsewhere in the regulations, except in those cases where disbursements are authorized to be made by brokers out of funds in their possession received from the income of properties listed with them. Vouchers shall be accompanied by the proper receipts and releases except as provided elsewhere in the regulations.

The authority of the Regional Managers contained in § 403.14 shall not extend to payrolls, travel or any other expenditure for which there is an established procedure requiring payment from the Home Office; nor to any compensation of fee attorneys; expenses for abstracts, surveys, title searches, title certificates, title insurance policies; attorneys' fees for deeds in lieu of foreclosure, foreclosures or other litigation, or expenses of litigation. Any legal fees and expenses shall be incurred, approved and paid in the manner provided in Part 6 of this Chapter.

The first paragraph of § 403.14–2 shall be amended to read as follows:

§ 403.14–2 *Limitations on brokers to incur charges.* The Contract Broker is authorized to incur charges in the performance of any of the functions or duties required or authorized to be done by Part 403 of this Chapter, including charges for maintenance, repairs, and for the purchase of supplies, and of items of new equipment costing not in excess of $25.00 and for coal or other fuel, water, gas, electricity, or janitor service: *Provided,* The total cost of such charges does not exceed $25.00 during any monthly accounting period on any particular property listed with him containing not more than one unit or $50.00 on any property containing more than one unit except in cases requiring emergency repairs for which the broker may incur charges not exceeding $100.00. Where the cost of such items other than for emergency repairs exceeds these limitations on any particular property during any monthly accounting period, or in any case where the purchase of items of new equipment or in replacement of old equipment costing more than $25.00 is required, the broker shall not incur such charges without the approval of the Regional Manager. The Regional Manager may authorize the broker in writing, either generally or with respect to any specific property, to incur charges of a recurring nature such as expenditures for fuel, water, gas, electricity, or janitor service, in which event future expenditures for any such items shall not be taken into consideration in computing the limitations of $25.00 or $50.00 provided for in this section. Copies of such authorizations shall be maintained by the Property Management Division and shall be furnished to the Regional Supervising Auditor. Notwithstanding the above limitations, where repairs are required immediately in order to prevent impairment of health or to protect the property from imminent damage as a result of breakage, storm, fire, or other casualty, the Contract Broker is authorized to award a contract or contracts to effect such repairs in a sum not to exceed $100.00 without first receiving authorization from the Regional Manager. However, in each such case where the cost of such emergency repairs exceeds $25.00 on any property containing not more than one unit, or $50.00 on any property containing more than one unit, the Contract Broker shall submit promptly to the Regional Manager a detailed explanation of the necessity for such expenditure. Charges or expenses duly incurred or approved under authority of this section with respect to any individual Corporation property listed with the Contract Broker may be paid by such Contract Broker out of any revenues received by him from any Corporation properties listed with him for management: *Provided,* That if the amounts of such charges or expenses exceed $300.00 in any individual case, the same shall be paid by voucher submitted by such broker to the Corporation in accordance with the regular procedure provided therefor.

Section 403.14–4 shall be amended to read as follows:

§ 403.14–4 *Advances to receivers.* The Regional Managers may authorize advances to be made to receivers of properties under the jurisdiction of the Property Management Division for emergency and necessary repairs and for any other items authorized by this Part, subject, however, to the limitations as to amount provided for in § 403.14.

The third paragraph of § 403.19 shall be amended to read as follows:

§ 403.19 *Payments of water rents and other charges.* * * *

The authority vested in the General Manager by this section may be exercised also by the Regional Manager, with the advice of the Regional Counsel.

The first paragraph of § 403.19–8 shall be amended to read as follows:

§ 403.19–8 *Compromises.* The Regional Manager, with the advice of the Regional Counsel, is authorized to approve and execute on behalf of the Corporation any agreements with municipalities or private companies furnishing property services to compromise charges for property services in connection with any particular property or properties in any State or locality. A copy of all agreements affecting more than one property shall be forwarded to the General Manager.

PART 406—LEGAL DEPARTMENT

CONVEYANCE UNDER INSTALLMENT CONTRACT

Section 406.16–11 is amended to read as follows:

§ 406.16–11 *Conveyance under installment contract.* When the Corporation's vendee or his successor in interest has requested the Corporation to convey to him the property purchased by him under an installment contract or like instrument prior to full payment of the purchase price thereunder and when such request has been duly approved on behalf of the Corporation, and when the Accounting Division has prepared a statement of account and executed Block III of Form 196, the entire file with two copies of completed Form 196 and such other instruments and information as the Regional Counsel shall request, shall be forwarded to the Regional Counsel for the purpose of effecting consummation of the transaction. Such transactions shall be processed and consummated pursuant to the regulations governing the processing and closing of sales of Corporation property, insofar as they are applicable, and pursuant to the general or special instructions of the Legal Department and the provisions of Articles 221–4 and 221–5 of the Corporation's Manual. A new instrument providing for a Tax and Insurance Account pursuant to § 402.11 (a) of Part 402 of this Chapter shall be taken from the purchaser at the consummation of the transaction, unless Form 196 affirmatively directs that the converted account will not have a Tax and Insurance Account.

The new instruments taken from the purchaser to evidence and secure his indebtedness to the Corporation shall bear interest at the rate specified in the original installment contract or like instrument. Such instruments shall provide that interest shall commence on the date shown as the effective date in Block III of Form 196. It is not required, however, that the conversion be accomplished in fact on a cycle date. The instruments need not bear the date shown on Form 196 as the effective date, but may bear such date as Regional Counsel shall direct. The approved attorney or title company consummating the transaction shall collect from the vendee all fees and expenses which he is to pay in connection therewith and shall make a report of the consummation of the transaction on a form approved for that purpose. If required by the Regional Counsel, the approved attorney or title company shall furnish a certificate as to title and the priority and validity of the Corporation's lien instruments. The Regional Counsel shall promptly transmit the closed file to the Regional Accountant, but if the transaction fails of closing, the Regional Counsel shall promptly return the file thereof to the Regional Loan Service Division with a statement of the reasons for failure to close.

(Secs. 4 (a), 4 (k), 48 Stat. 129, 132, as amended by sec. 13, 48 Stat. 647; 12 U.S.C. 1463 (a), (k); E.O. 9070; 7 F.R. 1529.)

Effective: January 15, 1943.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

[T. D. 5214]

PART 18—REFUNDS UNDER SECTION 203 OF THE PUBLIC SALARY TAX ACT OF 1939

INCOME TAX

Refunds under section 203 of the Public Salary Tax Act of 1939, as amended by section 509 of the Revenue Act of 1942.

Pursuant to the authority contained in the Public Salary Tax Act of 1939 (Public, No. 32, 76th Congress), approved

April 12, 1939, as amended by the Revenue Act of 1940 (Public, No. 656, 76th Congress), approved June 25, 1940, and by the Revenue Act of 1942 (Public Law 753, 77th Congress), approved October 21, 1942, the following regulations are prescribed:

Sec.
18.0 Introductory.
18.1 Definitions.
18.2 Claims filed after January 18, 1939.
18.3 Application of section 203.
18.4 Effective date of regulations.

AUTHORITY: §§ 18.0 to 18.4 issued under section 203 of the Public Salary Tax Act of 1939 (Pub. No. 32, 76th Cong.), as amended by section 509 of the Revenue Act of 1942 (Pub. Law 753, 77th Cong.).

SOURCE: Treasury Decision, 5214, approved Jan. 15, 1943.

§ 18.0 *Introductory.* (a) Section 203 (as amended by section 509 of the Revenue Act of 1942), section 204, section 205 (as amended by section 401 of the Revenue Act of 1940), section 206, and section 210 of the Public Salary Tax Act of 1939 provide:

SEC. 203. (a) Any amount of income tax (including interest, additions to tax, and additional amounts) collected on, before, or after the date of the enactment of this Act for any taxable year beginning prior to January 1, 1939, to the extent attributable to compensation for personal service as an officer or employee of a State, or any political subdivision thereof, or any agency or instrumentality of any one or more of the foregoing, shall be credited or refunded in the same manner as in the case of an income tax erroneously collected, if claim for refund with respect thereto is filed after January 18, 1939, and the Commissioner of Internal Revenue, under regulations prescribed by him with the approval of the Secretary of the Treasury, finds that disallowance of such claim would result in the application of the doctrines in the cases of Helvering against Therrell (303 U. S. 218), Helvering against Gerhardt (304 U. S. 405), and Graves et al. against New York ex rel. O'Keefe, decided March 27, 1939, extending the classes of officers and employees subject to Federal taxation.

(b) Any amount of income tax (including interest, additions to tax, and additional amounts) for taxable years beginning after December 31, 1938, to the extent attributable to compensation for personal service rendered in a taxable year beginning prior to January 1, 1939 (other than compensation received as a pension, retirement pay, or similar allowance), as an officer or employee of a State, or any political subdivision thereof, or any agency or instrumentality of any one or more of the foregoing—

(1) Shall not be assessed; and

(2) If assessed, the assessment shall be abated and any amount collected in pursuance of such assessment shall be credited or refunded in the same manner as in the case of an income tax erroneously collected,

if the Commissioner of Internal Revenue, under regulations prescribed by him with the approval of the Secretary of the Treasury, finds that assessment of such tax, or disallowance of a claim for credit or refund, except for Title I of this Act, would result in the application of the doctrines in the cases of Helvering against Therrell (303 U. S. 218), Helvering against Gerhardt (304 U. S. 405), and Graves et al. against New York ex rel. O'Keefe (306 U. S. 466), extending the classes of officers and employees subject to Federal taxation.

SEC. 204. Neither section 201 nor section 203 shall apply in any case where the claim for refund, or the institution of the suit, or the filing of the petition with the Board, was, at the time filed or begun, barred by the statute of limitations properly applicable thereto.

SEC. 205. Compensation shall not be considered as compensation within the meaning of sections 201, 202, and 203 to the extent that it is paid directly or indirectly by the United States or any agency or instrumentality thereof. If the amount of the deficiency in income tax for any taxable year beginning before January 1, 1939, attributable to compensation paid indirectly by the United States, or any agency or instrumentality thereof, for personal service as an officer or employee of a State, or any political subdivision thereof, or any agency or instrumentality of any of the foregoing, is paid on or before March 15, 1941, then with respect to failure to pay such amount or make return of such compensation: (a) No criminal penalty shall apply; and (b) the additions to tax provided in sections 291 and 293 of the Internal Revenue Code shall not apply.

SEC. 206. The terms used in this Act shall have the same meaning as when used in Chapter I of the Internal Revenue Code.

SEC. 210. For the purposes of this Act, the term "officer or employee" includes a member of a legislative body and a judge or officer of a court.

(b) In Helvering v. Therrell, 303 U. S. 218, the Supreme Court held that compensation paid to individuals acting as liquidators and attorneys for insolvent State banking and insurance corporations was subject to Federal income tax where such compensation was paid from corporate assets and not from funds belonging to the State. In Helvering v. Gerhardt, 304 U. S. 405, the court held that compensation of employees of the Port of New York Authority, a bi-state corporation created by a compact between New York and New Jersey and approved by Congress, was subject to Federal income tax. In Graves et al. v. New York ex rel. O'Keefe, 306 U. S. 466, the court overruled Collector v. Day (11 Wall. 113), so far as that case recognized an implied constitutional immunity from Federal income taxation of the compensation of officers and employees of State and local governments or their instrumentalities. Each of those decisions extended the classes of State and local officers and employees subject to Federal income taxation on their compensation. Under prior Supreme Court decisions the taxability of compensation of a State or local officer or employee depended upon the nature of his office or employment, i. e., whether he was engaged in the exercise of an essential governmental function or a proprietary function. (See Helvering v. Powers et al., 293 U. S. 214, and Brush v. Commissioner, 300 U. S. 352.) Section 509 (b) of the Revenue Act of 1942 provides that the amendments made by section 509 of that Act shall be effective as of the date of enactment of the Public Salary Tax Act of 1939.

§ 18.1 *Definitions.* As used in these regulations:

(1) The term "act" means the Public Salary Tax Act of 1939, as amended by section 401 of the Revenue Act of 1940 and by section 509 of the Revenue Act of 1942.

(2) The term "State employee" means an officer or employee of a State, or any political subdivision thereof, or any agency or instrumentality of one or more States or political subdivisions; and includes a member of a State or local legislative body and a judge or officer of a State or local court.

(3) The term "compensation" does not include any amount paid directly or indirectly by the United State or any agency or instrumentality thereof.

(4) The term "claim" means a claim for refund filed within the period of limitations provided by the applicable revenue law.

§ 18.2 *Claims filed after January 18, 1939.* Section 203 (a) of the act describes the circumstances under which a claim filed after January 18, 1939, by a State employee for refund of tax attributable to his compensation for personal services as a State employee for any taxable year beginning prior to January 1, 1939, shall be allowed. If, under these regulations, the Commissioner of Internal Revenue finds that disallowance of such claim would result in the application of the doctrines announced in Helvering v. Therrell 303 U. S. 218; Helvering v. Gerhardt 304 U. S. 405; and Graves et al. v. New York ex rel. O'Keefe, 306 U. S. 466, extending the classes of State employees subject to Federal income tax, then such claim shall be allowed. Section 203 (b) of the act provides that compensation (other than pensions, retirement pay, or similar allowance) of a State employee received in a taxable year beginning after December 31, 1938, for personal services rendered in a taxable year beginning prior to January 1, 1939, is not taxable if the collection or retention of tax on such compensation, except for Title I of the Public Salary Tax Act of 1939, would result in the application of the doctrine of the Therrell, Gerhardt, and O'Keefe cases. If the tax attributable to the compensation referred to in section 203 (b) of the act has been assessed and any amount collected pursuant to such assessment, a claim may be filed by the taxpayer for credit or refund.

If, under Supreme Court decisions rendered prior to 1938 on the question of the constitutional immunity of compensation of State employees from Federal income taxation, an assessment of such tax or a disallowance of such claim would be proper, then the tax shall be assessed (or if already assessed the assessment shall not be abated) or the claim shall be disallowed; but if under such decisions an assessment of such tax or a disallowance of such claim would not be proper, then the tax shall not be assessed (or if assessed the assessment shall be abated) or the claim shall be allowed.

A taxpayer is entitled to the benefits of section 203 of the act, therefore, if under these regulations, the Commissioner of Internal Revenue finds that such compensation was for personal services rendered in the exercise of an essential governmental function as distinguished from a proprietary function.

A claim under section 203 of the act shall not be disallowed solely because of the provisions of section 322 (c) of the Revenue Act of 1938 and corresponding sections of prior revenue acts relating to the prohibition against the allowance of a credit or refund.

Amounts properly subject to credit or refund under section 203 of the act include interest, additions to tax, and additional amounts paid with respect to the tax. Such amounts shall be credited or refunded in the same manner as in the case of an erroneously collected income tax. The tax on amounts received as a pension, retirement pay, or similar allowance is not subject to credits or refunds under section 203 (b) of the act.

Section 203 (a) of the act has no application to a case in which a State employee files a claim prior to January 19, 1939, for refund of tax attributable to his compensation for any taxable year beginning prior to January 1, 1939.

§ 18.3 *Application of section 203.* The application of section 203 of the act may be illustrated as follows:

Claims shall be allowed if filed, for example, by State public-school teachers, receivers and masters appointed by State courts, liquidators of banks and insurance companies taken over by a State, and officers and employees of a city engaged in maintenance, operation or regulation of public parks and playgrounds, or of water supply. Similarly, in the case of such individuals, assessments will not be made, or if made shall be abated and any amount collected in pursuance of such assessment credited or refunded.

Claims shall not be allowed if filed, for example, by State liquor store employees or municipal railway employees. Likewise, with respect to such persons, assessments will be made, or if made shall not be abated or any amount collected pursuant thereto credited or refunded.

§ 18.4 *Effective date of regulations.* These regulations are effective as of April 12, 1939, the date of enactment of the Public Salary Tax Act of 1939. Treasury Decision 4904 [Part 18, Title 26, Code of Federal Regulations, 1939 Sup.] is hereby revoked as of the date of its approval.

GUY T. HELVERING,
Commissioner of Internal Revenue.

Approved: January 15, 1943.

JOHN L. SULLIVAN,
Acting Secretary of the Treasury.

TITLE 29—LABOR

Chapter VII—War Manpower Commission

[Amendment 2]

PART 901—TRANSPORTATION OF WORKERS

TRANSPORTATION OF WORKERS TO NON-FERROUS METAL PRODUCING AREAS AND LUMBER PRODUCING AREAS

The "Regulations Governing Transportation of Workers to Non-Ferrous Metal Producing Areas," [7 F.R. 8457, 10253] promulgated by the Chairman of the War Manpower Commission on October 17, 1942, pursuant to the letter of the President dated October 8, 1942, allocating certain sums from the Emergency Fund for the President to the War Manpower Commission, as amended by Amendment No. 1, dated December 4, 1942, are hereby further amended as follows:

I. The title and introductory paragraph of said regulations are amended, effective December 1, 1942, to read as follows:

Title: Transportation of Workers to Non-Ferrous Metal and Lumber Producing Areas.

Introductory paragraph: By virtue of and pursuant to the authority vested in me by Executive Orders No. 9139, 9247, and 9279, and by the letter of the President dated October 8, 1942, allocating certain sums from the Emergency Fund for the President, National Defense, 1942 and 1943, to the War Manpower Commission, as amended by the letter of the President dated December 1, 1942, I hereby prescribe the following regulations:

II. Section 901.2 of said regulations is amended to read as follows:

§ 901.2 *Prerequisites to transportation.* (a) No transportation shall be provided for any worker, his dependents, and household effects, and no reimbursement shall be made to any worker for transportation, or to any employer for advances made by him to any worker for transportation unless (1) reasonably adequate use is being made of the local labor supply at the proposed place of employment, and (2) the employer and the worker have entered into a contract of employment which includes the provisions contained in forms provided by the United States Employment Service for such purposes. Such contract shall provide for a ninety-day period of employment (or for such shorter period as may be specifically authorized in exceptional types of cases by the Director of the Bureau of Placement in the War Manpower Commission) beginning on the day the worker begins travel to the place of employment, and shall include provisions for reimbursement to the United States by the worker or the employer, as the case may be, of the costs of transportation furnished pursuant to these regulations in the event that the employment is terminated without good cause prior to the expiration of such ninety-day or authorized shorter period.

III. Section 901.3 of said regulations is amended, effective December 1, 1942, to read as follows:

§ 901.3 *Persons for whom transportation provided.* In furtherance of the plan for "Employment Stabilization in Non-Ferrous Metals and Lumbering Activities," transportation may be provided for a worker qualified for employment in critical occupations as defined in said plan, and not to exceed three dependents of any such worker, from points in the continental United States to places of employment in the nonferrous metal and lumbering industry. For the purposes of these regulations, "dependent" means a wife or minor child of the worker or a person whose support the worker has assumed in good faith, *Provided*, That the worker maintains a bonafide family relationship in his home with such wife, child or other person.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1805]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING RELIEF, ETC.

Memorandum opinion and order granting temporary relief and conditionally providing for final relief in the matter of petition of District Board No. 4 for the revision of the effective minimum prices for the coals of the Apex Mine, Mine Index No. 7, of the Haverhill Coal Company for shipment into Market Areas 20, 21 and 23 for use as off-line railroad fuel.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this Division by District Board No. 4, requesting that the Note added in § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) of the Schedule of Effective Minimum Prices for District No. 4 For All Shipments except Truck by the order issued in Docket No. A-1019 on March 16, 1942, 7 F.R. 2125, be modified by excluding from the operation of this Note, the coals of the Apex Mine, Mine Index No. 7, ("Apex") operated by Haverhill Coal Company ("Haverhill"), a code member located in Subdistrict 3 of District No. 4, when for shipment into Market Areas 20, 21, and 23, respectively, for use as off-line railroad fuel. This request, if granted, it is alleged in the petition filed herein, will establish minimum f. o. b. mine prices for the coals of the Apex Mine for movement to Market Areas 20, 21 and 23, for use as off-line railroad fuel, at parity with competitive coals moving to these destinations for this use from mines located in Subdistricts 1, 2, 3, 4 and 6 of District No. 4.

The gravamen of this petition lies in the freight rate structure applicable to the coals of Haverhill and to the coals of code members located in Subdistricts 1, 2, 3, 4, and 6, with which the Haverhill coals are competitive, for movement into Market Areas 20, 21, and 23, for use as off-line railroad fuel.

It appears that the coals produced at this mine are included in Freight Origin Group No. 81 and, for movement into Market Areas 20, 21, and 23, take the same freight rates as those applicable to competitive coals moving into these market areas for this use from lines located in Subdistricts 1 and 2 of District No. 4. These rates are 10 cents per ton higher than the freight rates applicable to other coals produced in Subdistrict 3 for movement to these market areas for this use.

The increase established by the Order of March 16, 1942, failed to take into account the fact that the freight rates applicable to the Apex coals for movement to these market areas for this use were 10 cents per ton higher than those applicable to other Subdistrict 3 coals. Consequently, the increase resulted in pricing the Apex coals at 10 cents per net ton higher than similar coals produced in Subdistrict 1, 2, and 3 for movement to these market areas for this use, and placed the Apex coals at a competitive disadvantage to that extent.

Accordingly, it appears to the Director that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; that no petitions of intervention have been filed with the Division in the above-entitled matter; and that the following action is necessary to effectuate the purposes of the Act.

Therefore, it is ordered, That pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 4 For All Shipments Except Truck be, and the same hereby is, amended by adding the following proviso to the note appearing in § 324.11 (*Special prices (a) Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) of said schedule:

• • • *Provided, however*, That such increase shall not be applicable to the coals of the Apex Mine, Mine Index No. 7, of the Haverhill Coal Company.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: January 13, 1943.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 7 for the establishment of minimum prices for the coals of Mill Creek Colliery Co.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Mill Creek No. 2 Mine, Mine Index No. 124, operated by Mill Creek Colliery Co., for truck shipment; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 327.34 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: January 2, 1943.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines and for changes in shipping points of certain other mines.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines, requesting changes of shipping points for certain other mines, and requesting a change of shipping point, Freight Origin Group Number and railroad, for a certain other mine, all located in District No. 8.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: January 2, 1943.

PART 324—MINIMUM PRICE SCHEDULE DISTRICT NO. 4

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 4 for the establishment of price classifications and minimum prices for rail and truck shipments and for change of shipping point for the coals of a certain mine in District No. 4.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for certain mines in District No. 4 and for a change of shipping point for the coals of the May Mine, Mine Index No. 856 of D. S. Thomas Coal Company; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 324.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 324.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That, commencing forthwith the shipping point of Crooksville, Ohio, on the New York Central Railroad be, and the same hereby is, deleted as a shipping point for the coals of the May Mine, Mine Index No. 856 of D. S. Thomas Coal Company, and in lieu thereof Tropic, Ohio, on the New York Central Railroad be, and the same hereby is, established as the shipping point for the coals of this mine.

It is further ordered, That no relief be granted herein for the coals of the Davis #2 Mine, Mine Index No. 3068 of A. R. Davis and Emory Baughman (A. R. Davis) for the reason that the coals of this mine have been heretofore priced for truck shipments in Docket No. A-1703.

It is further ordered, That, upon the request of the petitioner, the price classifications and minimum prices proposed by it for the coals of the E. E. Richards & Son Mine, Mine Index No. 3062, of E. E. Richards & Son (E. E. Richards) in Size Groups Nos. 7 and 8, respectively, for shipment via truck into all market areas, be deleted from said petition, and that there be established and made effective in lieu thereof, the price classifications and minimum prices appearing in said Supplement T for said coals, in order that said coals may be classified and priced at parity with analogous coals produced at the Richard Mine, Mine Index No. 295 of J. G. McKitterick (McKitterick Coal Co.).

It is further ordered, That no relief be granted herein for the coals of the Balser Mine, Mine Index No. 2505, of Balser Coal Company, Howard, pending further investigation and clarification of the Code member-ship status of this producer.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered. That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: January 2, 1943.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 7 for the establishment of price classifications and minimum prices for the coals of the Bower Mine of Chas. H. Bower and the Dash Mine of John C. Dash, Jr. in District No. 7.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Bower Mine of Chas. H. Bower, Mine Index No. 331 and the Dash Mine of John C. Dash, Jr., Mine Index No. 702, in District No. 7; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 327.34 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: January 6, 1943.

Subchapter B—Export Control

[Amendment 114]

PART 802—GENERAL LICENSES

PART 805—SELECTED DESTINATIONS CLEARANCE PROCEDURE

Section 802.10 *General licenses which permit shipments not exceeding a specified value* is hereby amended in the following particulars:

1. Paragraph (a) is amended by revising the paragraph preceding the list of commodities to read as follows:

(a) General licenses are hereby issued permitting exportation to destinations in general license country group K, as set forth in § 802.3 (a) of this subchapter, and to Liberia, of all commodities where, in a single shipment, the net value (net value is defined to mean the invoice price exclusive of shipping charges) of such commodities classified under the same Department of Commerce Schedule B or F number does not exceed $25 with exception of the commodities listed below (which, when preceded by an asterisk, shall be construed to include their forms, conversions and derivatives):

2. Paragraph (b) is hereby amended by revising the paragraph preceding the list of commodities to read as follows:

(b) General licenses are hereby issued permitting exportation to destinations in general license country group K, as set forth in § 802.3 (a) of this subchapter, of all commodities excepted from paragraph (a) of this section when the net value (net value is defined to mean the invoice price exclusive of shipping charges) of a single shipment of such commodities does not exceed $1.00: *Provided*, That the following commodities may not be exported under these general licenses in any amount:

3. Paragraph (d) is hereby amended by revising the paragraph preceding the list of commodities to read as follows:

(d) General licenses are hereby issued permitting exportation to destinations in general license country group K, as set forth in § 802.3 (a) of this subchapter, of all medicinals, pharmaceuticals and chemicals used solely for medicinal purposes, except those listed in paragraph (a) of this section, where, in a single shipment, the net value (net value is defined to mean the invoice price exclusive of shipping charges) of such commodities classified under a single Department of Commerce Schedule B or F number does not exceed $100: *Provided, however*, That any medicinal commodity listed below (including its forms, conversions and derivatives, and whether or not contained in a preparation) may not be exported under these general licenses to destinations in general license country group K in an amount exceeding $25 net value (as above defined):

Section 805.2 *Selected destinations* is hereby amended by deleting Liberia G-91 from the list of countries designated selected destinations.

Section 805.3 *General license provisions* is hereby amended by deleting Liberia from the list of countries therein.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-214]

COVE, INC.

Cove, Inc., is a Pennsylvania corporation formed for the purpose of operating a restaurant and taproom in the premises situated at 1301-03 Locust Street, Philadelphia, Pennsylvania. Subsequent to September 7, 1942, Cove, Inc., began construction, as defined in Conservation Order L-41, as amended September 7, 1942, on the remodeling of the premises situated at 1301-03 Locust Street, Philadelphia, Pennsylvania, into a restaurant and taproom without specific authority from the Director General for Operations. The estimated cost of this construction was considerably in excess of $200.00. The construction is now partially complete, having been stopped by the War Production Board approximately two months ago. At the time of the beginning of said construction the principal officers of the corporation knew, or should have known, of the restrictions contained in Conservation Order L-41, as amended. These acts constituted a wilful violation of said order.

This violation of said order has hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered:*

§ 1010.214 *Suspension order S-214.* (a) Neither Cove, Inc., nor any other person shall order, purchase, accept delivery of, withdraw from inventory or in any other manner secure or use material or construction plant in order to continue or complete construction of the remodeling of the premises situated at 1301-03 Locust Street, Philadelphia, Pennsylvania, except as specifically authorized by the Director General for Operations.

(b) For a period of ninety days from the effective date of this order no application filed by Cove, Inc., or any other person for authorization to complete the said construction of the remodeling of the premises situated at 1301-03 Locust Street, Philadelphia, Pennsylvania, shall be granted.

(c) Nothing contained in this order shall be deemed to relieve Cove, Inc., from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on January 18, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 15th day of January 1943.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-215]

A. B. MILES

A. B. Miles of Philadelphia, Pennsylvania, is a general contractor. Subsequent to September 7, 1942, he began construction, ordered, purchased and accepted materials to begin construction of the remodeling of the premises situated at 1301-03 Locust Street, Philadelphia, Pennsylvania, into a restaurant and taproom at an estimated cost in excess of $200.00, without specific authority from the Director General for Operations. At the time he began construction he knew, or should have known, of the restrictions contained in Conservation Order L-41, as amended September 7, 1942. These acts constituted a wilful violation of said order.

This violation of Conservation Order L-41 has hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered:*

§ 1010.215 *Suspension Order S-215.* (a) A. B. Miles, his successors and assigns, are hereby prohibited from ordering, purchasing, accepting delivery of, withdrawing from inventory, or in any other manner securing or using material or construction plant in order to begin erection, or continue construction, remodeling or rehabilitation of any building, structure or project or additions thereto or extensions or alterations thereof, including maintenance and repair, except as specifically authorized in writing by the Regional Compliance Chief of the Philadelphia Regional Office of the War Production Board.

(b) Deliveries of material to A. B. Miles, his successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the Director of Industry Operations or the Director General for Operations except as specifically authorized by the Director General for Operations.

(c) No allocation shall be made to A. B. Miles, his successors and assigns, of any material, the supply or distribution of which is covered by any order of the Director of Industry Operations or the Director General for Operations except as specifically authorized by the Director General for Operations.

(d) Nothing contained in this order shall be deemed to relieve A. B. Miles from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect January 18, 1943 and shall expire on April 18, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 15th day of January 1943.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-216]

ALVIN FIXTURE CO.

T. B. Corenblum, doing business as the Alvin Fixture Company, Birmingham, Alabama, is engaged in the business of manufacturing various types of wooden engineer chests for the United States Army. On or about October 1, 1942, the Alvin Fixture Company began the erection of a new plant consisting of a building 60 x 200 feet in area, a paint shop 30 x 60 feet in area and a boiler room and dry kiln which was to be used for the expanded manufacture of wooden engineer chests. The estimated cost of construction of this project was substantially in excess of the cost permitted by Conservation Order L-41 as amended September 2, 1942, and was begun without the authorization required by such order. T. B. Corenblum was aware of the existence of Conservation Order L-41 and of the restrictions of that order upon new construction. Consequently, the beginning of construction without authorization constituted a wilful violation of Conservation Order L-41 as amended September 2, 1942.

About October 1, 1942, the Alvin Fixture Company extended a preference rating of A-1-j to the delivery of certain steel sashes, for installation in the above structure, although that rating had been assigned to the Alvin Fixture Company for the procurement of material to be incorporated in engineer chests. The extension of this rating for the procurement of material not authorized by the terms of such preference rating constituted a wilful violation of Priorities Regulation No. 3 as amended.

These violations have hampered and impeded the war effort of the United States by diverting scarce material to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered:*

§ 1010.216 *Suspension Order S-216.* (a) Neither T. B. Corenblum, individually or doing business as the Alvin Fixture Company, nor any other person shall order, purchase, accept delivery of, withdraw from inventory, or in any other manner secure or use material or construction plant in order to begin, continue, or complete construction of a new structure 60 x 200 feet in area, together with other new structures to be used in connection therewith or with the present plant of the Alvin Fixture Company whether adjacent to the new structure or present plant or otherwise, except as specifically authorized by the Director General for Operations.

(b) For a period of nine months from the effective date of this order, no application filed by T. B. Corenblum, individually or doing business as, the Alvin Fixture Company, or any other person, for authorization to complete the construction described in paragraph (a) hereof, shall be granted.

(c) Nothing contained in this order shall be deemed to relieve T. B. Corenblum, individually or doing business as the Alvin Fixture Company, his or its successors and assigns from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on January 18, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 15th day of January 1943.

ERNEST KANZLER,
Director General for Operations.

[F. R. Doc. 43-772; Filed, January 15, 1943; 2:16 p. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order S-217]

MCPHERSON HOTEL CORP.

McPherson Hotel Corporation is a New Jersey corporation, operating the Hotel Hildebrecht in Trenton, New Jersey. During the month of August, 1942, the McPherson Hotel Corporation began construction and ordered, purchased and withdrew from inventory materials to begin construction on the remodeling of the coffee shop of the Hotel Hildebrecht without authorization from the Director General for Operations. The estimated cost of this construction, as defined in Conservation Order L-41, substantially exceeded $1,000.00.

This constituted a wilful violation of Conservation Order L-41 which has

hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing: *It is hereby ordered:*

§ 1010.217 *Suspension Order S–217.* (a) Neither the McPherson Hotel Corporation nor any other person shall order, purchase, accept delivery of, withdraw from inventory or in any other manner secure or use material or construction plant in order to continue or complete construction of the remodeling of the coffee shop at the Hotel Hildebrecht, Trenton, New Jersey, except as specifically authorized by the Director General for Operations.

(b) For a period of six months from the effective date of this order no application filed by the McPherson Hotel Corporation or any other person for authorization to complete the said construction of the remodeling of the coffee shop at the Hotel Hildebrecht, Trenton, New Jersey, shall be granted.

(c) Nothing contained in this order shall be deemed to relieve the McPherson Hotel Corporation from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on January 18, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 15th day of January 1943.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–204]

LOMBARD IRON WORKS

Lombard Iron Works, Augusta, Georgia, operates a cast iron foundry, machine shop, boiler shop, and plating shop. It is a Class 1 producer within the meaning of Priorities Regulation No. 11. This Company was formed about September 1, 1942, and began operations about October 1, 1942. Despite the fact that the Company was a Class 1 producer, it failed to file Form PD–25–a for the fourth quarter of 1942 within a reasonable time after becoming a Class 1 producer and failed to file Form PD–25–a for the first quarter of 1943 as required by Priorities Regulation No. 11. The responsible officers of the Company had full knowledge during this entire period that they were required to operate under the Production Requirements Plan, but nonetheless failed to make any reasonable efforts to prepare and file the required applications. The Company also obtained material by extension of customers ratings after having failed to file an application on Form PD–25–a. This failure to file Form PD-25-a for either the fourth quarter of 1942 or the first quarter of 1943 and the extension of customers ratings to obtain material after having failed to file Form PD–25–a constituted a violation of Priorities Regulation No. 11.

The negligent failure to comply with the provisions of Priorities Regulation No. 11 has shown a lack of responsibility on the part of the managers of the Lombard Iron Works and thus necessitates the imposition of closer controls over that Company's operations in order to insure the production of important war material and to insure that the Company complies with the regulations set up for the distribution of critical materials. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.204 *Suspension Order S–204.* (a) Deliveries of material to the Lombard Iron Works, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Regional Compliance Chief, War Production Board, Atlanta, Georgia.

(b) Lombard Iron Works, its successors and assigns, shall not receive, put in process, process, manufacture, use or deliver any of the metals specified on the Metals List attached to Priorities Regulation No. 11 in any form except as specifically authorized by the Regional Compliance Chief, War Production Board, Atlanta, Georgia.

(c) Nothing contained herein shall be deemed to relieve Lombard Iron Works, its successors and assigns, from any restriction, prohibition or provisions contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations except in so far as the same may be inconsistent with the provisions hereof.

(d) This order is to take effect on January 23, 1943, and will expire on April 23, 1943, at which time it will have no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 16th day of January 1943.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–218]

BUTANE GAS & PLUMBING CO., INC.

Butane Gas & Plumbing Company, Inc. of Cotton Port, Louisiana, is engaged in the business of selling and installing butane gas heating equipment. On May 27, 1942, this company, after having been charged with installation of new butane gas heating equipment in violation of General Limitation Order L–86 was specifically advised that such installations could not be made by it under the order and was warned against making any further installations. Thereafter, between that date and July 25, 1942, the company sold and installed new butane gas heating equipment in fifteen instances under circumstances similar to the installation in May, 1942. The company knew that these installations, without prior approval of the War Production Board, were in violation of General Limitation Order L–86, and its violations were wilful.

These violations of said order have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered,* That:

§ 1010.218 *Suspension order S–218.* (a) For a period of three months from the effective date of this order, Butane Gas & Plumbing Company, Inc., its successors and assigns, shall not install or deliver for installation purposes any liquefied petroleum gas equipment as the same is defined in General Limitation Order L–86, whether new or used, except as specifically authorized by the Director General for Operations.

(b) Deliveries of material to Butane Gas & Plumbing Company, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) No allocation shall be made to Butane Gas & Plumbing Company, Inc., its successors and assigns, of any material the supply or distribution of which is governed by any Order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(d) Nothing contained in this order shall be deemed to relieve Butane Gas & Plumbing Company, Inc. from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect January 19, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 16th day of January 1943.

PART 933—COPPER

[Amendment 1 to Conservation Order M–9–c, as Amended Dec. 26, 1942]

Section 933.4 *Conservation Order M–9–c* is hereby amended in the following respects:

By amending the item on List A–2 which reads as follows:

Blow torches, gasoline and alcohol, (except when the only copper products or copper base alloy products used are for the pump valve, pump check valve assembly, pump cylinder cap, brazing material, pack nut, valve stem, valve body and jet block), Jan. 20, 1943.

to be and read as follows:

Blow torches, gasoline and alcohol, (except when the only copper products or copper base alloy products used are for the pump barrel, pump check valve assembly, pump cylinder cap, brazing material, pack nut, valve stem, valve body and jet block), Jan. 20, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 18th day of January 1943.

ERNEST KANZLER,
Director General for Operations.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 9, as Amended Jan. 18, 1943]

PRIORITIES ASSISTANCE UNDER FORM PD–311 REVISED OR OTHER PRESCRIBED FORM

Section 944.30 *Priorities Regulation 9* is hereby amended to read as follows:

§ 944.30 *Priorities Regulation 9—*(a) *Forms for export; scope of regulation.* Priorities assistance for export may hereafter be made available pursuant to application on Form PD–311 Revised or other prescribed form filed by or in the name of the person desiring the export of the material involved. Such person is hereinafter referred to as the applicant, which term shall also include any agency authorized to place purchase orders for such person. This regulation shall be applicable to priorities assistance granted pursuant to application on such form or any other form prescribed exclusively for exports which by its terms is expressly subject to this regulation.

(b) *Application and extension of preference ratings.* (1) One copy of Form PD–311 Revised or other prescribed form will be returned to the applicant accompanied or followed by a statement indicating the ratings assigned to deliveries of those quantities of material specified on such form, or indicating the granting of other priorities assistance. Such preference ratings shall be applied and extended only in the manner provided in (2) and (3) below.

(2) The applicant, in order to apply a preference rating assigned pursuant to the provisions of this regulation, must have received an export license, a statement of export clearance, or a statement of authority to export (or a copy thereof if authorized by the issuing agency) and must endorse on, or attach to, each contract or purchase order placed by him to which such a rating is to be applied, a certification in the following form (or, if appropriate, at the applicant's option, in the form prescribed in General Export Order M–148, as amended from time to time) signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned purchaser hereby represents to the seller and to the War Production Board that he has received an export license, a statement of export clearance, or a statement of authority to export, that he is entitled to apply the preference ratings indicated opposite the items shown in this purchase order, and that such application is in accordance with Priorities Regulation No. 9, as amended, with the terms of which the undersigned is familiar.

(Name of purchaser) (Address)

By (Signature and title of duly authorized officer) (Date)

The person receiving the certification and rating shall be entitled to rely on such representation, unless he knows or has reason to believe it to be false. Each person applying ratings must maintain at his regular place of business all documents, including purchase orders and preference rating orders and certificates, upon which he relies as entitling him to apply such ratings, segregated and available for inspection by representatives of the War Production Board, or filed in such manner that they can be readily segregated and made available for such inspection.

(3) A supplier with whom a purchase order or contract has been placed for a delivery to the applicant, to which purchase order or contract the rating has been applied as provided in (2) above, may extend such ratings to his suppliers and they may in turn extend such rating to their suppliers only in conformity with the applicable provisions of Priorities Regulations Nos. 3 and 11, as such regulations may be amended from time to time.

(c) *Effect of revocation.* If the export license, statement of export clearance or statement of authority to export any material is revoked, any preference rating subject to this regulation which has been assigned to the delivery of material shall be automatically cancelled, as regards delivery to the applicant; and no delivery of such material shall be made to or received by the applicant. As regards each supplier of the applicant or of another supplier, who has extended such rating, it shall likewise be automatically cancelled, and each such supplier shall promptly notify his suppliers of such cancellation; *Provided, however,* That if, in the opinion of any supplier, cancellation of the rating would seriously interfere with any program of war work, he may make application in writing to the Director General for Operations, Washington, D. C., Att: Petroleum Administration for War, requesting continuation of the rating. The Director General for Operations may thereupon grant such relief as he may deem appropriate.

(d) *Limitation on other forms of priorities assistance.* No person who is entitled to obtain a preference rating or any other form of priorities assistance pursuant to application on Form PD–311 (or any other form prescribed pursuant to this regulation) for an operation shall apply any preference rating otherwise obtained, or use any form of priorities assistance otherwise granted, with respect to a delivery of material for such operation; except that this provision shall not prevent application of any rating lawfully assigned prior to January 18, 1943 or the rerating of any delivery pursuant to Priorities Regulation No. 12.

(e) *Revocation of Preference Rating Order P–98–d.* Section 1041.5 *Preference Rating Order P–98–d* is revoked as of January 18, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 18th day of January 1943.

PART 1042—IMPORTS OF STRATEGIC MATERIALS

[General Imports Order M-63 as Amended Jan. 18, 1943]

§ 1042.1 *General Imports Order M-63*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(6) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M-63.

(b) *Restrictions on imports of materials*—(1) *General restriction.* No person, except as authorized in writing by the Director General for Operations, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order, regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon List I, List II, and List III attached hereto.

(2) *Authorization by Director General for Operations.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form PD-222C, addressed to the War Production Board, Ref.: M-63, Washington, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation of any material subject to this order after the governing date unless such bank or person has received either a copy of the authorization issued by the Director General for Operations, or, if the transaction comes within the exceptions set forth in paragraph (b) (4), an affidavit stating the facts which show the exception.

(4) *Exceptions.* Unless otherwise directed by the Director General for Operations, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency, or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) To materials imported by mail where the value of the shipment is less than $100.00; or

(v) To materials consigned as gifts or as samples, or for use as samples, or imported for personal use, where the value of each consignment or shipment is less than $200.00; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States.

(vii) To any material on List I or List II imported by any person under any contract or other arrangement made before, or in existence on, the governing date and which, on December 28, 1942, was in transit to a point within the continental United States.

(c) *Restrictions on disposition of List I material.* Except as hereinafter specifically provided in paragraph (d) hereof:

(1) *Restrictions upon owners and consignees.* No owner or consignee of any material on List I which is imported after the governing date shall in any way, directly or indirectly:

(i) Dispose of any interest in such material;

(ii) Process or in any way change the physical condition of such material;

(iii) Transfer possession, or cause or permit a transfer of possession, of such material except to the port of entry and from the port of entry to the place of initial storage of such material; or

(iv) Change, or cause or permit a change of, the location of such material except to the port of entry and from the port of entry to the place of initial storage of such material.

Provided: That a consignee of such material may dispose of his interest in such material to the extent necessary to complete any commitment or contract made prior to the governing date. The person to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this order.

(2) *Restrictions upon banks and persons similarly situated.* No bank or other person which, as agent, pledgee, beneficiary under a trust receipt, or otherwise, has possession of or any interest in any written instrument evidencing any interest in any material on List I shall in any way, directly or indirectly, dispose of any such interest, or transfer possession, or cause or permit a transfer of possession, of such instrument, unless:

(i) Such material was imported before the governing date; or

(ii) Such person neither knows nor has reason to know that such material was imported after the governing date, or

(iii) Such disposition or transfer is necessary to permit a consignee to make a permissible disposition of material in accordance with subparagraph (1) of this paragraph (c); or

(iv) Such disposition or transfer is made to the owner of the material and such owner has complied with all the provisions of this order.

(d) *Permissible disposition of List I materials*—(1) *Transfer to Governmental agency.* Nothing contained in this order shall prohibit an owner or consignee of any material on List I imported after the governing date, or a bank or other person having possession of, or an interest in, a written instrument evidencing an interest in such material, from disposing of, or making any arrangement to dispose of, any interest in such material to the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation.

(2) *Authorization by Director General for Operations.* Notwithstanding the provisions of paragraph (c), an owner or consignee of material on List I imported after the governing date or a bank or other person having possession of or an interest in a written instrument evidencing an interest in such material, may process such material or may dispose of any interest in such material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the Director General for Operations. Any such person may make application in duplicate for such an authorization on Form PD-222A, which form shall be addressed to the War Production Board. Ref.: M-63, Washington, D. C.

(3) *Exceptions.* The restrictions set forth in paragraph (c) shall not apply to any material after any United States governmental department, agency, or corporation becomes the owner thereof, and shall not apply to any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, and shall not apply to any material purchased or otherwise acquired from any United States governmental department, agency, or corporation.

(e) *Restrictions on disposition of List II or List III material.* Any material on List II or List III, which is imported after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the War Production Board and to all orders and directions of the Director General for Operations which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form PD-222B in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M-63, Washington, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington, D. C., Ref.: M-63.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority assistance.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(j) *Effective date.* This order shall take effect at 12:01 a. m. on the 28th day of December, 1942, and shall continue in effect until revoked.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 18th day of January 1943.

ERNEST KANZLER,
Director General for Operations.

INTERPRETATION 1

No authorization under paragraph (b) of the order is necessary for the release or withdrawal of materials on List II or List III from a free port, a free zone, or the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States regardless of the date when such materials first entered such place. The actual importation, which is the subject of restriction under paragraph (b), is deemed to have occurred before the question of release or withdrawal arises. Also, no authorization under paragraph (d) of the order is necessary for the subsequent disposition, processing, or shipment of such released or withdrawn List II and List III materials.

As to List I materials which are similarly situated, no authorization under paragraph (b) of the order is necessary for their release or withdrawal from free port, free zone, or bonded custody, but authorization under paragraph (d) of the order is necessary for their subsequent disposition, processing, or shipment unless they are shipped in bond to Canada, Mexico, or some other foreign country, in which event the foreign destination is deemed to be the place of initial storage as such term is used in the order.

PART 1114—TIRE RETREADING, RECAPPING AND REPAIR EQUIPMENT

[General Limitation Order L-61, as Amended Jan. 18, 1943]

Whereas the shortage of crude rubber for military requirements and essential civilian uses has created an abnormal demand for retreading and recapping equipment for rubber tires; and

Whereas the supply of existing retreading and recapping equipment, if supplemented by careful selection of locations for small quantities of additional equipment, is adequate to satisfy the demand for retrpading and recapping of rubber tires; and

Whereas the production for delivery of retreading and recapping equipment, if unregulated, will duplicate existing facilities and thus utilize quanutities of scarce and critical materials as to which defense requirements have created a shortage for defense, private account and export, and it is necessary, in the public interest and to promote defense of the United States, to take the measures hereinafter set forth, and to regulate the production and delivery of retreading and recapping equipment.

Now, therefore, it is hereby ordered, That:

§ 1114.1 *General Limitation Order L-61*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or any organized group of persons, whether incorporated or not.

(2) "Retreading, recapping and repair equipment" means any mechanical device used in connection with applying uncured rubber (in the form of camelback, patching rubber or otherwise) to rubber casings or inner tubes for the purpose of renewing or repairing a rubber casing or inner tube. The term includes, but is not limited to, full circle molds, full circle matrices, holders, tables, steam chambers, kettle curing devices, curing rings, curing bands, pressure plates, spacer rings, curing rims, sectional molds, sectional matrices, tire and tube repair and spot equipment, tire spreaders, tire buffers, mechanical stitchers, mechanical rollers, and regroovers. It does not include, however, small tools, such as knives, hand rollers, hand stitchers, jacks, shears, and other miscellaneous shop tools and supplies.

(b) *Restrictions on manufacture and distribution.* No person shall produce any new retreading, recapping and repair equipment, or parts therefor, and no person shall sell, lease, rent, deliver or otherwise transfer, or purchase, accept or otherwise acquire, any new or used retreading, recapping or repair equipment, or parts therefor; except (i) under purchase orders rated A-9 or higher on a preference rating certificate PD-1A, PD-1X or PD-200, or forms of the PD-408 series, issued by the Director General for Operations, or (ii) pursuant to written or telegraphic authorization of the Director General for Operations: *Provided,* That any manufacturer of retreading, recapping and repair equipment or of component parts thereof may fabricate component parts of retreading, recapping and repair equipment in advance of the receipt of purchase orders which are either rated A-9 or higher or are covered by special written or telegraphic authorization (as contemplated by clauses (i) and (ii) of this paragraph (b)), but only in such quantities that such manufacturer shall not have in his inventories at any time an amount of such component parts in excess of one-sixth of his total production of such component parts during the calendar year 1941. No such component parts shall be assembled in the manufacture of new retreading, recapping and repair equipment except upon compliance with either clause (i) or clause (ii) of this paragraph (b).

(c) *Criteria for issuing preference rating certificates.* In issuing ratings on preference rating certificates, the Director General for Operations will consider the following factors, to the extent feasible, among others:

(1) The number and capacity of retreading, recapping and repair equipment facilities at present available in the particular locality.

(2) The anticipated need for retreading, recapping and repair equipment in the particular locality.

(3) The amount of uncured rubber (in the form of camelback, patching rubber or otherwise) expected to be made available in the particular locality.

(d) *Exceptions with respect to small equipment and repair or maintenance of existing equipment.* The prohibitions of paragraph (b) hereof shall not apply to the manufacture, sale, lease, loan, renting, delivery, transfer, purchase, acceptance or acquisition of:

(i) Any item of tube repair or spot equipment having a retail value of $100 or less, or any tire spreader having a retail value of $25 or less; provided that no person shall, for the purpose of qualifying under this exception, divide a single order, or place separate orders when in the usual course of business he would have placed a single order.

(ii) Parts to be used to repair or maintain existing retreading, recapping or repair equipment or to repair or maintain equipment delivered in accordance with the provisions of this General Limitation Order No. L-61.

(e) *Production requirements plan.* Pursuant to paragraph (c) of Priorities Regulation No. 11, any person manufacturing retreading, recapping, or repair equipment, who desires priorities assistance in procuring materials to be used in such manufacture, is hereby required, unless exempted by the Director General for Operations, to file a PRP application, to qualify as a PRP unit, and to operate under the Production Requirements Plan after January 1, 1943.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time, except that notwithstanding the provisions of Priorities Regulation No. 3, any person applying or extending a preference rating for retreading, recapping, or repair equipment shall certify on his purchase order or contract whether the preference rating is one assigned by a preference rating certificate PD-1A or PD-1X, or by a form of the PD-408 series, issued by the Director General for Operations.

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref: L-61.

(h) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the Director General for Operations Washington, D. C., Ref: L-61, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Records.* Each manufacturer or distributor of new retreading, recapping and repair equipment affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production and sales of such equipment.

(k) *Reports.* Each person affected by this order shall execute and file with the War Production Board, such reports and answers to questionnaires as the Board shall from time to time request.

PART 1222—EXPORTS UNDER LICENSES ISSUED BY THE BOARD OF ECONOMIC WARFARE

[General Exports Order M-148, as Amended Jan. 18, 1943]

§ 1222.1 *General Exports Order M-148*—(a) *Requirement of delivery for export.* Any person receiving, from the holder of an export license issued by the Board of Economic Warfare, a purchase order for material covered by such license, to which a preference rating has been assigned by the Board of Economic Warfare, shall accept such order and make delivery thereunder in accordance with such rating, unless such order would be in excess of any export quota relating to such material previously established for such person by the Director General for Operations. Such delivery shall be made regardless of any order of the Director General for Operations restricting inventories of material or uses thereof in manufacture or otherwise, or requiring certificates with respect to such inventories or uses, insofar as such inventories are maintained or such uses occur in the country to which such material is to be exported, but shall be subject to such restrictions with respect to inventories maintained or uses occurring within the United States prior to export. Such preference ratings shall be assigned by the Board of Economic Warfare only pursuant to specific authority granted, from time to time, by the Director General for Operations with respect to specified quantities of material.

(b) *Reports.* Any person accepting a purchase order to which a preference rating has been assigned by the Board of Economic Warfare shall promptly send to the War Production Board, Washington, D. C., Ref: M-148, a copy of the purchase order, bearing thereon the export license number and the United States Department of Commerce Export Classification Code Schedule B and F Number. Such further and other reports shall also be made by any person operating under this order as may be required from time to time by the Director General for Operations.

(c) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(d) *Application or extension of rating.* Notwithstanding the provisions of Priorities Regulation No. 3, a rating assigned by the Board of Economic Warfare may be applied, by the holder of the export license for the material ordered, only by endorsing on, or attaching to, the contract or purchase order to which the rating is to be applied, a certification in substantially the following form (or, if appropriate, and at the holder's option, in the form prescribed in Priorities Regulation No. 9, as amended from time to time) signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned hereby represents to the seller and the War Production Board that he is entitled to apply the preference ratings indicated opposite the items shown on this purchase order, pursuant to an assignment thereof by the Board of Economic Warfare upon Export License Number ____, and that this purchase order is subject to the provisions of General Exports Order No. M-148. This material is to be charged to the period: -------- to --------.

(Signature and title of duly authorized officer)

Any extension of any such rating shall be pursuant to the provisions of Priorities Regulation No. 3.

(e) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to the provisions of all priorities regulations, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

This order shall take effect October 1, 1942, and shall continue in effect until revoked by the Director General for Operations.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 18th day of January 1943.

(5) (i) *Prohibition against special preparation charges.* Except upon prior approval by the Office of Price Administration, no charge may be made for special preparation.

* * * * *

(e) *Unprepared scrap.* * * *

(2) For unprepared scrap, maximum prices shall be $3.50 (and in the case of the material from which No. 1, No. 2, and No. 3 bundles are made, $4.00) less than the maximum prices for the corresponding grade or grades of prepared scrap. In no case, however, shall electric furnace, acid open-hearth and foundry grades, listed in paragraph (a) of this section be used as the "corresponding grade or grades of prepared scrap".

* * * * *

(4) Where a consumer purchases unprepared remote scrap in rail carload lots, if no adequate facilities for preparation exist at or near the shipping point, the consumer may designate a dealer or dealers to prepare such scrap on a preparation fee basis. The maximum preparation fee shall be $4.00 per gross ton for No. 1, No. 2, and No. 3 bundles, and $3.50 per gross ton for all other grades. The maximum delivered price shall be the maximum shipping point price for the unprepared scrap at the remote shipping point, plus the rail transportation charges incurred in moving the scrap to the dealer's yard, plus the applicable maximum preparation fee, plus transportation charges from the dealer's yard to the point of delivery. The transportation charges from the dealer's yard to the point of delivery shall be computed in the same manner as the charges allowable under § 1304.13 (d) on an identical tonnage of scrap shipped by the dealer from his yard to the same point of delivery. The maximum delivered price of such scrap shall not exceed by more than $5.00 the price at the basing point nearest the consumer's plant except upon prior approval of the Office of Price Administration as provided in Exception 3 in paragraph (d) of this section. Every purchase of scrap on this preparation fee basis shall likewise be subject to all the filing and other requirements in Exception 3 of paragraph (d) of this section. At no time shall ownership of such scrap reside in the dealer to whom the preparation fee is paid.

(5) If unprepared scrap in rail carload lots is allocated by the War Production Board to a consumer lacking facilities for preparing such scrap, such consumer may designate a dealer or dealers to prepare such scrap in-transit on a preparation fee basis. The maximum preparation fee shall be the differential established in paragraphs (a) and (e) of this section between the unprepared scrap and the listed grade into which the scrap is prepared—e. g. $3.50 per gross ton for No. 1 heavy melting steel, $5.50 per gross ton for foundry steel, 1 foot and under, and $4.00 per gross ton for No. 1, No. 2 and No. 3 bundles. If the unprepared scrap is scrap rails in random lengths, the maximum preparation fee shall be as follows: $2.00 per gross ton for rails cut 3 feet and under; $2.25 per gross ton for rails cut 2 feet and under; and $2.50 per gross ton for rails cut 18 inches and under. The maximum delivered price shall be the maximum shipping point price for the unprepared scrap at the original shipping point, plus the rail transportation charges incurred in moving the scrap to the dealer's yard, plus the applicable maximum preparation fee, plus transportation charges from the dealer's yard to the point of delivery. The transportation charges from the dealer's yard to the point of delivery shall be computed in the same manner as the charges allowable under § 1304.13 (d) on an identical tonnage of scrap shipped by the dealer from his yard to the same point of delivery pursuant to an allocation order. At no time shall the ownership of such scrap reside in the dealer to whom the preparation fee is paid.

(6) If the War Production Board allocates machine shop turnings, Item 8, in rail carload lots to a consumer, such consumer may designate a dealer or dealers to prepare such scrap in-transit, into baled machine shop turnings, Item 28a. The maximum preparation fee for such service shall be $5.00 per gross ton. The maximum delivered price shall be the maximum shipping point price for machine shop turnings, Item 8, at the original shipping point, plus the rail

transportation charges incurred in moving the scrap to the dealer's yard, plus the $5.00 per gross ton preparation fee, plus transportation charges from the dealer's yard to the point of delivery. The transportation charges from the dealer's yard to the point of delivery shall be computed in the same manner as the charges allowable under § 1304.13 (d) on an identical tonnage of scrap shipped by the dealer from his yard to the same point of delivery pursuant to an allocation order. At no time shall the ownership of such scrap reside in the dealer to whom the preparation fee is paid.

(f) *Definitions of grades referred to in paragraph (a).* • • •

(1) *No. 1 heavy melting steel.* Clean wrought iron or steel scrap ¼ inch and over in thickness, not over 18 inches in width and not over 5 feet in length. Individual pieces must be free from attachments and so cut as to lie flat in the charging box. May include heavy forgings, forge butts, billet, bloom, slab or bar crops not conforming to chemical analysis required for electric furnace or acid open hearth use. May include new mashed pipe ends, original diameter 4 inches and over. May not include auto body and fender stock.

• • • • • •

(3) *No. 1 busheling.* Clean wrought iron or steel scrap ⅛ inch and over in thickness, not exceeding 12 inches in any dimension. May not contain burnt material, or auto body and fender stock. Must be free of metal coated, limed, or porcelain enameled stock.

(4) *No. 1 bundles.* New black steel sheet scrap, clippings, or skeleton scrap, hydraulically compressed or hand bundled to charging box size and weighing not less than 75 pounds per cubic foot. (Hand bundles must also be tightly secured and stand handling with a magnet.) Must be free of paint or protective coating of any kind. May include Stanley balls, or mandrel wound bundles or skeleton reels, tightly secured. May not include detinned scrap, electrical sheets, or any material over 0.5% of silicon.

• • • • • •

(8) *Machine shop turnings.* Clean steel or wrought iron turnings, (including high sulphur shell turnings), free of cast or malleable iron borings, non-ferrous metals in a free state, scale, or excessive oil. May not contain badly rusted or corroded stock.

(9) *Mixed borings and turnings.* Clean, short, steel or wrought iron turnings (including high sulphur shell turnings), drillings, screw cuttings, and cast or malleable iron borings and drillings, free of nonferrous metals in a free state, scale, or excessive oil. May not contain badly rusted or corroded stock.

(10) *Shovelling turnings.* Clean, short, steel or wrought iron turnings (including high sulphur shell turnings), drillings, or screw cuttings. May include any such material whether resulting from crushing, raking, or other processes. Must be free of stringy, bushy, tangled or matted material, lumps, nonferrous metals in a free state, excessive oil, or scale.

(11) *No. 2 busheling.* Cut hoops, netting, cut unbaled fence wire, light sheets, rusted car sides, cotton ties, and galvanized light material. No dimension over 12 inches. May be black or galvanized. May include oil field or similar cable cut to lengths of 2 feet or less. No hard steel, porcelain enameled, or metal coated material may be included.

• • • • • •

(13) *Billet, bloom and forge crops.* Billet, bloom, axle, slab, heavy plate and heavy forge crops, not over 0.05% phosphorus or sulphur, not over 0.5% silicon and free from alloys. Must be not less than 2 inches in thickness, not over 18 inches in width, and not over 36 inches in length. Must be new material.

• • • • • •

(16) *Punchings and plate scrap.* Punchings, plate scrap, and bar crops, not over 0.05% of phosphorus or sulphur, not over 0.5% of silicon and free of alloys. All material must be cut 12 inches and under. Punchings may not be less than ¼ inch in diameter.

• • • • • •

(18) *Cut structural and plate scrap, 3 feet and under.* Clean, open-hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch thick, cut to 3 feet and under in length and 18 inches and under in width. Not over 0.05% of phosphorus or sulphur.

(19) *Cut structural and plate scrap, 2 feet and under.* Clean, open-hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch thick, cut to 2 feet and under in length and 18 inches and under in width. Not over 0.05% of phosphorus or sulphur.

(20) *Cut structural and plate scrap, 1 foot and under.* Clean, open-hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch thick, cut to 1 foot and under in length and width. Not over 0.05% of phosphorus or sulphur.

• • • • • •

(22) *Foundry steel, 2 feet and under.* Steel scrap ⅛ inch and over in thickness, not over 2 feet in length or 18 inches in width. Individual pieces must be free from attachments. May not include nonferrous metals, metal coated material, cast or malleable iron, wrought iron, pipe, body and fender stock, cable, enameled or galvanized material.

(23) *Foundry steel, 1 foot and under.* Steel scrap ⅛ inch and over in thickness, not over 1 foot in length or width. Individual pieces must be free from attachments. May not include nonferrous metals, metal coated material, cast or malleable iron, wrought iron, pipe, body and fender stock, cable, enameled or galvanized material.

• • • • • •

(28a) *Baled machine shop turnings.* Machine shop turnings, Item 8, hydraulically compressed into bundles weighing not less than 75 pounds per cubic foot. May include not over 25% (by weight) black sheet scrap used for binding or wrapping purposes.

§ 1304.14 *Appendix B: Maximum prices for iron and steel scrap originating from railroads.* • • •

(e) *Unprepared scrap.* • • •

(4) Where a consumer purchases grades of unprepared scrap for which maximum prices have been authorized under paragraph (a) (1) (ii) or paragraph (b) (2) of this section, the consumer may designate a dealer or dealers to prepare such scrap on a preparation fee basis. The maximum preparation fee shall be the applicable differential established in paragraphs (a) and (e) of § 1304.13 or paragraphs (a) and (e) of § 1304.14, whichever is applicable, between the unprepared scrap and the listed grade into which the scrap is prepared—e. g. $3.50 per gross ton for No. 1 heavy melting steel, $6.00 per gross ton for cut structural and plate scrap 1 foot and under, and $2.50 per gross ton for scrap rails 18 inches and under. In such cases the maximum delivered price shall be the maximum delivered price applicable to an identical shipment of the unprepared scrap direct to such consumer, plus the applicable maximum preparation fee. At no time shall ownership of such scrap reside in the dealer to whom the preparation fee is paid.

• • • • • •

§ 1304.15 *Appendix C: Maximum prices for cast iron scrap other than railroad scrap*—(a) *Maximum prices at shipping point*—(1) *Listed grades.* • • •

	Group A	Group B	Group C
•	•	•	•
4 Unstripped motor blocks...	$15.50	$16.50	$17.50
•	•	•	•

(2) *Special preparation charges.* (i) Except upon prior approval by the Office of Price Administration, no charge may be made for special preparation.

(ii) Whenever scrap has arrived at the point of delivery, and the consumer engages a dealer to prepare such scrap, no charge may be made for such service unless prior approval is secured from the Office of Price Administration.

• • • • • •

(5) *Purchases by basic open hearth.* Except in the case of Item 4 (unstripped motor blocks) and Item 7 (charging box cast) no basic open hearth (and, in the case of Item 8, miscellaneous malleable no consumer other than a malleable foundry) may pay for any grade a price in excess of the price listed in this paragraph for Item 6 (heavy breakable cast). The restrictions in this subparagraph shall not apply to scrap shipped pursuant to an allocation order issued by the War Production Board.

• • • • • •

(c) *Definitions of grades referred to in paragraph (a).*

Item 1. No. 1 cupola cast. Clean cast iron scrap, including machinery cast iron scrap, cast iron parts of agricultural machinery and iron castings of a miscellaneous nature. Must be cupola size, not over 24 inches by 30 inches, and no piece to weigh over 150 pounds. Must be free of stove plate, burnt iron and foreign material.

• • • • • •

Item 3. Clean auto cast. Clean auto blocks, free of all steel parts except camshafts, valves, valve springs and studs.

Item 4. Unstripped motor blocks. Automobile motors from which steel and nonferrous fittings have not been removed. Must be free of transmissions, parts of frames, drive shafts, and differentials.

• • • • • •

Item 7. Charging box size cast. Clean cast iron scrap, such as columns, pipes, plates and castings of miscellaneous nature, but free from stove plate. Must be 18 inches by 5 feet and smaller, except that unbroken cast iron car wheels may be included.

PART 1499—COMMODITIES AND SERVICES

[Amendment 87 to Supp. Reg. 14[1] to GMPR[2]]

MIXED FEEDS FOR ANIMALS AND POULTRY

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.* A new subparagraph (55) is hereby added to paragraph (a) of § 1499.73 of the General Maximum Price Regulation as set forth below.

§ 1499.73 *Modification of the maximum prices established by § 1499.2 of the General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services and transactions listed below are modified as hereinafter provided:

• • • • • •

(55) *Mixed feed for animals and poultry*—(i) *Definitions.* As used in this subparagraph the following terms shall have the following meanings:

(a) "Mixed feed" is a mixture or blend of more than one feed ingredient for the purpose of feeding animals and poultry except the following commodities:

(1) Those commodities listed in § 1499.9 (a) (7) of the General Maximum Price Regulation as exempt from said regulation.

(2) The following commodities:

(A) A mixture resulting from the blending or mixing of offals or byproducts from a single vegetable, plant or other agricultural product.

(B) Screenings as defined in the official publication of the Association of the American Feed Control Officials, Inc. for 1942.

which commodities shall be and remain subject to § 1499.2 and other applicable provisions of the General Maximum Price Regulation;

(3) Cat and dog foods on which a maximum price has been determined under § 1499.263 of this General Maximum Price Regulation, which cat and dog foods shall be and remain subject to said provision; and

(4) All other cat and dog food shall be and remain subject to the General Maximum Price Regulation.

(b) "Pelleted mixed feed" is a mixed feed further processed into pellets.

(c) "Mineral mixed feed" is a mixed feed ninety percent of which consists of a mixture of two or more chemicals or minerals suitable for feeding animals or poultry, with or without mixture with other ingredients.

(d) "Manufacturer" is one who produces and sells a mixed feed by grinding, mixing or blending whether by stationary or portable equipment.

(e) A "class A manufacturer" is a manufacturer who computes his maximum prices under subdivision (ii) hereof.

(f) A "class B manufacturer" is any manufacturer who computes his maximum prices under subdivision (iii) hereof.

(g) A "mineral mixed feed manufacturer" is a manufacturer who produces and sells mineral mixed feeds.

(h) A "custom mixer" is one who furnishes to a consumer for a recompense the service of producing mixed feeds. Either the custom mixer or the consumer or both may furnish the ingredients for the mixed feeds.

(i) A "private brand dealer" is one who resells mixed feed ordered and bought by him from a manufacturer who produced and packed the same in containers bearing the dealer's private brand.

(j) A "class A private brand dealer" is a private brand dealer who computes his maximum prices under subdivision (vi) hereof.

(k) A "class B private brand dealer" is a private brand dealer who computes his maximum prices under subdivision (vii) hereof.

(l) A "wholesaler" is one who buys mixed feed and unloads his purchase into a warehouse and resells the same to retailers.

(m) A "retailer" is one who buys mixed feed and resells the same to consumers.

(n) A "consumer" is one who buys mixed feeds for the purpose of actually feeding it to animals or poultry.

(o) A "billing charge" is the charge or entry as a part of the bookkeeping system of debits and credits made between different departments, branches or units of one concern or between different units of an affiliated group of concerns or organizations for services rendered or commodities produced by one and furnished or delivered by another.

(p) Whenever reference is made in this subparagraph (55) to "transportation or freight charges", the tax imposed by section 620 of the Revenue Act of 1942 (Pub. Law 753, 77th Cong., approved October 21, 1942) shall be deemed to be a part of and shall be included in said charges with like effect as if it were a like increase in the rate or the amount charged by the carrier for the transportation in question. The provisions of Supplementary Order No. 31 issued by the Office of Price Administration on November 26, 1942, shall have no application to sales of mixed feed as governed by this subparagraph (55) of this § 1499.73 (a).

(q) Whenever reference is made in this subparagraph (55) to "carload lots or quantities" the same shall be deemed to include sales or shipments in pool cars or assorted cars.

(ii) *Maximum prices of class A manufacturers.* Every class A manufacturer of mixed feeds shall determine his maximum price per ton in carload quantities sacked for each mixed feed other than pelleted or mineral mixed feeds produced by him as follows:

(a) He shall first compute his costs for a ton of the commodity to be priced as follows:

(1) He shall include the cost of all mill feeds, fish meal or fish scrap, animal feedingstuffs, and soybean, cottonseed and peanut oil meals and cakes used at the maximum price thereof to him per ton in carload quantities at the time of the calculation as prescribed by the Office of Price Administration. Said maximum price shall be the maximum price at his producing plant except that where in his purchase a rate point is selected as the destination to secure favorable transit rates and balances said maximum price shall be the maximum price at said rate point.

(2) He shall include the cost of every other ingredient used which is subject to maximum prices prescribed by the Office of Price Administration at the actual cost thereof to him at the time of the calculation not exceeding the maximum price (and applicable transportation charges where said maximum price is fixed on an f. o. b. basis) thereon to him at said time for the quantities normally purchased by him as prescribed by the Office of Price Administration: *Provided*, That said actual cost (and said maximum price) shall be the actual cost (and the maximum price) at his producing plant except that where in his purchase a rate point is selected as the destination to secure favorable transit rates and balances said actual cost (and said maximum price) shall be the actual cost (and the maximum price) at said rate point.

(3) He shall include the cost of every other ingredient used which is not subject to maximum prices prescribed by the Office of Price Administration at the reasonable market value thereof to him at the time of the calculation for the quantities normally purchased by him: *Provided*, That said reasonable market value shall be such value at his producing plant except that where in his purchase a rate point is selected as the destination to secure favorable transit rates and balances the reasonable market value shall be such value at said rate point.

(4) He shall include the cost of twenty 100 pound bags for the sacking of one ton of the commodity to be priced at the maximum price thereof to him at the time of the calculation as prescribed by the Office of Price Administration: *Provided* (A) He shall give due credit for the bags received in his purchase of the ingredients; (B) he shall give due credit for the bags returned by his buyer from former purchases from him; and (C) he shall not include any cost for bags if the buyer furnishes bags other than by a return of bags as last above mentioned in inferior subdivision (B) hereof.

(b) For sales to each private brand dealer, whether class A or class B, to whom he sold in 1942, he shall next ascertain the average of the margins per ton on the same or the most nearly similar commodity to the commodity being priced as sold during the months of January, March, May, October, November and December, 1942 for shipment in carload quantities to the private brand dealer in question for further resale. He shall ascertain these average margins by deducting from the selling price of each ton of such commodity sold to said private brand dealer during each such month, the replacement cost at the time of the sale of every ingredient used therein and of twenty 100 pound bags if furnished by him. Said replacement cost shall be the replacement cost at his producing plant except that where in his initial purchase a rate point was selected as the destination to secure favorable transit rates and balances said replacement cost shall be the replacement cost at said rate point.

He shall next average the margin so ascertained for each of said months to obtain an average margin for all of the said months.

He shall then add the total of the costs specified in inferior subdivision (a) to the markup determined under this subparagraph and the resultant figure shall be his maximum price to the private brand dealer in question per ton in carload quantities, sacked, f. o. b. his producing plant except that it shall include the transportation to the rate point to a like extent as his costs are computed under inferior subdivision (a) at that rate point and provided that he may add all other actual costs of transportation to the buyer's receiving point.

In like manner, the manufacturer shall determine his maximum price to other private brand dealers to whom he sold in 1942.

To determine a maximum price for a new private brand dealer, whether class A or class B, to whom the manufacturer did not sell in 1942, the manufacturer shall proceed in like manner to ascertain his costs as specified in inferior subdivision (a) to which he shall add the average of his margins per ton on the same or the most nearly similar commodity to the commodity being priced as sold during the months of January, March, May, October, November, and December 1942 for shipments in carload lots to all his private brand dealers for further resale. The resultant figure shall be his maximum price to new private brand dealers per ton in carload quantities, sacked, f. o. b. his producing plant except that it shall include transportation to the rate point to a like extent as costs are computed under inferior subdivision (a) at that rate point and provided that he may add all other actual costs of transportation to the buyer's receiving point.

(c) For sales in carload quantities to retailers and for deliveries in carload quantities to his established retail outlets other than sales to consumers at his producing plant, he shall (after computing costs as specified in inferior subdivision (a)) next ascertain the average of the margins per ton on the same or the most nearly similar commodity to the commodity being priced during the months January, March, May, October, November, and December, 1942, on all such sales and deliveries. He shall ascertain these average margins by deducting from the selling price or billing charge for all such sales or deliveries of each ton of such commodity during each such month the replacement cost of every ingredient used therein and of 20–100 pound bags if furnished by him provided that said replacement cost shall be the replacement cost at his producing plant except that where in his initial purchase a rate point was selected as the destination to secure favorable transit rates or balances said replacement cost shall be the replacement cost at said rate point.

The average margins so obtained for each month shall be averaged for all of said months.

He shall then add the total of the costs specified in inferior subdivision (a) to the margin determined under this inferior subdivision (c) and the resultant figure shall be his maximum price and billing charge on all such sales and deliveries per ton in carload quantities, sacked, f. o. b. his producing plant except that it shall include transportation to the rate point to a like extent as costs are computed under inferior subdivision (a) at that rate point and provided that he may add all other actual costs of transportation to the receiving point.

The maximum price or billing charge so ascertained under this inferior subdivision shall also be known as his list price.

(d) For sales in carload quantities to wholesalers and for deliveries in carload quantities to his established wholesale outlets including his producing plant by class A manufacture, the maximum price and billing charge shall be his maximum price and billing charge as ascertained under the last inferior subdivision (c) hereof less the differential given by him in 1942 from his 1942 single carload list price on each such sale or delivery and for new such sales or deliveries less the reasonable differential normal to the trade, and provided that except to the extent shipped under the transit billing he may add all actual costs of transportation to the receiving point.

(e) For sales to consumers by a class A manufacturer at his producing plant, the maximum price shall be the maximum price of his nearest retailer competitor whose maximum price is fixed under subdivision (x) hereof and provided that except to the extent shipped under transit billing he may add all actual costs of transportation to the buyer's receiving point.

(f) For sales or deliveries in l. c. l. quantities by a class A manufacturer at his producing plant to other than consumers, the maximum price and billing charge shall be his maximum price and billing charge as ascertained under said inferior subdivision (c) hereof plus an addition at the rate of $1.00 per ton and he may add all actual costs of transportation to the receiving point.

(g) For sales of pelleted mixed feeds by a class A manufacturer, the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $1.50 per ton.

(h) For sales in seller's bags less than 100 pound bags.

(1) For fifty-pound bags, the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $1.00 per ton.

(2) For twenty-five-pound bags the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $1.50 per ton.

(3) For ten-pound bags the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $5.00 per ton.

(4) For five-pound bags the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $6.00 per ton.

(5) For any other container the maximum price shall be the applicable maximum price as above set forth plus the differential above given for the weight nearest the weight of the container in question.

(A) For sales in buyer's bags less than 100 pounds the maximum price shall be the applicable maximum price as above set forth plus only the actual cost of filling the containers of the size in question.

(iii) *Maximum prices for class B manufacturers.* Every class B manufacturer of mixed feeds shall determine his maximum price per 100 pound sellers' bag for l. c. l. quantities for each mixed feed other than pelleted or mineral mixed feed as follows:

(a) He shall compute his costs per one 100-pound bag of the commodity to be priced as follows:

(1) He shall include the cost of all mill feeds, fish meal or fish scraps, animal feedingstuffs and soybean, cottonseed and peanut oil meals and cakes used at the maximum price thereof to him for the quantities normally purchased by him at the time of the calculation as prescribed by the Office of Price Administration; provided that said maximum price shall be the maximum price at his producing plant except that where in his purchase a rate point is selected as the destination to secure favorable transit rates and balances said maximum price shall be the maximum price at said rate point.

(2) He shall include the cost of every other ingredient used which is subject to maximum prices prescribed by the Office of Price Administration at the actual cost thereof to him at the time of the calculation not exceeding the maximum price (and applicable transportation charges where said maximum price is fixed on an f. o. b. basis) thereon to him at said time for the quantities normally purchased by him as prescribed by the Office of Price Administration; provided that said actual cost (and said maximum price) shall be the actual cost (and the maximum price) at his producing plant except that where in his purchase a rate point is selected as the destination to secure favorable transit rates and balances said actual cost (and maximum price) shall be the actual cost (and the maximum price) at said rate point.

(3) He shall include the cost of every other ingredient used which is not subject to maximum prices prescribed by the Office of Price Administration at the reasonable market value thereof to him at the time of the calculation for the quantities normally purchased by him; provided that said reasonable market value shall be such value at his producing plant except that where in his purchase a rate point is selected as the destination to secure favorable transit rates and balances the reasonable market value shall be such value at said rate point.

(4) He shall include the cost of one 100-pound bag for the sacking of one such bag of the commodity to be priced at the maximum price thereof to him at the time of the calculation as prescribed by the Office of Price Administration; provided (A) he shall give due proportional credit for the bags received in his purchase of the ingredients; (B) he shall give due proportional credit for the bags returned to him by his buyer from former purchases from him, and (C) he shall not include any cost for bags if the buyer furnishes bags other than by a return of bags as last above mentioned in inferior subdivision (B) hereof.

(b) For sales to consumers at his producing plant and for deliveries to his other established retail outlets in lots of one to five 100-pound bags he shall next ascertain the average of the margins per one 100-pound bag on the same or the most nearly similar commodity to the commodity being priced during the months of January, March, May, October, November and December, 1942, on all such sales or deliveries. He shall ascertain those average margins by deducting from the selling price or billing charge for all such sales or deliveries during each such month the replacement cost of every ingredient used therein and of the 100-pound bags if furnished by him; *Provided*, That said replacement cost shall be the replacement cost at his producing plant except where in his initial purchase a rate point was selected as the destination to secure favorable transit rates and balances said replacement cost shall be the replacement cost at said rate point. He shall next average the margins so obtained for each of said months to obtain an average for all of said months.

He shall then add the total of the costs specified in inferior subdivision (a) to the margin determined under this in-

ferior subdivision (b) and the resultant figure shall be his maximum price or billing charge per 100-pound bags on all such sales and deliveries f. o. b. his producing plant and he may add, except to the extent shipped under transit billing, all actual costs of transportation to the receiving point.

The maximum price or billing charge so determined under this inferior subdivision shall also be known as his list price.

(c) For sales to any other class of purchaser and for deliveries to his established wholesale and retail outlets by a class B manufacturer in quantities greater than lots of one to five 100-pound bags the maximum price shall be the maximum price as above ascertained for lots of one to five 100-pound bags less the differential given by him in 1942 under his 1942 list price for sales in lots of one to five 100-pound bags on each such sale or delivery, and for new such sales or deliveries less the reasonable differential normal to the grade and he may add, except to the extent shipped under transit billing, all actual costs of transportation to the receiving point.

(d) For sales to private brand dealers, whether class A or class B, by a class B manufacturer the maximum price shall be ascertained in like manner as the maximum price for sales to private brand dealers by a class A manufacturer.

(e) For sales of pelleted mixed feed by a class B manufacturer the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $1.50 per ton.

(f) For sales in seller's bags less than 100 pound bags.

(1) For fifty pound bags, the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $1.00 per ton.

(2) For twenty-five pound bags the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $1.50 per ton.

(3) For ten pound bags the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $5.00 per ton.

(4) For five pound bags the maximum price shall be the applicable maximum price as above set forth plus an addition at the rate of $6.00 per ton.

(5) For any other container the maximum price shall be the applicable maximum price as above set forth plus the differential above given for the weight nearest the weight of the container in question.

(g) For sales in buyers' packages less than 100 pound bags the maximum price shall be the applicable maximum price as above set forth plus only the actual cost of filling the containers of the size in question.

(iv) *Maximum prices for mineral mixed feed manufacturers.* Every mineral mixed feed manufacturer shall determine his maximum prices for each mineral mixed feed produced by him in like manner as a class B manufacturer determines his maximum prices for mixed feeds produced by him; provided that all persons other than said manufacturer selling such mineral feeds to consumers shall be deemed to be retailers for the purposes of subdivision (x) hereof whether such person takes title to the mineral mixed feeds, acts as agent of the mineral mixed feed manufacturer, or sells on a commission basis under arrangement with the mineral mixed feed manufacturer.

(v) *Maximum prices for custom mixer.* The maximum price of a custom mixer for the production of mixed feed for a consumer shall be the total of the following:

(a) The service charge for the production of the mixed feed in question at the maximum price heretofore established by the Office of Price Administration for such service; plus (b) the cost of all ingredients and bags, if any, furnished by the custom mixer for the mixed feed in question at the maximum price thereof to him at the time of the service rendered as prescribed by the Office of Price Administration (plus all applicable transportation charges to his producing plant where such charges are not included in said maximum price) or if no such maximum price has been established at the reasonable market value thereof at his producing plant at the time of the service rendered plus an addition at the rate of $7.50 per ton on all ingredients so furnished by the custom mixer for the production of the mixed feed in question, and (c) he may add all actual costs of transportation to the buyer's receiving point.

(vi) *Maximum prices for class A private brand dealers.* (a) The maximum price or billing charge for sales in carload quantities to retailers and for deliveries in carload quantities to his established retail outlets, per ton sacked, of the commodity to be priced shall be the maximum price which may be charged by the manufacturer to him hereunder and the transportation charges, if any, to his place of business for carload quantities of the mixed feed to be priced plus a markup ascertained as follows: The average of the margins per ton on the same or the most nearly similar commodity to the commodity being priced during the months of January, March, May, October, November and December 1942, on all such sales or deliveries. He shall ascertain these average margins by deducting from the selling price or billing charge for all such sales or deliveries of each ton of such commodity during each month the replacement cost of the mixed feed from the same manufacturer at the time of the sale. The average margins so ascertained for each such month shall be averaged for all of said months. The resultant figure shall be his maximum price and billing charge per ton sacked for all such sales and deliveries in carload quantities f. o. b. manufacturer's production plant except that it shall include the transportation charges to the rate point to a like extent as the maximum price of the manufacturer to him includes transportation charges to said rate point and provided that he may add all other actual costs of transportation to the receiving point. All other transportation charges to the receiving point shall be borne or charged against the receiver. The maximum price or billing charge so determined under this inferior subdivision shall also be known as his list price.

(b) For sales in carload quantities to wholesalers and for deliveries in carload quantities to his established wholesale outlets in carload lots by a class A private brand dealer the maximum price and billing charge shall be his maximum price and billing charge in carload lots as ascertained under the last inferior subdivision (a) hereof less the differential given by him in 1942 from his 1942 single carload list price on each such sale or delivery and for new sales and deliveries less a reasonable differential normal to the trade and provided that except to the extent shipped under transit billing he may add actual transportation costs to the receiving point.

(c) For sales by a class A private brand dealer to consumers other than through a wholesale or retail outlet owned or controlled by him the maximum price shall be the maximum price of his nearest retail competitor whose maximum price is fixed under subdivision (x) hereof and provided that he may add the actual costs of transportation to the buyer's receiving point.

(d) For sales or deliveries by a class A private brand dealer in less than carload quantities to other than consumers the maximum price and billing charge shall be the maximum price and billing charge as ascertained under inferior subdivision (a) hereof plus an addition at the rate of $1.00 per ton and provided that he may add the actual costs of transportation to the receiving point.

(vii) *Maximum prices for class B private brand dealers.* (a) The maximum prices for sales of mixed feed by class B private brand dealers in lots of one to five 100 pound bags shall be the maximum price therefor which may be charged by the manufacturer to him hereunder and transportation charges to his place of business, if any, plus a markup ascertained as follows: The average of the margins per bag on the same or the most nearly similar commodity to the commodity being priced during the months of January, March, May, October, November and December, 1942, on all sales in lots of one to five 100-pound bags. He shall ascertain these margins by deducting from the selling price of each bag of such commodity sold during each such month replacement cost of the mixed feed from the same manufacturer at the time of the sale and transportation charges to his place of business, if any. The average margins so ascertained for each such month shall be averaged for all of said months. The resultant figure shall be his maximum price for sales in lots of one to five 100-pound bags f. o. b. his place of business and provided that he may add all actual transportation charges to the buyer's receiving point. The maximum price or billing charge so determined under this inferior subdivision shall also be known as his list price.

(b) The maximum price for sales of mixed feed by class B manufacturers in lots of more than five 100-pound bags shall be his maximum price as ascertained under inferior subdivision (a) hereof less the differential given by him in 1942 from his 1942 list price for lots of one to five 100-pound bags to each class of purchasers and for new classes of purchasers less a reasonable differential natural to the trade.

(viii) *Maximum prices of manufacturers, private brand dealers, custom mixer and mineral feed manufacturers who did not engage in business during specified months of 1942.* The maximum prices of every manufacturer and of every private brand dealer, and of every custom mixer and of every mineral feed manufacturer who did not engage in business in the months January, March, May, October, November, and December 1942 shall be and he shall be governed by the maximum prices of his closest competitor for whom maximum prices are prescribed hereunder.

(ix) *Maximum prices for wholesalers.* The maximum price that a wholesaler and a wholesale outlet of a class A or B manufacturer or of a class A private brand dealer may charge for sales of mixed feed shall be $2.50 per ton (maximum profit margin) over the list price of his supplier hereunder together with all applicable transportation charges to his place of business (where transportation charges are not included in said maximum price) and he may add all actual transportation costs from his place of business to the receiving point; provided that for sales of mixed feed in packages of 3 pounds or less his maximum profit margin to each class of purchasers shall be the average profit margin to each such class of purchasers on sales of such packages during December, 1942.

(x) *Maximum prices of retailers.* The maximum price that a retailer and a retail outlet of a class A or B manufacturer or of a class A private brand dealer may charge for sales of mixed feed shall be $7.50 per ton (maximum profit margin) over his supplier's list price hereunder or his wholesaler's maximum price hereunder, from whichever he purchased, together with all applicable transportation charges to his place of business (where transportation charges are not included in said maximum price) and he may add all actual transportation costs from his place of business to the buyers receiving point; provided that for sales of mixed feeds in packages of 3 pounds or less his maximum profit margin to each class of purchasers shall be the average profit margin to each such class of purchasers on sales of such packages during December, 1942.

(xi) *Rounding of maximum prices.* (a) In ascertaining maximum prices hereunder on a per ton basis round the figure obtained as the maximum price to the nearest even 20¢.

(b) In ascertaining maximum prices hereunder on a one 100 pound bag basis round the figure obtained as the maximum price to the nearest one cent.

(xii) *Dealings between persons of the same class.* No person shall sell mixed feed or mineral mixed feed bought from a person of the same class to which he belongs at higher than the maximum price at which he may buy the same from such person hereunder.

(xiii) *Time for calculating maximum prices.* (a) Within one week after the effective date of this amendment every manufacturer and mineral mixed feed manufacturer shall compute his maximum prices hereunder.

(b) Within two weeks after the effective date of this amendment every other person subject hereto shall compute his maximum prices hereunder.

(c) Every person hereinbefore in this subdivision (xiii) mentioned shall also select one day of the week as the day upon which he shall thereafter recompute his maximum prices hereunder.

(d) On the selected day of each succeeding week thereafter every person hereinbefore in this subdivision (xiii) mentioned shall recompute his maximum prices hereunder. If the selected day falls on a holiday he shall recompute his maximum prices hereunder for that week on the nearest business day preceding or succeeding said holiday at his option.

(e) For the initial calculation of maximum prices as herein provided every manufacturer may select whether he will compute his maximum prices under subdivision (ii) or (iii) hereof and every private brand dealer may select whether he will compute his maximum prices under subdivision (vi) or (vii) hereof, but for each succeeding weekly calculation he shall recalculate under the same subdivision under which he made his initial calculation.

(f) Every custom or batch mixer shall compute his maximum prices hereunder at or within one week prior to the date of the production of the mixed feed involved in each transaction.

(xiv) *Prohibition against selling mixed feed unless maximum prices are computed within time limits.* No mixed feed shall be sold by any person subject hereto unless the maximum prices thereon have been computed as and in the manner hereinbefore provided and within a time not exceeding more than one week last past from the date of the transaction in question.

(xv) *Publication of maximum prices.* (a) Every class A manufacturer shall post in his place of business and mail to all his wholesalers and retailers, and deliver to others upon request, a copy of his list prices and mail to each of his private brand dealers a copy of his maximum prices as to him, all as computed weekly hereunder.

(b) Every class B manufacturer shall post in his place of business a copy of his list prices, as computed weekly hereunder and advise in some manner all his wholesaler and retailer customers and others upon request thereof and mail to each of his private brand dealers a copy of his maximum prices as to him as in the case of a class A manufacturer.

(c) Every custom mixer shall prior to the production of the mixed feed in each transaction advise the person procuring the service of his maximum price thereon calculated as hereinbefore provided.

(d) Every wholesaler or retailer shall post in his place of business a copy of his maximum prices as computed weekly hereunder.

(b) *Effective dates.* * * *

(88) This Amendment No. 87 (§ 1499.73 (a) (55)) to Supplementary Regulation No. 14 shall become effective the 22d day of January 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871).

PART 1499—COMMODITIES AND SERVICES

[Amendment 88 to Supp. Reg. 14[1] Under GMPR[2]]

SALT

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

A new subparagraph (56) is added to paragraph (a) of § 1499.73 as set forth below:

§ 1499.73 *Modification of maximum prices established by § 1499.2 of the General Maximum Price Regulation for certain commodities, services, and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services, and transactions listed below are modified as hereinafter provided:

* * * * * *

(56) *Sales of certain grades of salt obtained from producers in Louisiana—(i) Maximum prices for sales by first buyers situated in certain parts of Florida.* Any seller obtaining the grades of salt listed here directly from producers in Louisiana or such producers' agents and reselling the same may, at his option, establish as his maximum prices therefor, the prices set forth in this subdivision (i) in lieu of the maximum prices therefor established pursuant to other provisions of the General Maximum Price Regulation.

[2] 7 F.R. 3153, 3330, 3666, 3990, 3991, 4339, 4887, 5027, 4659, 4738, 5276, 5192, 5365, 5445, 5775, 5784, 5783, 6058, 6081, 5484, 5565, 6007, 6216, 6615, 6794, 6939, 7093, 7322, 7454, 7758, 7913, 8431, 8881, 9004, 8942, 9435, 9615, 9616, 9732, 10155, 10454; 8 F.R. 371.

Grade and quantity:	*Maximum cash price F. O. B. seller's shipping point*
100 lbs. C–A, No. 1, 2, 3 and 4	$1.22
100 lbs. Cotton, kiln dried, rock	1.32
6/10 lb. Pockets fine rock	1.16
15/4 lb. Pockets fine rock	1.20
50 lbs. plain stock blocks	.66
50 lbs. sulfur stock blocks	.77
50 lbs. iodized stock blocks	.93

These maximum prices for the grades mentioned above shall also be the maximum prices for other grades whose cost to the seller is within two cents per hundred pounds, per 6/10 lb. pockets or 15/4 pound pockets, or per 50-pound block, as the case may be, of the cost to the seller of the grades of salt specifically enumerated above.

This subdivision (i) is applicable only to sellers whose place of business is situated within one of the following-named counties in Florida and only to sales made from a shipping point located in one of such counties:

Marion	Hillsborough
Volusia	Polk
Seminole	Osceola
Orange	Manatee
Lake	Hardee
Sumter	Highlands
Citrus	Desoto
Hernando	Sarasota
Pasco	Charlotte
Pinellas	Lee

(ii) *Maximum prices for sales by retailers of salt obtained from a seller described in subdivision (i).* Any retailer obtaining salt at a maximum price determined under subdivision (i) may, at his option, establish as his maximum price therefor, a price which is the sum of his maximum price established pursuant to other provisions of the General Maximum Price Regulation and the difference in dollars and cents between the seller's [the seller meant is the seller described in subdivision (i)] former maximum price and the seller's maximum price under subdivision (i).

(iii) *Records and reports of sellers determining maximum prices under subdivision (i).* Any seller who determines his maximum selling price for any salt under subdivision (i) shall, within 10 days of his first sale at the maximum price so determined, file with the Office of Price Administration in Washington, D. C., a statement containing the following information with respect to each such commodity:

(a) The name of the commodity and the name of its producer.

(b) His maximum selling price on such commodity as established under § 1499.2 of the General Maximum Price Regulation together with his maximum selling price as adjusted under this amendment.

(c) The average percentage mark-up enjoyed by him during March 1942 over the manufacturer's carload price after cash discount on such commodity.

(iv) *Notification to retailers by sellers determining maximum prices under subdivision (i).* Any seller who determines his maximum price for any salt under subdivision (i) shall deliver invoices to retailers covering sales subject to this subparagraph (56) to § 1499.73 (a), and at the time of delivery attach to his first invoice to each such retailer on any sale at a price so determined a notice as follows:

The Office of Price Administration has permitted us to raise our maximum prices on certain grades of salt. These grades, with our previous and new maximum prices are as follows:

Grade and quantity	(1) Previous maximum price	(2) New maximum cash price f. o. b. our shipping point	Difference between columns "(1)" and "(2)"
100 lbs. C–A, No. 1, 2, 3 and 4	.....	$1.22	.....
100 lbs. Cotton kiln dried rock	.....	1.32	.....
6/10 lb. Pockets fine rock	.....	1.16	.....
15/4 lb. Pockets fine rock	.....	1.20	.....
50 lbs. Plain stock blocks	.....	.66	.....
50 lbs. Sulfur stock blocks	.....	.77	.....
50 lbs. Iodized stock block	.....	.93	.....
.....	.....	.....	.....
.....	.....	.....	.....

These increases represent only that part of cost increases which we were unable to absorb. Your maximum price for a sale of any of the above named grades and quantities may be increased by the difference in dollars and cents between our previous and our new maximum price for that grade and quantity, as shown in the column numbered "(3)" above. If you sell any of the above listed grades in smaller quantities than those listed, you may add to your former maximum price for that smaller quantity an amount which bears the same proportional relationship to your maximum price increase for the quantity listed above as the smaller quantity bears to the quantity listed above. O. P. A. requires that you keep this notice for examination.

*Copies may be obtained from the Office of Price Administration.

AUTHORITY: §§ 1305.401 to 1305.419, inclusive, issued pursuant to Pub. Laws 421, 507, and 729, 77th Cong.; Executive Order No. 9125, 7 F.R. 2719, issued by the President on April 7, 1942; W.P.B. Dir. No. 1, 7 F.R. 562.

SCOPE OF GENERAL RATION ORDER NO. 3

§ 1305.401 *Territorial limitation.* Except as otherwise expressly provided, all of the provisions of this General Ration Order No. 3 shall apply to the entire area included within the continental limits of the United States.

§ 1305.402 *Effect of this order on other orders.* This order shall not be construed to permit any act or omission which would be in violation of any order of the Office of Price Administration.

DEFINITIONS

§ 1305.405 *Definitions.* When used in this order, unless the context otherwise requires:

(a) "Account" means a ration bank account maintained by a participating bank in which the bank keeps a record of deposits of ration evidences and transfers of ration credits.

(b) "Bank" means any bank or trust company organized under any State or Federal law, which is authorized to and does, on the effective date of this order, maintain dollar accounts (not including savings accounts), subject to withdrawal by check or other order payable on demand.

(c) "Check" means a non-transferable ration check drawn against a ration bank account and payable to the account of a named person.

(d) "Depositor" means a person who maintains a ration bank account. A person shall be deemed a depositor with respect to each of his accounts.

(e) "District office" means the district office of the Office of Price Administration having jurisdiction over the area in which the bank is located, or, if there is no district office having jurisdiction over that area, the State office of the Office of Price Administration having jurisdiction over that area.

(f) "Evidence" means a ration evidence authorizing the transfer, delivery, or acquisition of rationed commodities issued or authorized by the Office of Price Administration, including stamps, coupons, certificates, and other similar instruments which from time to time may be issued or authorized by the Office of Price Administration, and ration checks.

(g) "Manual of Operating Procedure" means the general instructions issued by the Office of Price Administration to the participating banks governing the procedure to be followed in maintaining and operating ration bank accounts in accordance with this order.

(h) "Office of Price Administration" means the Office of Price Administration, Washington, D. C., and any regional, State, or district office thereof.

(i) "Participating bank" means a bank which has opened a ration bank account, in accordance with the provisions of this order.

(j) "Person" means an individual, corporation, partnership, joint-stock company, trust, trustee, unincorporated association, government or governmental agency, and any other organized group or enterprise.

ADMINISTRATION AND PERSONNEL

§ 1305.406 *Administration and personnel.* This order shall be administered by the Office of Price Administration through participating banks and such other agencies and personnel as the Office of Price Administration may designate.

GENERAL PROVISIONS

§ 1305.411 *Nature and effect of participation by banks*—(a) *Becoming a participating bank.* Upon opening any account in accordance with § 1305.412 (a) (1), a bank shall become a participating bank, and shall thereupon notify the district office in writing of the date of the opening of such account.

(b) *Effect of becoming a participating bank.* Participating banks shall act as agencies of and under the direction and supervision of the Office of Price Administration and shall be responsible only to the Office of Price Administration. Each participating bank shall have all the rights and powers and assume all the duties provided in this order and any amendments thereto.

(c) *Reimbursement of participating banks.* Each participating bank shall be reimbursed by the Office of Price Administration in accordance with the following schedule, which schedule is based upon the cost of operating ration bank accounts and the expenses incidental thereto:

(1) Each participating bank shall receive thirty (30) cents for the first account opened for any depositor at any one office of the bank, plus five (5) cents for each additional account opened for that same depositor at the same bank office.

(2) Each participating bank shall receive a maintenance charge of ten (10) cents for each account carried on its books on the 15th day of each month.

(3) Each participating bank shall receive five (5) cents for each deposit made, plus one-half (½) cent for each item included in the deposit.

(4) Each participating bank shall receive four cents for each ration check properly debited to an account.

(5) As used in this paragraph (c), the following terms have the following meanings:

(i) Any opening of an account, even though an old account is supplanted, shall be deemed the opening of a new account. The moving of an account from one branch of a bank to another branch thereof shall not be deemed the opening of a new account.

(ii) Where several accounts are opened at the same bank office, each of which serves a separate establishment of one person, that person shall be deemed the depositor as to all such accounts.

(iii) A credit to an account made on the order of the Office of Price Administration shall be deemed to be a deposit.

(iv) Each separate evidence shall be deemed to be a separate item, except that, in the case of coupons or stamps required by order of the Office of Price Administration to be affixed to a card or sheet, each card or sheet bearing stamps or coupons shall be deemed one item. A deposit slip shall not be deemed an item.

(v) A debit to an account made on the order of the Office of Price Administration shall be deemed the debit of a ration check to the account.

Such reimbursement shall be made promptly after receipt and approval by the Office of Price Administration of quarterly reports of ration banking transactions by the participating bank. Reimbursement at such rate shall be made to the date upon which the bank voluntarily withdraws or is required to withdraw from participation in ration banking, as provided in paragraph (d) of this section. No participating bank shall receive any further payment from the Office of Price Administration, or from any other person, for any service rendered pursuant to the provisions of this order, amendments thereto, or instructions issued from time to time by the Office of Price Administration.

(d) *Withdrawal of participating banks*—(1) *Voluntary withdrawal.* Any bank may at any time withdraw from participation in ration banking by sending, registered mail, return receipt requested, to the district office, written notice of intention to withdraw. The withdrawal shall become effective thirty (30) days after the receipt of the notice by the district office and the bank, unless specifically authorized by the Office of Price Administration, shall not refuse to open any new accounts until the expiration of the thirty (30) day period: *Provided, however,* That a bank may, upon written notice forwarded by registered mail to the district office, withdraw immediately after the publication in the FEDERAL REGISTER of any amendment to this order or any other order of the Office of Price Administration, which is effective at a date sooner than thirty (30) days after such publication, and which in any way alters the provisions contained in §§ 1305.411 (c), 1305.411 (d) (1), 1305.411 (d) (2), 1305.412 (a) (1), 1305.412 (a) (2), 1305.412 (a) (3), 1305.412 (a) (4), 1305.412 (a) (6), 1305.412 (a) (7), 1305.412 (a) (10), 1305.412 (a) (11), 1305.412 (a) (14) and 1305.413 of this order, and is not acceptable to the participating bank.

(2) *Involuntary withdrawal.* The Deputy Administrator in Charge of Rationing of the Office of Price Administration may, upon written notice sent by registered mail, require any bank to withdraw from participation in ration banking within thirty (30) days after receipt of such notice. Upon receipt of such notice such bank shall refuse to open any new accounts.

(3) *Closing out accounts.* Any bank withdrawing from ration banking shall close out all its accounts in the manner prescribed in the Manual of Operating Procedure issued by the Office of Price Administration. The bank shall also dispose of all its ration banking records and take all other steps necessary to conclude its participation in ration banking in accordance with written instructions from the Office of Price Administration. The Office of Price Administration shall issue to the bank a receipt for all documents delivered under its instructions. Such receipt shall be conclusive evidence of the delivery of the documents described therein.

§ 1305.412 *Operation of ration bank accounts.* (a) Participating banks shall:

(1) *Opening of accounts.* Open an account for any person authorized by the Office of Price Administration to maintain an account, upon receipt of a proper application. Investigate the identity of each depositor and report to the district office upon any depositor whose identity has not been verified.

(2) *Acceptance of deposits.* Accept deposits of all evidences presented in proper form for deposit. Count, verify, and maintain proper control over all evidences deposited. Credit the proper accounts with the amounts of all apparently valid evidences deposited.

(3) *Disposal of ration evidences other than ration checks.* Retain all stamps and coupons for at least fifteen days and then destroy them. Certify to such destruction periodically to the district office, which certification in the absence of fraud, collusion, or wilful misconduct shall be conclusive evidence of destruction as between the participating bank and the Office of Price Administration only. Endorse and forward all evidences received, other than stamps, coupons, or checks, to the district office.

(4) *Acceptance of checks constituting overdraft.* Accept for credit to the account of a depositor any check presented in proper form, whether or not such check constitutes an overdraft on the drawer's account.

(5) *Clearance.* Clear all checks back to the drawee bank and debit to the proper account all checks received which are drawn on accounts maintained by the bank.

(6) *Certification.* Certify only checks payable to the Office of Price Administration and immediately charge the account of the drawer.

(7) *Reversal of credits.* Reverse or cancel a credit resulting from the deposit of evidences only upon order of the Office of Price Administration.

(8) *Report and disposal of invalid ration evidences and overdrafts.* Report to the district office all items lost in transit or misplaced, and all overdrafts on accounts, and at the time the next statement is due to the depositor, forward to the district office the statement and all cancelled checks for the period in which any overdraft occurs, unless otherwise instructed by the Office of Price Administration. Forward to the district office all items received for deposit in a transaction that appears to the bank to constitute fraud.

(9) *Statements and return of checks.* Issue a statement of each account to each depositor at least quarterly and return to the depositor all checks drawn by him and debited to his account during the period covered by the statement, except as provided in paragraph (a) (8) of this section.

(10) *Disputes over balances.* Refer all disputes over the balance in any account to the district office.

(11) *Stop orders.* Refuse to honor stop orders, except those received from the Office of Price Administration.

(12) *Adjustment of accounts.* Debit, credit, close out or otherwise deal with any account maintained by it upon specific written instructions of the Office of Price Administration. Refuse to close out or transfer any accounts, except upon order of the Office of Price Administration.

(13) *Forms.* Furnish signature cards, deposit slips, ration checks, and forms used by participating banks in their internal operations in connection with ration banking, printed according to specifications prescribed by the Office of Price Administration. Issue ration checks only to depositors.

(14) *Records and reports.* Preserve, maintain and keep available for inspection by the Office of Price Administration and its authorized agents such records, and make such reports to the district office, as the Office of Price Administration may from time to time prescribe. In the absence of fraud, collusion or wilful misconduct, a report shall be final and conclusive evidence, as between the participating bank and the Office of Price Administration only, of the correctness of the matters contained therein after six (6) months from its receipt by the district office.

(b) All of the foregoing shall be done in accordance with the provisions of the Manual of Operating Procedure and such other written instructions as may from time to time be issued by the Office of Price Administration.

§ 1305.413 *Bank endorsements.* In making any endorsement, a participating bank shall not be responsible for prior endorsements notwithstanding the wording of the endorsement stamp used by the bank, but such endorsement shall constitute a certification that the item has been deposited in an account standing in the same name as appears in the endorsement next preceding the bank's endorsement.

§ 1305.414 *Bank records and accounts confidential.* All ration banking records kept by any bank and the contents thereof shall be confidential. However, they shall be subject to inspection by State and national bank examiners authorized by the Office of Price Administration to examine ration banking operations and to inspection, removal or other disposition by the Department of Justice, the Office of Price Administration and such other persons as the Office of Price Administration may from time to time direct. The records of an account shall also be subject to inspection by the depositor.

§ 1305.415 *Prohibition.* No individual shall, in any record, report or other statement made or kept pursuant to, or required by the provisions of this order, make or cause to be made any untrue statement of any fact, or omit, or cause to be omitted any statement of any fact required to be stated therein or necessary to make the statements therein not misleading.

EFFECTIVE DATE

§ 1305.419 *Effective date of General Ration Order No. 3.* General Ration Order No. 3 (§§ 1305.401 to 1305.419, inclusive) shall become effective 12:01 a. m., January 27, 1943.

Issued this 4th day of January 1943.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 300]

MAXIMUM MANUFACTURERS' PRICES FOR RUBBER DRUG SUNDRIES

In the judgment of the Price Administrator the prices of rubber drug sundries have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of rubber drug sundries prevailing between October 1 and October 15, 1941, and has made adjustment for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of considerations involved in the issuance of this Regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 300 is hereby issued.

1315.1771 Appendix A: Definition of rubber drug sundries.
1315.1772 Appendix B: Maximum manufacturers' prices for victory line rubber drug sundries.

AUTHORITY: §§ 1315.1751 to 1315.1772, inclusive, issued pursuant to Pub Laws 421 and 729, 77th Cong; E.O. 9250, 7 F.R. 7871.

§ 1315.1751 *Applicability of this Maximum Price Regulation No. 300—(a) What commodities must be priced under this regulation.* This regulation applies to the commodities listed in Appendix A (§ 1315.1771) which will be called "rubber drug sundries," in this regulation. However, this regulation is applicable to those commodities only if they are produced in the continental United States or the District of Columbia on or after February 1, 1943. This regulation does not apply to rubber drug sundries produced before February 1, 1943, the maximum prices of which are established by the General Maximum Price Regulation.

(b) *To what types of sellers this regulation applies.* This regulation applies to all manufacturers of rubber drug sundries.

(c) *Geographical applicability of this regulation.* This regulation applies to the continental United States and the District of Columbia, but not to the territories and possessions of the United States.

(d) *Effect of this regulation.* This regulation establishes maximum manufacturers' prices for rubber drug sundries. On and after February 1, 1943, the date this regulation takes effect, regardless of any contract or other obligation, no manufacturer is permitted to sell or deliver any rubber drug sundries produced on or after February 1, 1943, at a price which is higher than the maximum price fixed by this regulation, and no person is permitted to buy or receive any rubber drug sundries produced on or after February 1, 1943, from a manufacturer in the course of trade or business at a price which is higher than the maximum price.

§ 1315.1752 *Maximum manufacturers' prices for victory line rubber drug sundries.* The maximum manufacturers' prices for victory line rubber drug sundries are set forth in Appendix B, incorporated herein as § 1315.1772. The term "victory line rubber drug sundries" is defined in that section.

§ 1315.1753 *Maximum manufacturers' prices for rubber drug sundries, other than victory line, which have not been changed substantially since December 1, 1941—(a) Applicability of this section.* This section is applicable to any type of rubber drug sundry, other than victory line, which the manufacturer was producing on December 1, 1941, or which has not been modified sufficiently since that date to result in a change of more than 5 percent in its factory costs. Factory costs shall be determined in accordance with the provisions of paragraph (c) of the next section (§ 1315.1754).

(b) *Maximum prices.* The maximum price for a sale by a manufacturer of any rubber drug sundry covered by this section shall be the first applicable among the following prices, less the deduction required by paragraph (c) of this section, wherever applicable, and all discounts, allowances, and other deductions which the manufacturer had in effect for a purchaser of the same class on December 1, 1941:

(1) The price stated in the published price lists of the manufacturer in effect on December 1, 1941, for a rubber drug sundry which is the same as the rubber drug sundry being priced.

(2) The price the manufacturer regularly quoted, other than through the medium of published price lists, to a purchaser of the same class on December 1, 1941, for a rubber drug sundry which is the same as the rubber drug sundry being priced.

(3) The highest price at which the manufacturer during the period October 1 to December 1, 1941, inclusive, delivered, or if no delivery was made, at which he offered to deliver a rubber drug sundry, which is the same as the rubber drug sundry being priced, to a purchaser of the same class.

(4) For the purposes of this paragraph (b) a rubber drug sundry formerly produced by the manufacturer will be deemed to be "the same as" the rubber drug sundry being priced if it is of the same type as the rubber drug sundry being priced and if its factory costs do not differ from the factory costs of the rubber drug sundry being priced by more than 5 percent. Factory costs shall be determined in accordance with the provisions of paragraph (c) of the next section (§ 1315.1754).

(c) *Deduction of amount of the federal excise tax.* If, on December 1, 1941, the manufacturer did not bill the federal excise tax on rubber products separately, he shall deduct the amount of such tax from the price determined in accordance with the provisions of paragraph (b) of this section.

§ 1315.1754 *Maximum manufacturers' prices for rubber drug sundries, other than victory line, which are not covered by § 1315.1753—(a) How the seller calculates his maximum price.* The seller is required to calculate each maximum price for a rubber drug sundry, other than victory line, which is not covered by § 1315.1753 or which is of a type produced by the manufacturer for the first time after December 1, 1941, as follows:

(1) The manufacturer should first find the rubber drug sundry he must use in determining the maximum price of the rubber drug sundry being priced. The method for selecting this rubber drug sundry is explained in paragraph (b) of this section. The manufacturer should then find the maximum price for each class of purchaser (in accordance with the provisions of paragraph (b) of § 1315.1753) of that rubber drug sundry.

(2) The manufacturer should then determine the "factory costs" of the rubber drug sundry being priced and of the rubber drug sundry he must use as a basis for determining the maximum price of the rubber drug sundry being priced. The method for computing "factory costs" is explained in paragraph (c) of this section.

(3) The manufacturer will then find the maximum price of the rubber drug sundry being priced by adding to or subtracting from the maximum price to each class of purchaser (as determined by paragraph (b) of § 1315.1753) of the rubber drug sundry used as a basis for determining the maximum price, the amount by which the "factory costs" of the rubber drug sundry being priced is greater or less than the "factory costs" of the rubber drug sundry used as a basis for determining the maximum price.

(4) Once the manufacturer has determined his maximum price for a rubber drug sundry under this section, that price is his maximum thereafter so long as the article is not modified sufficiently to result in a change of more than 5 percent in factory costs. If the article is modified to this extent, its maximum price must be recomputed in accordance with the provisions of this section. Factory costs must be determined in accordance with the provisions of paragraph (c) of this section.

(b) *Method of selecting the rubber drug sundry used in determining the maximum price.* The manufacturer shall use the first applicable of the following rubber drug sundries, which he offered for sale on December 1, 1941, in determining the maximum price of the rubber drug sundry being priced:

(1) The rubber drug sundry which would be the same as the rubber drug sundry being priced but for changes in specifications that have taken place since December 1, 1941.

(2) The rubber drug sundry manufactured by the same processes as the rubber drug sundry being priced. If there is more than one rubber drug sundry which is manufactured by the same processes as the rubber drug sundry being priced, the manufacturer shall use that one of those rubber drug sundries whose direct labor costs are nearest to the direct labor costs of the rubber drug sundry being priced. Direct labor costs shall be determined in accordance with the provisions of paragraph (c) (1) of this section.

(3) The rubber drug sundry having the same use as the rubber drug sundry being priced. If there is more than one rubber drug sundry which has the same use as the rubber drug sundry being priced, the manufacturer shall use that one of those rubber drug sundries whose direct labor costs are nearest to the direct labor costs of the rubber drug sundry being priced. Direct labor costs shall be determined in accordance with the provisions of paragraph (c) (1) of this section.

(4) The rubber drug sundry whose direct labor costs are nearest to the direct labor costs of the rubber drug sundry being priced. Direct labor costs shall be determined in accordance with the provisions of paragraph (c) (1) of this section.

(c) *Computation of factory costs.* The factory costs of a rubber drug sundry shall be the sum total of direct labor costs, direct materials costs including waste, and factory overhead costs. The direct labor costs shall be determined by multiplying the estimated number of hours of each type of labor required in the manufacture of the rubber drug sundry by the wage rates determined in accordance with subparagraph (1) of this paragraph. The direct materials costs shall be determined by multiplying the estimated quantity of each type of material required in the manufacture of the rubber drug sundry by the materials prices determined in accordance with subparagraph (2) of this paragraph. Waste shall be determined by applying the same methods as were used or would have been used by the manufacturer in similar production on December 1, 1941, adjusted to reflect the actual quantity of waste in the production of the rubber drug sundry being priced. Factory overhead costs shall be determined in the manner set forth in subparagraph (3) of this paragraph.

(1) *Wage rates.* The wage rates applicable to any rubber drug sundry shall be the basic wage rates in effect in the manufacturer's plant on December 1, 1941, for each class of labor involved in the production of the rubber drug sundry. If the manufacturer did not employ a given class of labor on December 1, 1941, he shall use the wage rate paid on December 1, 1941, by the nearest employer operating under comparable conditions who employed that class of labor on that date, if that information is available.

(2) *Materials prices.* The price of any materials used in a rubber drug sundry shall be the highest price charged on December 1, 1941, by the manufacturer's supplier; except that if the Office of Price Administration has established a lower maximum price for the sale of that material to the manufacturer by his supplier, such lower price shall govern. If the material was not delivered or offered for delivery by the manufacturer's supplier on December 1, 1941, the material price shall be the first price at which the manufacturer's supplier offered to sell the material to a purchaser of the same class as the manufacturer after December 1, 1941, or the maximum price for the material established by the Office of Price Administration, whichever is the lower. The manufacturer's supplier shall be, (i) his December 1941 supplier of the material, or (ii) lacking a December 1941 supplier of the material, his most recent supplier of the material. If neither of these exists, it shall be his potential supplier. For the purposes of this subparagraph (2) if the manufacturer shall receive a written statement from the seller that the material is being sold at a price which is not in excess of the maximum price established by the Office of Price Administration, and if the manufacturer shall have no cause to doubt the accuracy of the statement, the price as stated by the seller shall be deemed not to be in excess of the maximum price established by the Office of Price Administration for that material.

(i) When used in this subparagraph (2), the phrase "highest price charged on December 1, 1941," means:

(*a*) The highest price at which the seller delivered, or if he did not deliver, at which he offered the commodity for delivery, on December 1, 1941, to the same manufacturer in a quantity normal for that manufacturer;

(*b*) If the seller made no such delivery or offer for delivery on December 1, 1941, to the same manufacturer, the highest price at which the seller delivered, or if he did not deliver, at which he offered the commodity for delivery, on December 1, 1941, to a purchaser of the same class as the manufacturer in a quantity normal for that purchaser;

(*c*) If the seller made no such delivery or offer for delivery on December 1, 1941, to the same manufacturer or to a purchaser of the same class, the highest price at which the seller delivered, or, if he did not deliver, at which he offered the commodity for delivery, on December 1, 1941, to a purchaser of a different class, in a quantity normal for that purchaser, adjusted to reflect the seller's customary differential between the two classes of purchasers.
